A GOOD BEGINNING .- A correspondent sends us the following, under date of Myeratown, the 18th inst :- "On Saturday last a certain poor family in Jackson township, Lebanon county, Pa., had the pleasure of seeing an addition to the family of three female children at one birth—the first increase of the family, they , being young housekeepers. One of the two did not survive long, but the other two are doing well, as is also the mother. The family is attended by Dr. Isaac Walborn."

In noticing the erection of the steeple of the New Reformed Clurch, of this place last week, we omitted to mention that Messrs. J. Aaron Walter and George Gasser, are the principal mechanics doing the dangerous work. Mr. Walter, we understand, had the fastening of the wood work of the steeple on the the stone wall, which is a perilous work, and was done by him on a new principle understood by but few carpen-

The revival meeting now in progress in the Methodist Episcopal Church of this place, is certainly one of great interest and powor. Night after night the alter is crowded with anxious penitents, inquiring what they must do 'to be saved. We learn that about 40 have professed the pardon of their sins and quite a number are still seeking. The house is nightly crowded from end to end, pews, aisles, alter, benches, and every part of the house, and many have to leave the place for want of room to accommodate them. Among the converts and seekers are a number of Young Men, who promise to make good and useful members of society. We hope, as a member of this community, that this good work may spread and increase until there shall be a great and general interest in all the churches in

Last Thursday was Thanksgiving day in twenty-six of the States of the Union, and in the District of Columbia. In this place it was observed by an almost general cessation of business. Consequently the day was as much, if not more so, a day of rest and quiet, than many Sundays. Divine service was held in several churches both day and evening. The in-door amusements and enjoyments were no doubt the principal feature of the day, and accounted for it in all, last Thursday was probably the first really and generally observed Thanksgiving day we have had in this State, at least so far as Lebanou is concerned.

It is not want that induces most of the petty thieving in this vicinity, but maliciquaness, and consequently is the more annoying to the sufferers. In many instances the loss is such as to irritate, while the property is of trilling value. Such was the case last week at the new church. The carpenters had fitted all their timber ready for the putting together of the steeple as it was put up piece by piece. When busily and danger ously engaged it was found that some of the smaller pieces of the frame work were wanting, having been carried off by some scamp. The loss of time, and the difficulty of preparing new ones to fit parts, some of which were already up and some yet down, must have been annoying in the extreme.

Teachers' Institute.—From the following memoranda of proceedings of the Teachers' Association, of this borough, it will be perceived that a County Institute will be held in this borough during the winter. It is the intention to procure an able and popular speaker from abroad, to deliver the address. As soon as the arrangements for a speaker are completed the time and place for the holding of the Institute will be fixed. The Institute last year was so signally successful, and imparted so much intellectual pleasure and instruction, that we look forward

with joy to the holding of another. For the Advertiser.
At a meeting of the Teachers' Association, on Wednesday evening, it was agreed that a County Institute of three days be held this winter. Thieving.—The call for a meeting at Mrs. Rise's, on Saturday evening last, the object being to form an Association to detect the offenders who take rails from the fences of outlots, and commit other dep.edations in and out of the borough, was well responded to by the attendance of more than twenty of our property holders. The spirit manifested at the meeting vas a fixed determination to detect the perpetrators. Resolutions were adopted to leave nothing untried to bring the guilty ones to punishment. A committee was appointed to draft articles of

association, to be submitted to an adjourned meeting for adoption on Saturday evening next, at Mrs. Rise's. There will no doubt be a numerous attendance, as every one who owns out-lots has suffered from, and is desirous to put a stop to the thieving propensities of the idle and victous .--This new proposed Association, if conducted with energy and promptitude, will also be strong in numbers, so that like the one for the detection of horse thieves, wifi completely answer the object for which it is intended.

At a meeting held at the public house of Mrs. Rise, on Saturday evening, 26th inst. , by the andersigned property holders residing in and near the borough of Lebanon, the following proceed. ings were had, viz :-

IMPORTANT TO FEMALES.—Dr. Cheeseman's PILLS.—The combinations of ingredients in these Pills, is the result of a long-and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly contehance changed to a healthy one. No female can enjoy good it with unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, leathing of food, and disturbed sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of nervous and spinal affections in the back and limbs, lowness of spirits, hysteries, &c. Nor are they less efficacious in the cure of Leucorrhoss, commonly called the "Whites." These Pills should never be taken during pregnacy, as they would be sure to cause a miscarriage warranted purely Vegetable, and free from anything in jurious to life or health. THIS new, preparation is superior for its excellence in I imparting to the Hair a truly beautiful and natural color, which cannot by any possibility lead one to suppose that a Dye had been used, and at the same time its durable character with the simplicity of its application, renders it above all others the Dye of the country, and has already called forth the praises of the Barbers and others who have nised it. The certificate now presented is from a highly respectable citizen of Spring Garden, and speaks in language too plain to be misunderstood.
