We have the following Machines that we can recommend to our farmers, viz.—

How are they to be fixed or the broken pieces replaced, and particularly a Resper which, by breaking in the midst of your Harvest may deprive you of the use of it for seven days, whilst had it been bought at home it would have been ready for use again in a faw-hours, as we have the patterns for all the Machines that we sell, and keep a good stock of extras on hand, so that you cannot come amiss.
