That E NOTICE.

The old stone worm is come to life again.

JOHN PETER MOYER would respectfully inform the public that be continues the business of LIMESTONE SAWING AND DRESSING by horse power; in Chestmut Street, East Lebalion. He finishes the following articles out of the best and soundest limestone that can be procured in this neighborhood, riz:—Door Stlls and Platforns, Steps, Window Sills and Heads, Cellar Door Cheers, Cure-Stones, Sheeper blocks, as well as any other article that can be manufactured of limestone. His Curb-stones are from four to five inches thick; and his prices in accordance with the quality.

He was the first person that introduced the lime-stone into this place, and is now prepared to finish off limestone so as to give it an appearance very little inferior to that of the handsomest Marble, in proof of which assertion he directs the public to the finished work at his establishment. He respectfully invites all those who intend erecting new buildings, to call at his establishment and convince themselves of the excellent finish of his work as also of the cheapness of his prices.
