CUSTOMS OF THE EAST. Nearly everybody wears a seal-ring on the finger, suspended to his watchchain, or attached to his purse, having his name engraven upon it; and this he affixes to all important letters and papers-a biblical custom preserved in all pers—a biblical custom preserved in all its extent. If you wish to be very respectable, you must take a large sheet, and the lines should incline upward toward the left corner of the paper. It must be folded long, like documents on file, placed within a nicely cut envelope made for the occasion, and the address written across the letter. It must be sealed. The open letter therefore, or paper sent by Sanballet to Nehemiah (vi. 5) was an insult. Arabic books, both manuscript and printed, begin where ours end, their first page being our last.

affections.

Few of those who give way to this perulcious practics are aware of the consequences, until they find the nervous system shattered, feel strange and unaccomitable sensations, and vague fears in the mind. [See pages, 27, 28, 29, of Dr. K.'s book on "Self-Preservation."]

The unfortunate thus affected becomes feeblo, is unable to labor with accustomed vizor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and ougages even in his sports with less onergy than usual.

If he emancipate himself before the practice has denoits worst, and enter matrinony, his marriage is unfruitful, and his sense-tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

JOSEPH S. LONGSHORE, M. D.

From A. Woodward, M. D., of Penn. University, Philadelphia.

It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by Scifabuse, or Excess of venery, I do not know his superior in his profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscreti n, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.

Colober 20th, 1858.—1y.

profula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated,

weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed; it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with stand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-

fection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

#### AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences.

Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Enurrive and Skin Diseases, St. Anthony's Fire, Rose, or Envirence, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

#### Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at consequence.

pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

## Ayer's Cherry Pectoral,

POR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consump. tion, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

Sworn statement of David M'Creary, of Napier Township, Bedford county:

In Ap. it, 1650, as near as I can remember, a small pimple made its appearance on my lip, which soon became enlarged and sore. I used poultices of sorrel, argument of the vitrol, without effect. Finding the sore extending, I called on Dr. Ely, of Schellsburg, who pronounced it Carcer, and prescribed a wash of sugar of lead and bread poultices. Finding these remedies of no arail, I called unpo Pr. Shaffer, of Davidville, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remidies—the latter consisting principally caustici; but all to no purpose, to the disease continued spreading toward the nose. I next used a pregaration, of arsonic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Staffer of St. Claira ville, Bedford county, who also pron nuced the disease Cancer, and applied a salve said to be a never failing remedy, but it nadno effect whatever in checking the spread of the sore. In December, of the same year, the disease had aatch away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronounced the disease "acutaneous Cancer, superinduced by an inordinate use of mercary." He applied mild zinc olumnat, and experiment. where I consulted Prof. R. S. Newlon, of the Electic Medical College. He pronounced the disease "acutane-ous Cauror," He applied mild zinc ointment, and gave me internal remedies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I leaf for h. me. In April the disease again roturned, and so violent was the pain that I could not rest at night! Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until Septemberduring which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Nowton's preparations, and also medicine that I got from Dr. Ely, but the Cancer ontinued growing until it had eat off the left side of my mose, the greater portion of my left cheek, and had at lacked my left eye. I had given up all hope of ever be ing cured, since Dr. Ely said he could give relief, but that a cure was impossible. In March, 1858, I bought that no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcor commenced drying up. I continued, and when the third bottle was taken my face was healed as if by a miracle. I used a fourth bottle and I have been healthier since than I have been for the last soven years. Although my face is sadly disfigured. I am still grateful to a benign Providence who husspared my life, and which has been done through the fastrumentality of LINDSEY'S IMPROVED BLOOD SHARGHER.
