County Convention appears in our columns today. It is advisable that the Delegates elected to represents the Democracy of the districts of the county should be acquainted with the views 'of the members of the party in their several locollities, so that a true expression of the sentiment of a majority of the party may be arrived -at, in reference to the proper course to be persued this fall. The Convention will be the tribunal to decide for us the expediency of nominating a ticket, and if it should be decided to nominate one, to select proper candidates, and also to take 'action on other matters relative to the welfare of the party, all of which should be done understandingly and harmoniously. Let there be a full attendance at the Delegate meetings-a free expression of opinion, and let good and true meu be selected as delegates.

Worth Knowing if True. - Wm. L. Morgan, of Pottsville, Warren county, Indiana, says that seed from the butt end of an oar corn will ripen its product all at the same time, and some three weeks earlier than seed from the i little end of the same ear. He recommends farmers always to break the seed corn ears in two in the middle, and use the butt ends only for seed.

[We have received quite a number of communications relative to Gon. John Weidman, of this borough, running as a voluntoer candidate for the District Attorneyship. We following as indicative of the feeling of the public on the subject.]-Ed.

For the Advertiser SWATARA TOWNSHIP, Sept. 5, 1859. MR. Editor :- Understanding that there is n probability of your party nominating a ticket this fall, I would suggest the propriety of Gen'l John Weidman, of your borough, being put upon the track as an Independent Peoples' Can-DIDATE for the DISTRICT ATTORNEYSHIP. He is known to almost every voter of the county and would make a capital run. There are hundreds of our party dissatisfied, not only with the proceedings of our convention last Monday, buf with the general management of affairs for a number of years past in our ranks. We need purification and can obtain it is no other way than by ignoring some of the proceedings of our tricky politicans. For this purpose give us an opportunity to show out power. With Gen. Weldman we can do it to our hearts' content. Then just y that the General is a candidate and we will be up and at them. Yours, &c.,

ONE OF THE PEOPLES' PARTY.

For the Advertiser EAST HANOVEN, September 4, 1859. MR. EDITOR :- The proceedings of the recent convention of our party do not meet with great satisfaction in this neighborhood; the impression prevails that some of the candidates were cheated out of their nomination. John H. Bowman we believe should have been nominated, as we are confident that he had a majority of delegates in his favor before the assembling of the Convention. My object in writing to you at this time is to suggest that Gen. John Weidman should be induced to permit his name to be used as a volunteer candidate for Prosecuting Attorney. I am sure that he will receive a handsome vote in East Hanover,

REPUBLICAN.

For the Advertiser. Connewago, Sept. 3. Mr. Entron: -Allow me to bring to the attenion of the people of Lebanon County, the name of General Weidman for the office of Prosecuting Attorney. He would make a great run in this part of the County. I hope he may be persuaded

to submit his name. A Son or the Sines of '76.

IMPORTANT TO FEMALES.—Dr. Cheeseman's PILIS.—The combinations of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In overy instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly contenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of nervous and spinal affections in the back and limbs, lowness of spirits, hysteries, &c. Nor are they less efficacions in the cure of Loucorrhoes, commonly called the "Whites." These Pills should never be taken during pregnacy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each loox.

These Pills are put up in square flat boxes. Persons residing where there are no agency established, by enclosing One Dollar in a letter, prepuid, to any authorised agent can have them sent to their respective addresses by roturn of mail. IMPORTANT TO FEMALES .-- Dr. Cheeseman's

In its effects is magical, because the time is so short hetween disease and a permanent cure; and it is an extractor as it draws all disease out of the affected part, leaving nature as perfect as, before the injury. It is scarcely necessify to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Heary Dalley, Manufacturer.

The Philadélphia Market. PRILADELPHIA, September 4, 1859.
The Breadstuffs Market exhibits the same dullness which we have been reporting for some time past. A slight increase in receipts of Flour for the week, has had an unfavorable tendency, and to day we notice some anxiety on the part of re-ceivers to sell at the quotations given in our lastirtular, (30th ult.) which buyers now refuse to pay, and in order to effect sales, lower prices have to be submitted to. Rye Flour is the only article that exhibits any firefrees, and is in demand at our quotations. The receipts of Wheat are light, and holders are embled to realize full quotations. Corn is dull, and has declined it, per bush. Rye is in fair request. Whiskey is much easier than it was in the early part of the week, and prices not so firm. Receipts of Flöur this week. 9,936 bbls. FLOUR.—New superfine, \$5 to \$5.25; extra,
