the inimitable medicine known so well and favorably as Lindsey's Improved Blood Searcher, like the star of empire, has taken its course west. Its fame, however, is not to be cribbed and confined -"no pent up Utien contracts its powers"-it is even called for in the East, where the wise are said to come from, and where they profess to manufacture medicines to cure "all the ills that human flesh is heir to." A day or two ago we saw a box of the Blood-Searcher shipped to Portland, Maine. A year or two more, and this medicine will be on sale in every city, town, village and hamlet in the Union. Its merits must force it into use, for it never fails to perform all the proprieter claims for it.

THE CROUP.—The Journal of Health says :- "When a child is taken with croup, Instantly apply cold water-ice water, if possible -suddenly and freely to the neck and chest, with a sponge. The breathing will be almost instantly relieved. As soon as possible let the sufforer drink as much as it can; then wipe it dry, cover it warm, and soon a quiet slumber will relieve all anxiety." A friend of ours, who has repentedly tried this remedy, informs us that it nevor failed to afford almost instant relief.

Court.—Considerable Court business was transacted last week. The term continued until Saturday evening.

Andrew J. Green and Samuel Cann plead guilty to the charge of passing counterfeit money on the Harrisburg Bank, and were each sentenced to four years' imprisonment in the Eastern Penitentiary.

Samuel Shours and Henry and Philip Xan- lief when we got outside the walls again. ders were tried for committing an assault and battery on Samuel Boltz. The two first named were convicted and sentenced to pay a fine of \$5, give security in \$100 to keep the peace for one year, pay costs of prosecution, &c. In the case of the last named a Nolli Prosequi was entered on payment of costs. This was a boys' fight, neither of the parties being over 18 years of age. It took place at Annville between 11 and 12 o'clock at night. Liquor had also been drank by some, if not all, of the parties. These facts transpired on the trial. This scrape may, and we trust will, prove a warning to the boys, to keep better hours and abstain from the bottle, or the next scrape may be a more serious one.

Henry Miller was convicted of the larceny of an umbrella, and sentenced to two months to the county jail.

Charles Leibenstein was tried for passing counterfeit money. He was acquitted and county pays the costs.

Samuel Seltzer was tried for the larceny of the property of D. U. Miller and acquitted. . John Spitler was tried for an assault and batterry on Mrs. Elizaboth Williams. He was found guilty and sentenced to pay a fine of \$10, costs of presecution, and give security in the sum

of \$200 to keep the peace for one year. George Hean was convicted of an assault and battery on Israel Shantz. Sentenced to a fine of

days in the county jail. Edward Kershner was convicted of assault and battery and fornication on oath of Leah Wagner. Was sentenced to a fine of \$10, and the pay-

ment of costs. George Sturm was convicted of keeping a dis orderly house and nuisance in N. Leb anon Borough. Sentenced to pay a fine of \$1, costs of prosecution, and to be imprisoned 60 days in the

county jail. Adam Phillips vs. Catharine Reifein.-This case created considerable interest and occupied the attention of the court for a long time. The suit was instituted to recover the payment of a noise and confusion. Fortunately it was only a judgement bond for upwards of \$2,000. It was resisted on the ground that deception and undue and that the land sold was not worth the price for Washington Territory.

By the kind invitation of Sheriff Hauck, we accompanied him on Friday of last week to the Eastern Penitentiary at Philadelphia, to take there Andrew T. Green and Samuel Cann. sentenced to four years' imprisonment each, for passing counterfeit \$5 notes on the Harrisburg Bank. The men were sentenced after eight o'clock on Friday morning, and a few minutes after nine we were on the cars bound for our des tination. The prisoners were simply but safely secured by being locked together by the arms .--The cars stopped for our exit at Cherry street, from where we walked up to the prison attracting but little attention. Before entering: the prison the Sheriff took his prisoners into a Saloon near by and gave them an opportunity to write letters to their families. We then proceeded across the steest, and entered the gloomy walls. The officers having learned the object of our visit took us to an anti-room, where the age, size, condition, and other descriptive particulars of the prisoners was noted down in a book kept for that purpose. Cann having been first registered, was taken away to be clothed in his prison garb and then confined "AWAY DOWN EAST."-Hitherto in his cell. The same operation was gone through with Green, after which we strolled away to take a peep at the internal arrangements of the prison. Crossing a large yard and garden we came to the cells. TOMATO WINE.—This delicious vegetable, which may be applied to so many purposes, is very abundant at this time, more so than we have ever know them. The following is a recipe for making tomato wine, said to be equal to the best champagne: Take small ripe tomatoes, pick off the stems, put into a tub, wash them clean, and then strain them through a linen bag. (One bushel will make five gallons of pure wine.) Add two and a half to three pounds loaf augar to each gallon, then put into a cask Samuel Heckman. If two gallons of water be added to the five gallons of juice, it will still make a nice wine .-Brown sugar may be used instead of loaf, but the wine is much more sparkling when loaf sugar is used. The United States might export this wine by the ship loads. It is said to be a de-

Dwellings erected by the first families, scattered here and there, are still alive with reminiscences of the past, make them appear interesting and poetic. But we are deviating from our subject-the pis-nic. Arriving in Scheefferstown, we met our friends assembled at head quarters, all ready to leave town for a day's enjoyment in the woods. The party formed in procession and adjourned to a delightful grove about one-half mile from town. Here the ladies and gentlemen enjoyed themselves as usual upon such occasions. Quite a number of plays were brought into requisition, and gone through with in a style creditable to all participants. We have on a former occasion remarked that Schrefferstown is not behind the age, in rendering sociable parties agreeable, and this we were fully convinced, on Wednesday. All joined in the innocent amusement, and thus made it a harmonious and merry party. Of the tables, loaded with the best things the season can afford, we are almost at loss how to speak. The "good things" were piled upon each other in profusion, and presented an appearance rich enough to make an epecurian sigh. If space would allow, we could write a column on this social gathering, -a gathering where all enjoyed themselves to a greater extend than on any former day's ramble through life. used a preparation of arsenic, in the form of salvo. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statler, of St. Chairs ville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never failing remedy, but it had no effect whatever in checking the spread of the sore. In December, of the same year, the disease had caten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Electic Medical College. He pronosneed the disease "nontaneous Cancer, superinduced by an inordinate use of mercury." He applied mild zinc ointment, and gave me internal remodies. My face healed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for home. In April the disease again returned, and so violent was the pain that I could not rest at night! Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September during which time he used every known remedy, and partly succeeded in checking the disease, but when I returned home there were still three discharging ulcers upon my face. I continued using Newton's preparations, and also med icino that I got from Dr. Ety, but the Cancer continued growing until it had cut off the left side of my nose, the greater portion of my eff check, and had at lacked my left eye. I had given up all hope of ever be ing cured, since Dr. Ely said he could give relief, but that a cure was impossible. In March, 1858, I bought a bottle of "Blood Searcher," but I must confess that I lad no faith in it. I was very weak when I commenced taking it; but I found that I gained strength day by day, and also that the ulcer commenced drying up. I continued, and when the third bottle was taken my face was bealed as if by a mircule. I nead a fourth bitle, and I have been healthier since than I have been for the last seven years. Although my

Sworn statement of David M'Creary, of Napier Tewnship, Bedford county:

In April, 1856, as near as I can remember, a small pimple made its appearance on my lip, which soon became enlarged and sore. I used poultices of sorrel, and wash of blue vitrol, without effect. Finding the sore extending, I called upon Dr. Shaffer, of Davidwille, Somerset county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustics; but all to no purpose, the disease continued spreading toward the nose. I max used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammanton soon increased. I next called upon Dr. Shaffer, of Shetler, of St. Clairs wille, Bedford county, who also pronounced the disease concern, and applied a salve state to be a never failing ville, Bedford county, who also pronounced the disease concern, and applied a salve state to be a never failing twille, Bedford county, who also pronounced the disease concern, and applied as alve state to be a never failing twille, Bedford county, who also pronounced the disease concern, and applied as alve state to be a never failing twille, Bedford county, who also pronounced the disease concern, and applied as alve state to be a never failing twille, Bedford county, who also pronounced the disease concern, and applied as alve state to be a never failing twille, and the proposed the disease concern, and applied as alve state to be a never
