ELOPEMENT OF A D. D. WITH

ANOTHER D. D'S. WIFE. The Tornto (Canadas) Patriot of August 3d, gives the particulars of the elopement of the Rev. Dr. Humphreys, a Minister of the Free Church of Scotland, with the wife of the Rev. Doctor Cummings, of the same Church. The parties resided at Cheltenham, England, where Humphreys as the Principal of the Grammar School. He had recently asked the protection of the Insolvent Court to save himself from arrest.

On the morning of his departure from home, he borrowed his wife's watch and all the money she had, under the pretext that he was going to Derbyshire to procure money of his friends to assist in his defence in the Insolvent Court .-He wrote to wife from Liverpool, stating that he had been grievously disap- at the Genesce Mills of Feb. 3, 1858. pointed in not getting the money, and was going to Cheltenham some days. On the very morning on which Mrs. Humphreys received this letter, she received another from the friends to whom he had gone, asking her and her husband to spend the holidays at their house.

Being thus undeceived, she followed him to Liverpool, and on arriving there learned that he had taken passage for America under an assumed name, having the aforesaid Mrs. Cumming for his companion who had joined him there. Humphreys had been for some time forwarding a large quantity of baggage to

Liverpool, and for some weeks together all the money he could in anticipation of his departure. He left his wife and six children without the slightest means of support.

Mrs. Cummings also left eight children, an affectionate husband, and all the comforts which wealth could bestow. Dr. Cummings was Humphrey's principal creditor. The guilty couple arriving in this country, went to Albany, and after stopping there a short time proceeded to Toronto, where they have taken up abode. After their time proceeded to Toronto, where they attend finer their able terms. have taken up abode. After their shameful flight from England, the friends of Mrs. Cummings despatched a communication to the head of the New York police, advising the arrest of the Doctor, and giving all necessary information for that purpose.

A detective of this city was then despatched to hunt the Dr. up, and succeeded in tracing him and his paramour to Toronto. There the detective left a photograph of the Dr. with a Mr. Greaves, of Toronto police, who soon after encountered the couple on the street. They were at length traced to their lodgings. Subsequently, officer Greaves served the guilty pair with citations from the High Court of Divorce in England. Mrs. Cummings refuses to return to England, and declares her intention to remain with the faithless Doctor.

The Paris gossip of the Liverpool Journal contains the following story, which, unlike most of the tales of Paris, is fit to be told:

"A certain young Irish beauty, engaged to a desirable young Englishman, went to the French capital on a visit to her aunt, about five months ago; with her went her lover and her sister, and a with renewed energy, despatching business gay season was enjoyed by all parties. As for the bride elect, she found a certain Polish prince, who frequented her aunt's salon, so agreeable that she actually told her affianced bridegroom; and what was astonishing, the bridegroom quite agreed, and thought so too. Some weeks passed on thus; the Polish prince became more and more delightful, the bridegroom more and more willing to own it, until one fine day, upon some hint thrown out by the Polish prince, the heroine informed her English lover that she did not think their marriage a desirable thing. The lover with wonderful alacrity, agreed with her, and, this engagement being broken off, he at once offered himself to the sister of his former flance, who readily accepted him. Everything was now going on smoothly, only the Polish prince did not propose as promptly as he was expected to do; however, the young Irish girl was strong in hope that at the approaching marriage of her sister to her lover. the laggard man would say the necessa. ry word. This wedding soon took SAVING FUND leaned on the arm of the prince, who officiated as groomsman. Coming out of the church, the Polish prince sighed heavily, turning his eyes upon the bridegroom, exclaimed, as he pressed the bridesmaid's hand, locked at that moment within his own, "Poor fellow, how I pity him!" "Why so?" said the lovely bridesmaid, half offended. "Why, for marrying. How can a man be such an ass? I, for one, would never marry, if Venus herself, with 50,000 ducats in each pocket were offered me." A heavy mass fell upon his arm-the bridesmaid had fainted, and he carried her back to the sacristy, wondering what on earth had taken possession of her just at the last moment, and grinning horribly at the idea of this tardy remembrance of the obligation to that conventional sensibility which bridesmaids are compelled to exhibit."

A VALUABLE SECRET .- The unpleasant odor produced by perspiration is frequently the source of vexation to gentiemen and ladies, some of whom are as subject to its excess as their fellow mortals of another color. Nothing is simpler than the removal of this odor at much less expense and much more effectually than by the application of such costly ungents and perfumes as are in use. It is only necessary to procure some of the compound spirits of ammonia, and place about two table spoons full in a basin of water. Washing the face, hands and arms with this, leaves the skin as clean, sweet and fresh as one could wish. The wash is perfectly harmless, and very cheap. It is recommended on the authority ot an experienced physician.

TAKE NOTICE:

The old stone norm is come to life again.

JOHN PETER MOYER would respectfully inform the public that he continues the business of LIMESTONE SAWING AND DRESSING by horse power, in Chestnut Street, East Lebanion: He finishes the following articles out of the best and seundest limestone that can be procured in this neighborhood, viz.—Door Silis and Platforns, Steps, Window Silis and Heads, Celliar Book Cheeks, Curn-Stones, Shoe Scraper blocks, as well as any other article that can be manufactured of limestone. His Curb-stones are from four to five inches thick; and his prices in accordance with the quality.

He was the first person that introduced the lime-stone into this place, and is now prepared to finish off limestone so as to give it an appearance very little inferior to that of the handsomest Marble, in proof of which assertion he directs the public to the finished work at his establishment. He respectfully invites all those who intend erecting new buildings, to call at his establishment and convince themselves of the excellent finish of this work as also of the cheapness of his prices.
