LEBANON, PA.

WEDNESDAY, JUNE 22, 1859.

## HOME AFFAIRS.

SCATTER THE LIME.—Lime may be used in several ways very advantageously just now. Scatter it around your cesspools and kitchen drains, and over the floor of your cellar where vegetables have been stored. It is a powerful disinfector, to prevent unpleasant and unwholesome odors. Use it liberally, also, as whitewash.

The Sunday Schools will celebrate the 4th of July as usual, and, we understood, in the usual places.

The corner room, on the first floor of Funck's new building is offered for rent. See advertisement.

The two farms of Mr. Samuel Etter were sold by the Sheriff last week. The farm on which Mr. Etter lives, containing 230 acres, was sold to Mr. Jacob Engle, of Dauphin county, for $105 per acre—$24,150. The other farm containing 225 acres, was bought by Mr. David Kreider, at $46, subject to the mortgage, which would bring it to about $93.

LAUER'S WELL.—The Artesian Well at Lauer's Park, has attained the depth of 800 feet. The rock is a carbonate of lime, and so very hard that occasionally the bore almost entirely stops progress. There is water in abundance, but no overflow. It is strongly impregnated with carbonic acid.—*Reading Times.*

COUNCIL PROCEEDINGS.—Met June 16. The following orders were drawn, viz:—Gas, 1 month, $18; Focht & Sons, $62,32, brick in 1858; S. Babb, policeman, $15; H. McCord, do. $15; Appeal Officers, $4; D. E. Miller, $6 for making duplicate and filling up appeal notices; Street Commissioner, $32,25 for work done on Mulberry street; $2,50 for do., on Water street; $11,62 for do. on Rohrer's road; Josiah Funck, Esq., for H. T. Rocholl's & wife, appeared before Council and protested against the straightening and widening of Pinegrove street. The following resolution was adopted:

Resolved, That the street Regulator be directed to draw an ordinance to open, straighten, and widen Pinegrove street, from the Railroad to the North Lebanon borough line.

On motion Mark's Alley was ordered to be cut down. The street Commissioner was ordered to open a gutter along the old channel, through Goodhart's meadow. On motion, the Street Regulator was ordered to have the guttering made where property holders, after notice neglect or refuse to have the same done themselves. On motion a Culvert was ordered to be constructed on the east side of Walnut street, from the Railroad to the Quittaphahilla. On motion the property holders along the south side of Chestnut street, from Plankroad to Mark's Alley, were ordered to dig down their pavements, with permission, however, to leave 5 feet of the enbankment standing until new buildings are erected. The Collector and Treasurer each gave bonds in the sum of $6,000 for the faithful performance of their duties.—Adjourned.

☞ The following is an extract from a letter lately received by a friend, from a Lebanon county farmer out west:—

CANTON, Ohio, June 10, 1859.

"We had a bad frost last Saturday night. It froze everything except the Oats, which it hurt but very little. Wheat, rye, corn, potatoes, apples, cherries, grapes, and all the garden vegetables, froze down to the ground. According to my judgment, of wheat farmers will not get enough to pay for cutting off. We had a very heavy hail storm the week before last in Carroll and Cochocton counties, south of us. It is reported that hail was 4 feet deep on the ground, and as big as goose eggs. It is very cold here.—The leaves of the trees are frosted yellow. They are offering $2,25 for a bushel of wheat, but could not buy a bushel in a week. Flour is $10 a barrel, and hardly to be got."

Yours, &c. L. B.

Cattle is now shipped from Chicago, to New York, via Lebanon Valley Railroad, with but one change of cars, (at Pittsburg.) Stock carrying is becoming quite an item for the road, and is constantly increasing in importance.

The exhibitions of Signor Blitz, in this borough, last week, netted about $300 to the Fire Company.

We were sorry to forego the kind invitation to attend a Pic Nic and Ball, on Saturday last, at the "Prospect House," Missimer's Station, L. V. R. R. Other engagements interfered. We trust the party had a pleasant time.

Every instance of fast and reckless driving through the streets of our borough, should be prosecuted. On Saturday evening a party not only came near breaking their own necks, but endangered the lives of all who happened to be on the route of their wonderful exploits of Jehuism.

We respectfully invite the attention of the public, to Dr. Ross' pure fountain Soda Water, prepared in iron fountains lined with porcelain, from the best materials, and flavored with the choicest fruit syrups. All who desire a delicious, healthy and ice-cold beverage should call at Dr. Ross' Drug Store, Opposite the Court House.

The Basement of Funck's new building has been taken by Mr. G. F. Reinhard, who intends shortly to re-open it as a Restaurant. In connexion therewith he has also taken the Hall on the third story, which is to be nicely fitted up for a Billiard Saloon.

WALKING SPANISH.—We noticed the other day a high official escorting in Spanish fashion a drunken man to the Squire's office. As old Jimmy was at work the next day we presume the difficulty was amicably settled.

Lemberger's Soda Water, Oh! it is delightful! Very refreshing! The most luscious drink I have tasted, are frequent exclamation of its quality at Lemberger's Soda Fountain.

The Evangelical Lutheran Synod is now holding its 112th session, in Salem's Lutheran Church of this place. The attendance of preachers is large.

☞ The following accounts of as disgraceful a proceeding as ever human beings were guilty of, is from the Wheeling (Va.) *Intelligencer* of a late date:

For some time past, a woman named Sarah Gatton, with her daughter and son, have been living in Mount Liberty, Belmont county, Ohio. Their habits of life are rather opposed to the regulations of good society in this country. Their house was the resort of men whose names were not altogether unsullied, and the women lived in open adultery with two persons, much to the shame and disquietude of the better people of the village. On Friday night last a party of men made a descent upon the premises, cut out the front part of the building, and demolished everything in the house. The lawless party then emptied the feather beds, and after thrashing young Gatton severely, tarred and feathered him. They made him promise to leave the house and go to work. After this, Mrs. Gatton and her two daughters, the latter of whom is only sixteen years of age, were treated to a coat of tar and feathers, and actually carried through the streets on two rails, together with a man named Bryan, and the son, who occupied a similar vehicle.

THREE CALVES AT A BIRTH.—A cow belonging to Levi Mast, of Caernarvon township, Berks county, gave birth to three calves on Friday, the 10th inst. One of the calves lived but a few hours, the other two are thriving and "getting fat."

☞ The twin daughters of Abraham Guise, of Gettysburg, Pa., died there recently at the age of 44 years. "They were born and raised together—never separated for a single night during their lives—took the same disease, (measles) died within a few hours of each other, and were buried side by side in the same grave. They traveled life's path hand in hand, and in death they were not parted."

☞ The Savannah *Republican* says water mellons, the growth of that latitude, made their appearance in the market on Saturday last. It says they were of medium size and priced at 50 cents.

HOG CHOLERA.—We learn that this terrible disease is prevailing to an alarming extent among the hogs at Bridgeport, Fayette county. A large number very fine ones have died from its effects during the past four weeks.—*Wash. (Pa.) Examiner.*

☞ The Millerites in New Jersey held a meeting, June 12, at Newark, to condole with each other on the postponement of the destruction of the world. The Newark Mercury says: "At the meeting of those deluded people at Union Hall in the morning, one of the speakers said that if he had been announced in the newspapers that it this day did not witness the end of the world, they would give up their belief and cease to hold their meetings. This was an error. They intended nothing of the kind. If the world didn't come to an end, the night take place, he counselled his hearers to be in no wise cast down, but to hold up their heads and look according to the Scriptures, 'time was up' He had not prophetic vision, and there might be some error in the calculation, but as far as he could see it was high time for the consummation of all things in general, and everything in particular.'

PHARAOH'S LOCUSTS.—The year 1859 is considered to be the locust year. We well remember their coming in 1833, at which time they hung from the branches of the trees in our public squares like honey bees, when "hiving." These singular insects came again in the year 1846, and there are, doubtless, many in our community who remember the ringing sound with which they made the public squares vocal. We think they made their appearance in the month of June. It is said they come every thirteen years. If this be correct, we may shortly expect to see them among us. They appear to be harmless. They come suddenly, and take their departure just as quickly.

☞ The New York *Tribune* announces that the Pike's Peak express, in which Horace Greeley was a passenger, upset near Denver City, slightly injuring the philosopher. It is understood, however, that a roll in the 'free dirt' of Kansas did not in the least injure his white coat and used-up hat. These are proof against such calamities.

☞ Storekeepers should keep a look-out for counterfeit five dollar notes on the Phillipsburg Bank of New Jersey. The vignette is three men rolling a log; on right end, two men plucking corn; on left, three men shearing sheep. Notes answering this description, for any bank, are worthless, as they are printed from the original plate of a broken Georgia institution.

HOW YOU MAY KNOW GOOD FATHERS.—It is a good sign and true when you see amid a little group of boys one dart from the rest, and tossing his arms above his head, and shouting, "*There's my Father!*" as he runs to meet him. You may be sure, no matter what business troubles sooner that man may have, that there is a spot in his heart still fresh and green, which the cares of the world have had no power to blight. "There's *my* father!" With what a pretty pride the little fellow shouts this. He must be, indeed, a brute whose fatherly heart does not swell with love, whose eyes feel amply repaid for that day's toil, no matter how wearisome. After all, *love* is the only thing worth having in this world. They who stand over new-made graves tell us so.—Fame and money and ambition dwindle to nothing beside the white, calm brow of death, though God knows it may be the youngling of the flock, whose lips have never even learned a syllable of our names.

A HEAVY "RUN" AT BILLIARDS.—The Jamesville Times says Frank Parker, formerly of Milwaukee, whose friends lately published a challenge to any person in the State, made a "run" of five thousand one hundred and seventy points on Saturday, June 4th, on the Hyatt *House* table. It was made while playing an ordinary full game, and the first twenty-one points were made "round the table," after which the two red balls and the cue ball being about eighteen inches from the cushion, he played them skillfully and carefully as to make one thousand seven hundred and sixteen consecutive carroms, making in all 6171 points! The billiards were fairly made, and the time occupied was about two hours, when Frank being fatigued, and doubtless somewhat nervous and excited, accidentally "froze" them and thus was compelled to "dry up." This is said to be the largest run which has ever been accomplished by any player. A gentleman in New Orleans once made 4144, and another in some portion of Illinois (we think Galena) made very near 3000.

☞ A correspondent sends us a copy of the Norwich (England) *Mercury*, with the following card marked. It will be seen that Barnum has not forgotten his Humbuggery; the card having been published soon after he was saluted with a volley of eggs, at a political meeting, where he had the impudence to make a speech in favor of the Parliamentary candidates:

TO THE
ELECTRESSES AND ELECTORS
OF THE
CITY OF NORWICH.

LADIES AND GENTLEMEN:

ACCEPT my hottest (warmest is tame) thanks for the no end of support which you DIDN'T give me—only because I didn't give you the opportunity.

The reasons which led me to give you the go-by on the day of Nomination were *many and weighty*, or they wouldn't have weighed with me—that's a fact.

I give the pair of parliamentary coves joy of their bargain. They've got their whistle—and whether 'tis dear or cheap is no concern of ours. If *I'm* satisfied, and *you're* content, and *they're* happy—What's the odds?

Believe me (or not, as you like)
Your's to the end of time,
(without being tied to a second or two)
P. T. BARNUM.

A SCHOOL MISTRESS MAY DANCE.—In Steuben county, New York, recently a County Supe intendent or Commissioner of Schools, refused a teacher's certificate to a Miss Head because she declined pledging herself not to dance during her engagements as teacher. Miss Head applied to the State Superintendent, who sustained the appeal, thus establishing the right of school mistresses to dance.

During our visit to Lowel we were shown through the Laboratory of our celebrated countryman, DR. J. C. AYER. Scarcely could we have believed what is seen there without proof beyond disputing.

They consume a barrel of solid Pills, about 50,000 doses and 3 barrels of Cherry Pectoral, 120,000 doses per diem. To what an inconceivable amount of human suffering does this point! 170,000 doses a day!! Fifty million of doses per year!!! What acres and thousands of acres of sick beds does this spread before the imagination! And what sympathies and woe! True, not all of this is taken by the very sick, but alas, much of it is. This Cherry Drop and this sugared Pill are to be the companion of pain and anguish and sinking sorrow—the inheritance our mother Eve bequeathed to the whole family of man. Here the infant darling has been touched too early by the blight that withers half our race. Its little lungs are affected and only watching and waiting shall tell which way its breath shall turn. This red drop on its table is the talisman on which its life shall hang. There the blossom of the world just bursting into womanhood, is stricken also. Affections most assidious care skills not, she is still fading away. The wan messenger comes nearer and nearer every week. This little medicament shall go there, their last perhaps their only hope. The strong man has planted in his vitals, this same disease. This red drop by his aid is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick sorrow and fear lest the rod on which they lean in this world be broken.

O Doctor! Spare no skill, nor cost, nor toil, to give the perishing sick the best that human art can give. *Galveston, Texas, News*

IMPORTANT TO YOUNG MEN.—Our New York correspondent informs us that he has known DR. DELANEY, (whose advertisement is in our paper of this week,) for several years, and that his representations may be relied on. He is an old practitioner, who has made this department of medicine a speciality and who has met with the confidence and success he deserves.

## DANGEROUS EXPERIMENT.

*Shooting a Woman with an Air Gun.*—John Wilson, a recent importation from Nova Scotia, while taking a ramble through the city on Saturday afternoon, espied an air gun in a hardware store. Never having seen one before, his curiosity was excited, and he determined to invest a few dollars in the purchase of said weapon. Evening came, and with it a strong desire on the part of "Nova Scotia" to try the wonderful powers of his new gun. Accordingly he proceeded to his bedroom, in the fifth story of the Globe Hotel, in William street, and forthwith commenced practising at a gas lamp, on the corner of William and Frankfort streets. At the first fire the glass was shattered to atoms, to the great surprise of several persons who were passing; a second, third and fourth bullet passed over their heads. The third shot struck the iron work on the lamp, and glancing off, came very near putting an end to the useful career of policeman Caldwell, of the Fourth precinct. The fourth ball passed through the show window of a saloon opposite the hotel, lodging in the neck of Mrs. Elizabeth Davis, of Williamsburg, who was partaking of some strawberries and cream, in company with her husband. The bullet entered the back of the neck, near the spinal column, and came well nigh proving fatal. A doctor happening to be in the immediate neighborhood at the time, the sufferer was promptly relieved, or else the consequences might have been serious. Feeling satisfied that the shots came from one of the upper stories of the Globe Hotel, officer Caldwell proceeded to search all the rooms on the 3d, 4th and 5th floors. At last he came to the room occupied by Wilson, and knocking at the door, demanded admittance. "Nova Scotia" seemed astonished at the intrusion of the officer, and pretended that he had been lying on the bed asleep.

The general appearance of Wilson, however, created a suspicion in the mind of the officer that he had hit on the right person, and his suspicions were confirmed on finding an air gun concealed under the bed, and near it a number of leaden bullets, corresponding exactly in size with those which had been aimed at the lamp post.—Upon charging Wilson with the offence the latter denied his guilt, but subsequently admitted that he was the author of all the mischief. By way of explanation, however, he said that he had no intention whatever of harming any one, and expressed his deep regret at having wounded Mrs. Davis. Yesterday morning Wilson was brought before Justice Osborn, at the Lower Police Court, when he was locked up for examination. The ball was subsequently extracted from Mrs. Davis' neck, and she is now in a fair way of recovery. It was by the merest chance in the world that she escaped with her life, for had the bullet passed half an inch to the right she would no doubt, have been killed instantly. It is to be hoped that Mr. Wilson's experiments with his air gun will be a caution to persons in the habit of using fire-arms and other dangerous weapons.—*New York Herald, 13th.*

A NEW "SELL."—A good story is related of some graceless wags, who had neither the fear of devils nor arctic dogs before their eyes, who amused themselves and sold the crowd in attendance upon a place of amusement. The scamps got a few pails of water, and wet the stairs and sidewalk with a thorough drenching, and stood all around the door-ways with their umbrellas wide spread; which ominous sight was taken by the young ladies and their beaux as they came down stairs, as a pretty good sign of rain overhead. It is said that the girls pulled out their handkerchiefs and covered up their bonnets, and gathered up their skirts, lawns and diminity in their hands, and thus close-reefed, under bare poles, began to scud toward home. It is but just, however, to say that they were not the only ones sold, as the older heads, who ought to have known when "it rained," were equally imposed upon. It was not long, however, before they all began to see stars, dry walks, and the way they had been sold. Those ladies will get a little wet the next time, before they cover up their bonnets.—*Harrisburg Patriot.*

DESCENT OF AN IMMENSE METEORIC BODY IN OSWEGO COUNTY.—On Wednesday morning, the inhabitants of the towns of Boyleston, and Redfield, in this county, were startled by the occurrence of a most remarkable phenomenon—the descent from the heavens of an immense meteoric mass. The body struck the earth between the hours of three and four o'clock, P. M., with a crash that was truly terrific, and the shock was sensibly felt and people aroused from their sleep at a distance of five miles from the scene. The body fell upon the farm of Horace Sanger, situated on the line of Boyleston and Redfield, striking in a meadow and partially on the highway. It is estimated by our informant to cover about half an acre of land. The earth was torn up in a terrible manner, and large fragments were thrown a distance of two thirds of a mile. The mass is very irregular in shape, and rises at some points to sixty and eighty feet in height, and is supposed to be imbedded in the earth as many feet. The surface has generally the appearance of iron ore. The excitement occasioned by the event among the inhabitants was intense, and the crash is said to have been terrific beyond description. Many supposed that the final winding-up of terrestrial affairs had truly arrived.—*Oswego Palladium.*

A THEORY EXPLODED.—We have heard of a recent instance of a fine horse being killed in his pasture by lightning. It has been said that lightning never breaks the flesh. This case explodes that theory, as the lightning struck this colt back of the shoulders and made a passage through the animal, body, lungs and heart, large enough to admit a man's fist. On being struck he made a desperate leap of about fifteen feet, and fell dead and rigid.

☞ Over a bridge in the town of Athens, Georgia, is posted the following notice: "Any person driving over this bridge in a pace faster than a walk, shall, if a white person be fined five dollars; if a negro, receive twenty-lashes, *half the penalty to be bestowed on the informer!*"

The Utica *Herald* reports that Mrs. Daniel E. Sickles has taken rooms for the season at the Clifford Springs Hotel, and that she will resist any application of her husband for a divorce, and will furnish proof of infidelity on his part which will prevent any decree in his favor.

☞ Mr. John Wise made a balloon ascension from the Centre Square in the city of Lancaster, on Tuesday afternoon of last week. After getting pretty well up he became enveloped in a storm cloud—and fearful of dangerous consequences he descended to the earth, threw out a rope, which was grasped by a sturdy farmer, who held on to it manfully until he got more assistance. After resting a spell, Mr. Wise again mounted, encountered the storm once more, and concluded to come down in earnest, which he did in East Earl, about thirteen miles from the city. Mr. Wise left next day for St. Louis to prepare for his grand balloon excursion from thence to the Atlantic coast. The balloon with which the experiment is to be tried is capable of carrying twenty persons. It is furnished with a boat, by which the æronauts intend to raise and lower themselves without discharging gas or ballast, and thus be enabled to remain up as long as they please. The balloon was built by Mr. J. La Mountain, of Lansingburg, New York, who, in connection with Mr. O. A. Sager, started the idea of a voyage across the Atlantic in a balloon at the present time. The æronauts propose to start from St. Louis about the 22d or 23d instant, and come as far east as possible, until they reach the Atlantic coast; and, if successful in this experimental trip, they propose at some future time this season to attempt a voyage across the Atlantic. The parties engaged in it are men of experience, and are said to be sanguine of success.

GOOD FOR CONNECTICUT.—The three proposed amendments to the Connecticut State Constitution, reducing the number of the Representatives in the Legislature, allowing colored men to vote, and requiring an adopted citizen to reside in the State one year before becoming an elector, have all been defeated in the House of Representatives, the first by yeas 49, nays 173; the second, yeas 49, nays 173; and the third, yeas 21, nays 197.

Connecticut is an old Democratic State; and although she has of late years departed from the true faith, we are glad to see that there is yet enough of the Democratic leaven pervading her people, to save them from disgracing themselves by elevating negroes to a political equality with white citizens, and (as Massachusetts has just done) degrading adopted citizens by denying them the right to vote for one year beyond the period of probation prescribed by the Congress of the United States. Connecticut will come out right next year, we do not doubt.

A LONG SENTENCE.—Levi Long, postmaster at Pleasant Union, Somerset county, who was convicted at the present term of the United States District Court, for stealing a gold dollar from the mail, was yesterday sentenced by Judge McCandless, to fifteen years in the western Penitentiary—the motion for a new trial having been overruled. The prisoner is perhaps over fifty years of age, and hitherto his reputation has been that of an honest, upright citizen.

RATHER SINGULAR.—The way the body of the railroad conductor, drowned in Shrewsbury (Vt.,) pond, some days ago, was found thus: Some quicksilver was put in a loaf of brown bread, and the latter placed in the water; immediately it started off like a live animal, against a strong current of wind and waves, and went as fast as some men who followed it could row a boat, till it came to where the body was found, which was sixty feet under water, and there stopped!

## Special Notices.

### HAIR DYE—HAIR DYE—HAIR DYE.
### Wm. A. Batchelor's Hair Dye!
*The Original and Best in the World!*

All others are mere imitations, and should be avoided if you wish to escape ridicule.

GRAY, RED, OR RUSTY HAIR Dyed instantly to a beautiful and Natural Brown or Black without the least injury to Hair or Skin.

FIFTEEN MEDALS AND DIPLOMAS have been awarded to Wm. A. Batchelor since 1839, and over 80,000 applications have been made to the Hair of his patrons of his famous Dye.

WM. A. BATCHELOR'S HAIR DYE produces a color not to be distinguished from nature, and is WARRANTED not to injure in the least, however long it may be continued, and the ill effects of Bad Dyes remedied; the Hair invigorated for Life by this Splendid Dye.

Made, sold or applied (in 9 private rooms) at the Wig Factory, 233 Broadway, New-York.

Sold in all cities and towns of the United States, by Druggists and Fancy Goods Dealers.

☞ The Genuine has the name and address upon a steel plate engraving on four sides of each Box, of

WILLIAM A. BATCHELOR,
233 Broadway, New York.

Sold at Dr. Ross' Drug Store, Lebanon, Pa.
Dec. 1, 1858,-1y.

### WIGS—WIGS—WIGS.

BATCHELOR'S WIGS AND TOUPEES surpass all.—They are elegant, light, easy and durable.

Fitting to a charm—no turning up behind—no shrinking off of the head; indeed this is the only Establishment where these things are properly understood and made.

Dec. 1, 1858.-1y. 233 Broadway, New York.

### DALLEY'S MAGICAL PAIN EXTRACTOR.

In all diseases inflammation more or less predominates—not to allay inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR,
*and nothing else,* will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR

will cure the following among a great catalogue of diseases: BURNS, SCALDS, CUTS, CHAFES, SORE NIPPLES, CORNS, BUNIONS, BRUISES, STRAINS, BITES, POISON, CHILBLAINS, PILES, SCROFULA, ULCERS, FEVER SORES, FELONS, EAR ACHE, PILES, SORE EYES, GOUT, SWELLINGS, RHEUMATISM, SCALD HEAD, SALT RHEUM, BALDNESS, ERYSIPELAS, RINGWORM, BARBERS ITCH, SMALL POX, MEASLES, RASH, &c. &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its opposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR.

In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

For sale by all Druggists and patent medicine dealers throughout the United States and Canadas.

Principal Depot, 105 Chambers St., N. York.
C. F. CHACE.

Sold at Dr. Ross' Drug store, Lebanon, Pa.

IMPORTANT TO FEMALES.—Dr. Cheeseman's PILLS.—The combinations of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and sickly countenance is changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes. Persons residing where there are no agency established, by enclosing One Dollar in a letter, *prepaid*, to any authorized agent can have them sent to their respective addresses by return of mail.

R. B. HUTCHINGS, General Agent for the U. States, 165 Chambers st., New York. To whom all Wholesale orders should be Addressed.

Sold at Dr. Ross' Drug Store, Lebanon, Pa.
Dec. 1, 1858.-1y.

## Religious Notices.

Preaching in the Methodist Episcopal Church next Sunday morning and evening.

Union Prayer Meeting at the Temperance Hall, at 8 o'clock, every Monday evening.

Episcopal Services, on next Sunday at 3, P. M. and 7½ P. M.

Rev. Mr. Oaks will preach at Globe Longenger's Springs, next Sunday afternoon, at 5½ o'clock.

English services in Zion's Lutheran Church, next Sabbath morning, and evening, and German in the afternoon at 2 o'clock.

German preaching next Sunday morning in Salem's Lutheran Church.

English preaching next Sunday morning, in the Reformed Church.

## Married.

On the 19th inst., by Rev. A. C. Wedekind, Mr. Franklin Ruth, to Miss Ellen Helter, both of Jackson township, Lebanon county.

On the 12th inst., by the Rev. T. H. Leinbach, David Bomberger, to Miss Rosanna Thuma, both of South Lebanon.

## The Philadelphia Market.

PHILADELPHIA, June 20, 1859.

FLOUR AND MEAL.—The market for Flour at the close is extremely dull at previous quoted rates, the week's sales reaching only some 6000@7000 bbls, partly to go West, at $6 75 @ 6 87½ for mixed superfine; $7 for standard and good straight do; $7@7 25 for common and good extras, and $7 50@8 for extra family and fancy lots; sales to the trade within the above range of prices for superfine and extra, and $8 50 @9 ₱ bbl for fancy and premium brands. Rye Flour is steady at $4 50 per bbl. Sales of Corn Meal at $4 per bbl. The inspections for the week ending the 17th instant are 3682 bbls flour, 1403 bbls corn meal, and 500 bbls rye flour. GRAIN—About 20,000 bushels of Wheat sold at 165@170c. for fair and good reds and 175 @180c for white. Rye is in good demand at 90c. Corn—sales of about 25,000 bushels, mostly Pennsylvania yellow at 90 @87c. Oats—Sales of about 18,000 bushels, at 51@50c for prime heavy Pennsylvania, and 49@46c for good Southern, chiefly in store. Buckwheat has met with an active inquiry to go West, and large sales have been made at $1 25@1 50c ₱ bushel.

PHILADELPHIA CATTLE MARKET.—The offerings of Beef Cattle this week reached about 1100 head at the different yards. The receipts were mostly of inferior quality, and prime cattle were in good demand, and brought full prices, which ranged at from $8 to $12 the 100 lbs., the latter for extra quality. Of Cows and Calves the arrivals at Martin's were 200 head, sales ranging at from $40 to $50 for prime milch Cows, and $25 to $35 for common do. About 1800 fat Hogs were yarded at Imhoff's this week, and all sold at from $8¼ to $9¼ the 100 lbs. net. Some 6000 Sheep arrived at Martin's this week, and sold at 4@4½c ₱ lb gross for fat sheep, and $2@2½ each for stock Sheep.

### THE SECRET INFIRMATIES OF Youth and Maturity

JUST PUBLISHED, GRATIS, 25th Thousand:

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhœa, or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Premature Decay of the system, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that the many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed WITHOUT MEDICINE; is in this small tract clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELF perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to address, gratis and post-free in sealed envelope by remitting (post paid) two postage stamps to DR. B. DE LANEY, 58 East 31st Street, New York City.

June 22, 1859.-3m.
