Property of Michael Shearer, dec'd., in Londonderry, containing 30 acres and improvements, to John Urich, for \$56,80 per acre.

The Jonestown Battalion will take place on the 15th of October. A large num ber of Companies will be present.

Mr. John Clouse has leased the basement under the "Washington House" in this borough, and opened it as a Restaurant. John is an old hand at the business, understands it perfeetly well, and we trust will receive a share of the public patronage.

A Good Move.—A number of young men are organizing a grammar class, to meet two evenings a week. Mr. McAdam has been choson as teacher. The first meeting will be beld at the Academy on Wednesday evening, and we portunity.

Broke HIS HEAD.—Charles Moyor, an old toper, fell from the pavement at the Engle Buildings, last week and slightly cracked his head, from which blood flowed pretty freely. His wound was dressed, after which he was re idy to imbibe rot-gut again in any quantity.

The elect on for Brigadier General and Brigade Inspector, on Saturday, resulted, as we are informed, in the success of William Urich, Esq., for the first named position, and Wm. Tice for the second. It is supposed that the election will again be contested on account of some illegal voting.

On Friday night the shoe store of Mr. Henry J. Weaver, Market street, Lebanon, was broken into by some scamps, and about fifty dollars' worth of boots and shoes stolen there from. It is hoped that the scamps will be caught and severely punished. Mr. Weaver is an industrious mechanic, and being a new beginner, the loss falls very heavy upon him.

The Agricultural Fair opens today (Wednesday) at 12 o'clock. The prospects are that it will be a most signal success. The officers and committees have been in town all week making preparations, and receiving goods, of which, at time we go to press, a large quantity is already entered.

BE ASSESSED!—Democrats, examine the Assessor's list of your proper ward or district, and if your names are not on it, get assessed immediately. Saturday next, October 1st, is the last day, being ten days before the election. Attention to this matter will insure your right to vote, and save trouble on the election day.

A new kind of bread, known as the wrated bread, is now made in London, in the manufacture of which no fermentation is used .-The process consists in forcing ready prepared carbonic acid, by means of suitable machinery, into the water with which the dough is prepared, then mixing the flour, water and salt together in a highly condensed atmosphere. From the mixing apparatus the dough is received into the baking pans, and passed into the ovens without being touched by the hands. By this means the constituency of the flour is left both unchanged and uncontaminated-the loaf being absolutely pure bread.

The Dauphin County Agricultural Fair has been postponed, owing to the inclemency of the weather of last week, to the 19th, 20th and 21st of October.

The violent rain storm of Friday night and Saturday, of week before last, extended over a considerable portion of the country, and in some sections was preceded by cool weather. On Wednesday previous, a snow storm of fifteen minutes' duration prevailed at Florida, Mass., and nearly whitened the ground. On the same night hope all who desire to learn to read, write and ice formed at Chestertown, Md. He commenced his career as a day laborer at fifty cents a day, became an eminent lawyer, and was the largest capitalist in Kentucky at the time of his death, his property being estimated at four millions. The Paducah Herald remarks of Mr. Wickliffe that, as a laborer, he was noted for his faithfulness, his industry, and the amount of work which he could perform. At the whipsaw he was nnequalled, and on many occasions he cut down the timber and split out five hundred rails a day. In the palmiestdays of his popularity and wealth he never ceased to boast of his achievements as a luborer. He studied law while a luborer, at night, by the light of the fire; and when first admitted he gave but small promise of attaining the position which he afterwards won. [From Philadelphia Pennsylvania Inquirer.] NEW AND PROSPEROUS SETTLEMENT .- Hau monton on the Camdeh and Atlantic Railroad, is a flourishing village settled chiefly by New Englanders, who wish to escape their frosty climate, and by persons from the West, who are en-gaged in the grape culture. One year ago the settlement commenced, and since then has a pop-ulation of fifteen hundred. They have built about three hundred houses, opened four stores, several hotels, one steam saw and planing mill, with schools, churches, and brick yards. They have set out since, forty vineyards, and in short, established a settlement, which from the respec-tability of the settlers, which from the respecof the most important and influential places in the State of New Jersey. Grape growers are of the opinion that the land between the Little and the Great Egg Harber rivers is the best for the vine, owing to both soil and climate, of any that has been found in the country. From the extent they are entering into the business, a sup-ply of pure and undulterated wines may soon be

xpected. They who have raised crops at Ham. conton represent that soil as very productive. It is not surprising that the place should increase so rapidly, when it is considered the advantages so rapidly, when it is considered the advantages it presents over the West in health, elimate and markets. Crops are secure from frosts, that blighting enemy that robs the farmer of the North of so much of his labor and profit.

READING RAILROAD PHILA. DEPOT .- Fernon's United States Railroad and Mining Register thus notices the new passenger Depot new in course of erection, in Philadelphia, by the Reading Rail-

road Company: Several years ago, the Philadelphia and Readseveral years ago, the Pattadespota and Read-ing Railroad Company acquired by purchase all that square of ground bounded by broad and Thirteenth streets on the West and East, and by Willow and Callowhill streets on the South and North, except a few properties on Thirteenth street, which have recently been obtained by amicable negotiation, the conclusion having doubtless been hastened by the "moral effect" of ture, authorizing the railroad company to acquire property for Depot purposes, and fix the consideration price by assessment by a jury.

The square of ground is two hundred and fifty feet wide on Broad and Thirteenth streets, and five hundred feet deep on Willow and Callowhill streets. It occurrs a situation which is sized.

streets. It occupies a situation which is singularly eligible and appropriate for depot purposes, being at the very terminus of the company's locomotive road at Broad street, and opposite to Pennsylvania avenue, which the tracks occupy, with a frontage on Willew street, down which the ware river. A spacious passenger depot is now in progres of erection on this ground, one hundred feet in width on Broad and Thirteenth street, by five

hundred feet in depth on Callowhill street; and a plan for a freight depot, of the same size, to occupy the north side of the square, has been adopted, the two depots, with the fifty feet of intervening space, to be covered with three spans of roof, and to be included in a chaste and at-tractive design for the Broad street front, which will occupy a most conspicuous location, for the tracks which will pass out through the arched ways in it, will converge in the existing tracks, which run due west more than a half mile in a straight line, in the middle of an avenue more than one hundred feet wide.

The trains will start with steam power from these depots, which will be a great benefit to the company and to the vicinity, for then the nuisance of mule power will be measuredly abated.

The Philadelphia and Reading Railrond Company are manifestly developing a comprehensive and admirable working plan for their passenge and miscellancous freight business.

HAPPY TERMINATION OF A BAD AFFAIR .- A Mr. Rodgers, of Ripley County, Indiana, with his daughter Elizabeth, of about 17 years, and her illegitimative child of three or four months. appeared in Olney last week, and applied to Hayward & Kitchell, attorneys, to procure the arrest of a young Mr. Lane, the absconding father of the child, who was said to be in the countries. ty. The writ was made out and handed to Deputy Sheriff Johns, who turned to her and said, "How does he look?" She turned her face—a tear fell on the floor-"Like this-this babe-a dimple on his chin," said she, as she p lled its little white bonnet back; then, with her face still averted, drew from her bosom a daguerrectype, "You will know him by this." She was dressed ady-like, with a sweet, sorrowful half-matronly look, with eye-brows darker than her hair, and a pretty foot that set off the kid. Her father, a se-vere looking old man, said to the attorneys; This shall not be settled short of two thousand dollars." She turned her eyes upon him with a look of horror. "Not money," she cried, as she

drew her babe closer to her.

The next day Lane was brought in. It seems that the parents of both were farmers, living neighbors—the children growing up and being school-muted together—that Lane's father had given him \$1.600 not to marry her. He is a fine given than \$1.500 not to marry ner. He is a new tooking young man of about 24 years. He went round to find an aftorney, but all boing cut of town, except Hayward & Kitchell, he concluded to go to the hotel and see Miss Rodgers. The door was open. She wat at the back part of the room—at the sight of him she came to her feet with her child in her arms—he faltered—she stood with her child in her arms—he faltered—she stood still, pale as this paper—he blundered into a chair, and she unconsciously resumed her seat—neither speaking. People left the room. In a few moments he appeared, and inquired of the officer where to get a marriage license. The officer, whose very soul was glad to hear of such a hint, went with him. They were married—and, with the blessing of a large crowd, left on the train bound East. They were a handsome pair; she with that delicate tinted skin, and confiding, lovely blue eye, that can look love, but never lovely blue eye, that can look love, but never hate. HEAVY BANK DEFALCATION.—A deficit of \$61,000 was discovered on Wednesday, in the accounts of the discount clerk of the Fulton Bank, New York, W. J. Lane, Jr., a son of the cashier: It is the same old story over again. Fast young man, on small salary, had the handling of large sums of money in the Bank, acquired loose habits, was out late at night, kept a mistress in aristocratic style, presented her with diamonds worth \$1000, drove a couple of fast horses on the Avenue, smoked the best cigars, drank the best champague, and is most other respects conducted himself after the most approved type of fashionable "bloods." Lane is now under arrest. He has given up to the Bank about \$650 in monoy, also, \$1,500 lent his father, as well as horses, also, \$1,500 lent his father, as well as horses, also, \$1,000 lent his father, as well as norses, jewelry, &c., amounting in value to \$10,000.—
The deficit of \$48,000 will, probably, be made good by his father. Lane says that he has dealt largely in lettery tickets. He is about 28 years of age, has a wife, but no children, and (when not engaged with his mistress) lived in his father's house.

Six horses attached to one of the wagons could not move it at all and had it not been for the monstrous elephant accompanying them, they might, in all probability, be stationed there still. But as soon as he was brought into requisition their wagons were at once uprighted. The monstrous animal actually put his trunk under the axle tree of the heaviest loaded wagon and lifted it up right and square. He extricated several by his wonderful strength.

HEAT OF DIFFERENT WOODS .- The following i et down as the relative heating values of different kinds of American wood:—Shelbark hickory oing taken as the highest standard, 100; pig boing taken as the highest standard, 100; pignut hickory, 95; white oak, 84; white ash, 77; dog wood, 75; serub oak, 73; white hazel, 72; apple tree, 70; red oak, 69; white beech, 65; black walnut, 66; black birch, 62; yellow oak, 60; hard maple, 59; white elm, 56; red cedar, 50 wild cherry, 55; yellow pine, 54; chestnut, 52; yellow popular, 52; butternut, 52; butternut, 52; white hick 40; white hick 42

white birch, 49; white pine, 42.

Some woods are softer and lighter than othors; the hard and heavier having their fibers more densely packed together. But the same species of wood may vary in density, according to the conditions of its growth. Those woods which grow in fracts or in view but seconds of the conditions. grow in forests, or in rich wet grounds, are less consolidated than such as stand in open fields, or grow slowly upon dry, barren soils. There are two singes in the burning of the wood; in the first the heat comes chiefly from flame, in the second from red hot coals. Soft woods are much nore active in the first stage than the hard, and ard woods more active in the second stage oft woods burn with a voluminous flame, and cave but little coal, while the hard woods pro-luce less flame and a larger mass of coal.—Ohio

The heavens were illuminated on the evening of August 28th, 1859, by the most splendid Aurora Boreallis ever seen in the country. Rays of parti-colored light flashed across the sky, and the changes were beautiful in the extreme. At one time a rapt observer remarked, that he faucied he could see the sparkling lights form themselves into the following words:—Buy all your garments at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut St., above Sixth, Philadelphia.

IMPORTANT TO FEMALES.—Dr. Cheeseman's PILLS:—The combinations of ingredients in these Pills, is the result of a long and extensive piactice; they are mild in their operation, and certain of restoring anture to its proper channel. In overy instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any, other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of nervous and spinal affections in the back and limbs, lowness of spirits, hysteries, &c. Nor are they less efficacions in the curse of Leucorrboes, commonly, called the "Whites." These Pills should never be taken during pregnacy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or leath. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes. Persons residing where there are no agency established, by enclosing One Dollar in a letter, prepuid, to any authorised agent can have them sent to their respective addresses by return of mail. IMPORTANT TO FEMALES .-- Dr. Cheeseman's

In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor as it draws all disease out of the affected part, leaving ure as perfect as before, the injury. It is scarcely eccessary to say that no house, work-shop, or manufactory should be one moment without it.

PHILADELPHIA, September 26, 1959
The inelement weather of the past week greatretarded operations in the Breadstuffs Market. here has been no change in Flour since our last circular of the 20th, the receipts of which, though light, were greater than the proceeding week, amounting to 10,075. Wheat is very dull and has declined 2 to 3 cts. per bushel, and the resents or greatly increased the december of the de coipts are greatly in excess of the demand. Corn has advanced during the week 5 and 6 cts. per oush., but closes unsettled buyers refusing to pay our quotations. Rye comes forward very slowly, and is much wanted. We notice a better feeling in Oats, and they sell freely at our quotations .-There is rather more doing in Seeds; new Clover is beginning to arrive, and sells without difficulty at our quoted rates. Flax is in fair demand for good American. The season for Timothy is neary over, and large lots are neglected; but prime seed in small quantities sells freely. Whiskey is in good demand, and choice packages command a slight advance on our former rates. We quote: FLOUR.—New superfine, \$5; extra, \$5 25 and

85 50; extra family, \$6 to \$6 50. Old stock dull at \$1, 50 to \$5 50 as to guality and grade.

RYE FLOER.—Very scarce and firm at \$4.

Conn Mean.—Dull at \$3 50. WHEAT.—Dull at \$1 16 to \$1 18 for fair and prime red, and \$1 25 to \$1 30 for white. RyE .- In demand at 75 cents for new, and 80 Conn-Sold yesterday at 87 and 88 ets., buyers

refuse to pay these figures at the close.

OATS.—New Pennsylvania, 36 to 37 cents; old, 38 cents. New Clover, \$5 37 to \$5 62; Timethy, \$2 50 to \$2 60; Flax, \$1 60 to \$1 65.
WHISKEY.—Ohio, 28 cents; Pennsylvania, 27 and 274 cents; drudge, 26 cents; hads. dull, 264

Jas. McCaky, Jr., Philadelphia. CATTLE MARKET.—The receipts of Beef cattle at the different yards were very large again this week, and the market, generally was rather dull and lower, the sales reaching about 2250 head. Good cattle trought fair prices, but at the Avenue Yard quite a number of common quality were offered and sold at comparatively low rates. The principal sales were made within the range of \$7 to \$91 the 100 lb .. , the most being sold at \$8 and \$8½. Of the common cattle, a number were sold as low as \$3½ to \$4½ the 100 fbs. The arrivals of Cows and Calves comprised about 100 bead, selling at from \$20 to \$40 each, according to quality, the latter for Mileb Cows. Of Hogs the receipts and sales at Imhoff's Union Drove Yard were 1050 head, selling at from \$7 to \$84 the 100 fbs. nett, the latter for fat Hogs. Of Sheep many sales were made at the Avenue Yard, prices ruling about the same as last week.
