THE NEGRO RACE, Free and Slave.

The census of 1850 established some curious facts as to the relative condition, moral and physical, of the African population-slave and free-in the United States, which will prove especially interesting at the present time. It seems that in Ohio, Indiana, and Illinois, (free States,) the proportion of the insane among the colored population is one in eighty. eight; while in Virginia and Maryland, it is one in one thousand two hundred and ninety-nine. A still more terrible inequality exhibits itself in the older Northern States, where the negro has been Jonger free. In Massachusetts, Maine, New Hampshire, and Vermont, the colored insane are one in thirty-four. If the proportion were as great among the whites of the States, there would be, in these four States, 52,000 luna-tics. Maine, it seems, has even a more shocking disproportion—one in every longer free. In Massachusetts, Maine, fourteen of her black population being insane. Massachusetts, has a white about \$1,760,000-probably some four or five times the present entire av pense of her State government.

TERS can appeal with perfect confidence to

States, because the article has attained a repu-

tation heretofore unknown. A few facts upon

this point will speak more powerfully than

by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid

estimation of an invaluable medicine, which is

and various other bilious complaints have

counted their victims by hundreds. To be able to state confidently that the "Bitters"

are a certain cure for the Dyspepsia and like

diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter

from the stomach, purifies the blood, and imparts renewed vitality to the nervous system,

giving it that tone and energy indispensable for the restoration of health. It operates upon

the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them

to a condition essential to the healthy discharge

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find

in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate,

dence of thousands of aged men and women who have experienced the benefit of using this

preparation while suffering from stomach de-

rangements and general debility; acting under

the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the

gentler sex. There are certain periods when

their cares are so barassing that many of them sink under the trial. The relation of mother

sink under the train. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity

arrive during the summer season, the wear of body and mind is generally aggravated. Here,

then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-

rally prefer the Bitters to all other invigorators that receive the endorsement of physi-

cians, because it is agreeable to the taste as well as certain to give a permanent increase

All those persons, to whom we have particu-larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhœa,

dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary

superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against using any of the many imitations or counter-feits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and siamped on the metallic cap covering the cork, and
