hanosome. The St. Louis Bulletin gives an account of a remarkable mathematical genius now in that city. He is 26 years of age and has attended school but, two months in his life. He is a dull looking young man and cannot be taught anything, yet he can answer questions in arithmetic, geometry, trigonometry, which would puzzle the brains of schol. ars to work out. What he knows seems to be of intuition. Many persons have offered him large sums of money to explain his wonderful method of calculation, but he cannot do it, and thinks it is a power given-him especially by the Almighty.
