The Corner,

A PARAGRAPH FOR BOYS.—It is one of the besetting sins of young men in this extravagant age to endeavor to get rid of work by seeking for easy and lazy employment; and the consequence is, that many of them turn out worthless vagabonds. Boys avoid this whirlpool as you would a plague spot, banish from you the dangerous desire to live without work. Labor is the honorable, dignified; it is the parent of health, wealth and happiness; look upon it as an invaluable blessing, and never as a burden, or curse. Shun idleness and sloth; persue some honest calling, and be not ashamed to be useful.

A new wonder has been discovered in New York, in the person of a man nomed Karl Saul, who it is asserted, has four eyes! He has one pair in the usual place, and another in the back of his head. A correspondent of the Evening Post, who enjoys the acquaintance of the individual says that "both sets of eyes are perfect, and he sees backwards and forwards at the same time, with equal ease, comprehending at a glance every thing within the range of his vision either way. The objects which he simultaneously beholds, he will describe with wonderful accuracy. Indeed, he is remarkbale for his descriptive powers. Mr. Saul is a man of extreme diffidence. and the peculiarity of his visual construction has heretofore been known only to some of his most intimate friends. The back of the head is quite flat; but he has long hair, which effectually conceals the large eyes, which are generally protected by a bandage." As if the above is not wonderful enough, the correspondent of the Post makes the following statement: "He is highly intelligent, and social in his habits, and owns considerable property, which he has accumulated by honest industry."

nea Thephenomena of frogs appearing just after a shower is thus explained in Buckland's Curiosities of Natural History: The animals had been hatched, and quitted their tadpole state and the pond at the same time, days before they became visible to or rather observed by mortal eyes. Finding it unpleasant in the hot parched fields, and also running a great up by the heat of the sun, they wisely retreated to the coolest and dampest places they could find, namely, under clods and stones, where on account of their dusky color, they escaped notice. Down comes the rain, out come the frogs well pleased with the change. Forthwith appears an article in a country paper; the good folks flock to see the phenomenon.—

There are frogs hopping about; the visitors remember the shower, and a "simple countryman" swears the saw them fall. Frogs, visitors, countrycount of their dusky color, they es-

FORETHOUGHT.—There never was a wiser maxim than that of Franklin: "Nothing is cheap that you do not want; yet how perfectly insame many persons are on the subject of buying things cheap. "Do tell me why you have bought that cast-off door plate?" asked a husband of one of these noble bargainers. Dear me," replied the wife, "you know it is always my plan to lay up things against time of need. Who knows but you may die, and I may marry a man with the same name as that on the doorplate."

TWENTY-TWO YEARS'

Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives trise to a series of protracted, insidious, and devastating affections.

serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affectious.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. [See pages, 27, 28, 26, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less cuergy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his carly follies. These are considerations which should awaken the attention of all who are similarly situated.

He who places himself under Dr. Kenkelin's treatment, may religiously confide in his honor as a gentle man, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one, who, from education and respectability, can certainly befriend you.

profula, or King's Evil, is a constitutional disease; a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed,

it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; conscquently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, Arl. Complaints arising from Vitiated on Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and diagerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Coxiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so nu-So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten. be forgotten.

Sworn statement of David M'Creary, of Napier Tawie slip, Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my lip, which soon be came enlarged and sore. I used poultices of sorrel, and wash of blue vitrel, without effect. Finding the serextending, I called on Dr. Ely, of Schellsburg, who pronounced it Caycan, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of me avail, I called unpo Dr. Shaffer, of Davidville. Somered county, who also pronounced the disease Cancer, and gave me internal and external remidies—the latter constitution of the principally caustici: but all to no purpose, to the disease continued spreading toward the nose. I hext used a preparation, of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soen increased. I next called upon Dr. Statler, of St. Clair-ville, Bedford county, who also pronounced the disease cancer, and applied a salve said to be a never failing remedy; but it hadno effect whatever in checking the spread of the sore. In December, of the same year, the disease had asten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Elective Medical College. He pronounced the disease "acutanous Cancer, superinducal by an investigate." and had attacked the nose, when I went to Cheinnait where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "acutanous Cancer, superinducad by an inordinate use of mercury." He applied mild zinc ointment, and gave no internal-Medica. My face healed up, but the inflammation was not thoroughly removed. In February, 185, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night! Late in May I returned is Cincinnait, and again placed myself under the charge of Dr. Newton, with whom I remained until Septemberdaring which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also medicine that I got from Dr. Ely, but the Cancer outinued, growing until it had eat off the left side of my mose, the greater portion of my left check, and hod citacled my left eye. I had given up all hope of ever being cured, since. Dr. Ely said he could give relief but that a cure was impossible. In March, 1838, I bought a bottle of "Blood Scarcher," but I must confess that I had no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcer commenced drying up. I continued, and when the third bottle was takenny fee was healed as if by a miracle. I used a fourth bottle and I I are been healthier singe than I have been for the last seven years. Although my face is sadly disfigured.
