THE LEBANON ADVERTISER.---A FAMILY NEWSPAPER.

HOW THE PYRAMIDS WERE BUILT. A correspondent suggests that the

mode by which the stones used in building the pyramids of Egypt were raised to their places, was by piling up im-mense inclined planes of sand, up which the blocks were pushed on rollers .--The statement, often repeated, on high authority, that the pyramids were built before the Egyptians acquired the art of writing hieroglyphics, proves on closer examination to be erroneous. The few hieroglyphics, however, which they do contain, do not convey that full knowledge of the state of the arts among them, at the time the pyramids were constructed, which is to be learned from the writings and pictures in their tombs, and temples, in regard to the state of their arts at a subsequent period. But we have the less valuable authority of Herodotus, that the blocks of stones were lifted from one course to the other, up the steps of the pyramid. Remains of Cheops' grand causeway, for transporting the blocks quarried from the rocks on the east bank, are still seen leading up to the great pyramid from the plain-a shapeless ridge of ruinous masonry and sand. Accord ing to Herodotus, it was 1,000 yards long, 60 feet wide, and 48 feet high; was adorned with figures of animals, and was a work of ten years. Some of the stone used for the coping over the passages are seven ft. thick, and more than 17 ft. long. Lifting these stones up the side of a pyramid 450 feet high, was certainly a work of great labor; but as a feat of engineering, it was mere child's play compared with some of the triumphs of modern science and skill—for instance, lifting the Menai bridge on its piers, or raising on end, and placing on its pedestal, the monwas adorned with figures of animals, strous monolith which adorns the City of St. Petersburg.

SARCASTIC SENTENCE.

Old Elias Keyes, formerly first judge of Windsor County, Vermont, was a strange composition of folly and good sense; of natural shrewdness and cultivation. The following sentence, it is said, was pronounced upon a poor ragged fellow, convicted of stealing a pair of boots from General Curtis, a man of considerable wealth, in the town of Windsor.

"Well," said the judge, very gravely, before pronouncing the sentence of the court, undertaking to read the fellow a lecture, "you're a fine fellow to be arraigned before the court for stealing .--They say you' are poor-no one doubts it who looks at you; and how dare you, being poor, have the impudence tosteal a pair of boots? Nobody but rich peoplc have a right to take such things with-out paying! Then they say you are worthless—that is evident from the fact that no one has ever asked justice to be done to you; all, by unanimous con-sent pronounced you guilty before you were tried. Now you might know you would be condemned. And now you ple have a right to take such things withmust know that it was a great aggrava-tion that you stole them in that large 'town of Windsor. In that large town to commit such an act is most horrible. And not only to go to Windsor to steal And not only to go to Windsor to steal -but steal from that great man, Gen. Curtis. This caps the climax of your Spring and Summer Fashions, . . and as he has none but the best working and steal the only pair of boots which some poor man had or could get? And then you would have been let alone; nobody would have troubled themselves about the act. For your iniquity in stealing in the great town of Windsor, and from the great Curris the and from the great General Curtis, the

Ayer's Sarsaparilla A compound remedy, in which we have labored to por-duce the most effectual alterative that can be made.-A compound remety, in which we have labored to por-duce the most effectual alterative that can be made.— It is a concentrated extract of Para. Sarsaparilla, so combined with other substances of still greater altera-tive power as to afford an effective antidote for the dis-enses Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accom-plish their cure must prove of immense service to this large class of our "afficted fellow-citizens. How com-pletely this compound will do it has been proven by ex-periment on many of the worst cases to be found of the following complaints : — SEROFULA AN SCROFILOUS COMPLAINTS, ERUPTIONS AND ERUPTYE DISEASES, ULCERS, PIMPLES, BLOTCHES, TU-MORS, SALT RITEUX, SCALD HEAD, STPHILS AND STPHILITIO AFFECTIONS, MERCURIAL DISEASE, DROFES, NEURALGLA OR TIC DOULOUREUX, DEBILIFY, DYSPESIA AND INDICESTION, ENTSUPLAS, HOSE OR ST. ANTHONY'S FILLS, and indeed the whole class of complaints arising from LAFURITY of THE BLOOD.

Fifty Bollars Forfeit. D.R. HUNTER will Forfeit \$50 if failing to curo any case of secret disease that may come nucler his caro, no matter how long standing or afficing. Either sox are invited to his Private Rooms, 44 North Seventh St. Philad'a. without fear of interruption. from other pa-tients. Strangers and others who have been unfortu-nate in the selection of a Physician are invited to call. IMPOTENCY-Trough unreatrained indulgence of the passions, by excess or self abuse, the evils are num-erous. Premature impotency, involuntary seminal dis-charges, wasting of the organs, lose of memory, a dis-table for female society, general debility, or constitution-al derangement, are sure to follow if necessary, consult the Doctor with confidence; he offers a perfect cure. READ AND REFLECT.-The afflicted would do well to reflect before trusting their health and happiness; and in many cases their lives, in the hands of physicians igno-rant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to. Every respectable physician has his pr-cular branch, in which he is more successful than his brother professors, and to that he devotes most, of his time and study. YEARS OF PRACTICE, exclusively devoted to the study and treatment of diseases of the setual organs, to-gether with ulcers upon the body, throat, nose, or legs, pans in the head, or bones, mercurial rheumatism, stri-furce, gravel, irregularities, diseases arising from youth-ful excesses, or inpurities of blood, whereby the consti-tution has become cufeebel, enables the Doctor to offer speedy relief to all who may place themselves under kis care. D. Modicine forwarded to any part of United States, EXEMPLAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. This compound will be found a great promoter of health, when taken in the spring, to expel the foul hu-mors which fester in the blood at that season of the fuer. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remody, spare themselves from the en durance of foul eruptions and ulcerous sorea, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the booly by an alterative medicine. Cleans out the vitinted blood whenever you find its infouries tourst-ing through the skin in pimples, ornptions, or sores; elecuse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feel-ings will tell you when. Even where no particebar dis-orer is felt, people enjoy better health, and live longer for cleaning the blood. Keep the blood healthy, and all is well; but with this publium of ifie disordered, there can be no lusting health. Sconer or later something must go wrong, and the great machinery of life is dis-ordersd or overthrown.

must go wrong, and the great machinery of life is dis-ordersd or overthrown. Sarsaparilla has, and deserves much, the reputation, of accomplishing these cads. But the world has, been egregiously deceived by proparations of it, purtly be-cause the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretend-ing to be concentrated extracts of it, contain but little Epecay relief to all who may place themselves under all care.

ing to be concentrated extracts of it, contain but little victue of Sarsaparilla, or anything else. During late years the public have been misled by large bottles, pretending to give a quart of extrate of Sarsaparilla for one do.lar. Most of these have been frands upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties what-ever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly

which hold the market, until the name itself is justly despised, and has become synohymous with imposition and cheat, Still we call this compound Sarsaparilla, and intend to supply such a remody as shall rescue the name from the load of obliguy which rests upon it.— And we think we have ground for believing it has vir-tues which are irresistible by the ordinary ran of the diseases it is intended to cure. In order to secure their complete cradiction from the system, the remedy should
