A QUAKER'S OPINION OF A CHURCH ORGAN.-The following is vouched for as a fact by Harper's Magazine:

The Society of Friends, as is well known are among the most upright and worthy of the Christian sects. Their mode of public worship is very plain and simple. Divested of all forms and ceromonies, they profess to serve God in spirit and in truth; sometimes in silence at other times by exhortation or preaching by some one who feels impelled to address them.

Thomas Coles-more familiarly known from his great amiability and good nature, as Tommy Coles-was a consistent member of this society. At the delightful village of Glen Cove, Long Island, where he resided, the Episcopal congregation had just erected in their church a very sweet-toned organ, which was the admiration not only of the members but of many others who were attracted to the service by the eloquence of the Rev. Mr. Mallaby, the rector. On some particular occasion our venerable friend, Tominy Coles, took a seat among the congregation, and his opinion of the organ was gathered from the following conversation a few days afterward: Friend Mullaby, I am pleased that the has got such a fine organ in thy

church."
...."But," said the clergyman,"I thought Kon were opposed to having an organ in g church."

"So I am," replied Tommy, "but then Tribee will worship the Lord by Machinery I would like thee to have a first-rate instrument."

A yankee lad, whose father was a farmer, went into a barn to play a short time ago, and being detained a prisoner by a thunder storm, he fell asleep on a bag of guano. The old gentleman when the storm was over. tent into the farm yard to look after his son, and met a giant eight feet high, coming out of the harn. "Hello! who are you?" he cried,

"Whit are you doing here?" . "Why, father," squeaked the Goliah,

"its me, don't you know Tommy ?" . "You?" the astonished parent exclaimed; "why Tom how on earth did you get stretched out so long in so short

THE BUCKET.-It is much easier to get into a quarrel than to get out of it. In the year 1005, some soldier of the Commonwealth of Modena ran away with a bucket from a well belonging to the State of Bolugna. This implement might be worth a shilling, but it produced a quarrel which was worked up into a long and singuinary war. Henry, the King of Sardinia, assisted the Modenese to keep possession of the bucket, and in one of the battleshe was made prisoner. His father, the Emperor, offered a chain of gold that would encircle Bologna, which is ten miles in compass, for-his son's ransom, but in vain. After twenty-two years of imprisonment he pined away. His monument is now extant in the Church of the Dom. inicians. This fatal bucket is still exhibited in the tower of the cathedral of Modena, enclosed in an iron cage.

The Springfield Republican contains an amusing account of Mr. Mason's Court introductions at Paris. It is said that on one occasion last Spring, thirty of our countrymen were paraded in at themselves. DANIEL LIGHT, (merchant.)

Ayer's Sarsaparilla A compound remedy, in which we have labored to produce the most effectual alterative that can be made.—
It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater afterative power as to afford an effective antidute for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizons. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Schoftla and Schoftlous Complaints, Ereptions and Endritus Diseases, Ulcers, Pimples, Blooches, Tumors, Merculal Observative Diseases, Ulcers, Pimples, Blooches, Tumors, Merculal Observations, Merculal Obs

TIC DOLIGURELY. DEMINITY, DYSPEPSIA AND INDIGESTION, ENTSIPELAS, ROSE OR ST. ANTHONY'S FIRE. and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the toul humors which fester in the blood at that scason of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this romedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natiral channels of the body by an alterative medicine. Cleans out the vitiated blood whiever you find its impurities bursting through the skin in pimples, ernptions, or sores; cleause it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell, you when. Even where uo particular disorer is felt, people enjoy better health, and live longer for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum o life disordered, there can be no lasting health. Sooner or later semething must go wr.org, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been gregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of extract of sarsaparilla, or anything else.

AFFLICTED READ!!!

PHILADELPHIA MEDICAL HOUSE.—restablished twenty two years ago by Dr. KINKELIN, corner of Third and Union streets, Philadelphia, Pa.

TWENTY-TWO YEARS'
Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature, manhood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTTOR.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not refore a 'in due time, not only begots serious obstacles to matrimonial happiness, but gives rise to a series of protracted, 'inskilous, and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, fuel strange and unaccountable sensations, and vogue fears in the mind. [See pages, 27, 28, 20, of Dr. K.'s book on 'Self-Preservation."]

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his illied to study; his step is tardy and weak; he is dull, ifficiolute, and engages even in his sports with less energy third usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriago is unfruitful, and life seige tells him that this is caused by his early follics. These are considerations which should awaken the uttention of all who are similarly situated.

REMEMBER.

He who places himself under Dr. KINKELIN'S treatment, may religiously condide in his honor as a gentle min, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one, who from education and respectability, can certainly befriend you.

A Benevolent Institution established by special Endowment for the Relief of the Sick and Distressed, aff licted with Virulent and Epidemic Disease.

The Howard Association, in view of the awful destruction of human life, caused by Sexual diseases, and the decentions practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT. worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS to all who apply by letter, with a description of their condition, (see, occupation, hebits of life, &c...) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the ago, and will funish the most approved modern treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Disease, for the year ending January 1st. 1888, express the highest satisfaction with the ruccess which has attended the labors of the Consulting Eurgeon in the cure of Spermatorrhoea, Seminal Weakness, Impotence, Gonorrhosa, Gleet, Syphillis, the vice of Onanism or Self-abuse, &c., and order a continual weakness, Impotence, Gonorrhosa, Gleet, Syphillis, the vice of Onanism or Self-abuse, &c., and order a continual weakness, impotence, Gonorrhosa, Gleet, Syphillis, the vice of Onanism of the ensuing year.

Strangers and others who have been unfortunate in the selection of a Physician are invited to cell IMPOTENCY—Trough unrestrained indulgence of the passions, by excess or self abuse, the evils are numerous. Premature impotency, involuntary seminal distance for female society, general debility, or constitutional derangement, are sure to follow if necessary, consult the Doctor with confidence; he offers a perfect cure.

READ AND REFLECT.—The afflicted would de well to reflect before trusting their health and happiness, and in many cases their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the lifs the human family are subject to. "Da. Hunten's Medical Manuel." The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of mal-practice, as a snocessful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JUSEPH S. LONGSHORE, M. D. From A. Woodward, M. D., of Penn. University, Philadelphia.

It gives me pleasure to add my testimony to the processional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in *atoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the function produced by Selfabase, or Ercess of venery, I do not know his superior in his profession. I have been acquainfed with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscret m, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.
