ford them an opportunity for reconsideration. At the same time we ought never to forget that and Cheap Dry Goods, Groceries and Queenstrue public economy consists, not in withholding the means necessary to accomplish important na-tional objects confided to us by the Constitution. but in taking care that the money appropriated for these purposes shall be faithfully and fragally expended.

It will appear from the report of the Secretary It will appear from the report of the Secretary of the Treasury that is extremely doubtful, to say the least, whether we shall be able to pass through the present and the next fiscal year without providing additional revenue. This can only be accomplished by strictly confining the appropriations within the estimates of the different Decretary of the strictly confined by the strictly confined by the strictly confined to the strictly confined t and within the estimates of the transfer any additional expenditures which Congress may think proper, in their discretion, to authorize, any without providing for the redemption of any portion of the \$20,000,000 of Treasury notes which have been already issued. In the event of a deficiency, which I consider probable, this ought notency, which I consider probable, this ought never to be supplied by a resort to additional loans. It would be a ruinous practice in the days of peace and prosperity to go on increasing the national debt to meet the ordinary expenses of the Government. This policy would cripple our resources and impair our credit in ease the existence of war should render it necessary to borrow money. Should such a deficiency occur as I apprehend, I would recommend that the necessary revenue be raised by an increase of our pres-'sht duty on imports. I need not repeat the opin-lons expressed in my last annual message as to the best mode and manner of accomplishing this object, and shall now merely observe that these hare since undergone no change.

After report of the Secretary of the Treasury will explain in detail the operations of that De-

partment of the Government.

The receipts into the Treasury from all sources The receipts litto the Treasury from all sources during the fiscal year ending 30th June, 1859, involuting the loan authorized by the act of 14th June, 1858, and the issue of treasury notes authorized by existing laws, were \$51,692,471,01 which sum, with the balance of \$6,398,316,10 remaining in the treasury at the commencement of that fiscal year, made an aggregate for the service of the year of \$88,090,787,11.

The public expanditures during the fiscal year

of the year of \$88,090,787,11.

The public expenditures during the fiscal year ending 30th June, 1859, amounted \$83,751,511,57.

Of this sum \$17,406,285,44 were applied to the payment of interest on the public debt and the redemption of the issues of treasury notes. The expenditures for all other branches of the public service during the fischi year were therefore \$66,-The balance remaining in the Treasury on the

1st July. 1859, being the commenceme present fiscal year, was \$4,339,275 54. present fiscal year, was \$4,339,275 54.

The receipts into the treasury during the first quarter of the present fiscal year, commencing July 1st, 1859, were \$20,618,865 85. Of this amount \$3,821,500 was received on account of the loan and the issue of treasury notes—the amount of \$16,797,665 85 having been received during the quarter from the ordinary sources of public sevenue.

The estimated receipts for the remaining three-quarters of the present fiscal year to the 30th June, 1860, are \$50,426,400. Of this amount it is estimated that \$5,756,400 will be received for treasury notes which may be re-issued under the fifth section of the act of 3d March last, and \$1,-170,000 on account of the loan authorized by the act of June 14, 1858.

Making \$6.926.400 from these extraordinary sources, and \$43,500,500 from the ordinary sources of the public revenue—making an aggregate, with the balance in the treasury on the 1st July, 1859, \$75,384,541 79 for the estimated means of the present fiscal year ending 30th June, 1860.

The expenditures during the first quarter of the present fiscal year were \$20,067,174 76 and \$4,-664,366 76 of this snm was applied to the payment of interest on the public debt and the redemption of the issues of treasury notes, and the remainder, being \$15.342,808 were applied to ordinary expenses during the quarter. The esti-mated expenditures during the remaining three-quarters to June thirtieth, 1860, are \$40,995, 558 23. Of which sum \$2,886,621 34 are estimated for the interest on the public debt. The as-certained and estimated expenditures for the fiscal year, ending 30th June. 1860. on account of the public debt, are, accordingly \$7,550,988 10, and for the ordinary expenditures of the government \$53,451,744 89, making an aggregate of \$67,002,732 99, leaving an estimated balance in the treasury on the 30th June, 1860, of \$14,881,-

The estimated receipts during the next fiscal year ending 30th June, 1861, are \$66,225,000, which, with the balance estimated, as before stated, as remaining in the Treasury on the 30th June, 1860, will make an aggregate for the service of the next fiscal year of \$80,606,808 40. The estimated expenditures during the next fiscal year ending 30th June, 1861, are \$66,714,-928 79. Of this amount \$3,386,621 34 will be required to pay the interest on the public debt, leaving the sum of \$63,328,307 46 (sixty-three millions of dollars) for the estimated ordinary expenditures during the fiscal year ending 30th June, 1861. Upon these estimates a balance will DRY GOODS GROCERIES & QUEENSWARE, that has ever passed, or ever will pass, over a Lebanon of \$13,891,879 61.

of \$13,891,879 51.

But this balance, as well as that estimated to remain in the treasury on the let of July, 1800, will be reduced by such appropriations as shall be made by law to 'carry into effect certain Indian 'treaties during the present 'fiscal year, asked for by the Secretary of the Interior, to the amount of \$539,350, and upon the estimates of the Postmaster General for the service of his Department the last fiscal year, anding June 30, 1859 amount master General for the service of his Department the last fiscal year, ending June 30, 1359, amount-to \$4,296 009, together with the further estimate of that officer for the present fiscal year, ending June 30, 1860, being \$5,526,324 making an aggregate of \$10,361,082.

Should these appropriations be made as requested by the proper Departments, the bulance in the treasury on the 30th June, 1861, will not, it is estimated, exceed \$3,830,106 35.

the proper Departments, the bulance in the treasury on the 30th June, 1861, will not, it is estimated, exceed \$3.839,196 51.

'It ransmit herewith the reports of the Secretaries of War of the Navy, of the Interior and of the Postmaster General. They each contain valuable information and important recommendations well worthy of the serious consideration of Congress.

It is gratifying, knowever, to observe an increase of resofts for the year ending on the 30th June, 1859. equal to \$481.991 21, compared with those in the year ending on 30th June, 1859.

It is estimated that the deficiency for the current fiscal year will be \$6,688.424 O4, but that for the year ending 30th June, 1861, it will not exceed \$1,342,473 99, should Congress adopt the measures of reform proposed and urged by the Postmaster General. Since the month of March retrenchments have been made in the expenditures amounting to \$1,826,471 annually, which, however did not take effect until after the commencement of the present fiscal year. The period seems to have arrived for detormining whether this department shall become a permanent and ever increasing charge upon the Treasury.

or determining whether this department shall become a permanent and ever increasing charge upon the Treasury, or shall be permitted to reaume the self-sustaining policy which has so long controled its administration. It will appear from the report of the Secretary of war that the army expenditures have been materially reduced by a system of rigid economy, which, in his opinion, offers every guarantee that the reduction will be permanent. The estimates of the department for the next year have been of the department for the next year have been reof the department for the next year have been re-duced nearly two millionsof dollars below the esti-mates for the prosent fiscal year, and half a mil-bion of dollars below the amount granted for this year at the last cossion of Congress.
The expendituress of the Post Office Department

The extendituress of the Post Office Department during the past fiscal year, ending on the 30th of June, 1859, exclusive of payments for mail service specially provided for by Congress out of the general treasury, amounted to \$14,964,493 33, and its receipts to \$7,963,484 07; showing a deficiency to be supplied from the treasury of \$6,996,009 26, against \$5,235,677 15 for the year ending 30th June, 1858. The increased cost of transportation growing out of the expansion of of the service required by Congress explains this rapid augmentation of the expenditures.

The course of legislation recommended by the Postmaster General for the relief of the Department from its preport embarrassments, and for restoring it to its original independence, is restoring it to its original independence, is deserving of your early and earnest considera-

In conclusion, I would again commend to the just liberality of Congress the local interests of the District of Columbia. Surely the city bearing the name of Washington, and destined, I trust, for ages to be the capital of our united, free, and washington. Confederacy, has strong claims on and prosperous Confederacy, has strong claims on our favorable regard. JAMES BUCHANAN. WASHINGTON CITY, December 19, 1859.

WOULD call the attention of the Farmers of this and adjoining Counties and their friends in general, to the fact, that the help have opened their AGRICULTU-berner RAI STORE, on Pinegrove street, near their Foundry se Machine shops, in the Borough of Lebanon, Pa., where we can truly say, that we have the Largest and Best Assortment of FARMING IMPLE. MENTS ever offered to the farmers of this Commindity. As we have had a long experience in the Manhinethring of Machinery, we have Made it our object to select the best and most durable Machines, and all that we offer for sake we can say that there is no other in use that can surpass them. We have the following Machines that we can recommend to our farmors, viz:—

Minny's Combined Reaper and Mower,
With WOOD'S Improvements, Borsey's Combined Rakers, Roaper & Mower, Railway Horse Powers and Threshers, four horse lever Powers & Threshers, Morgans Patent Fodder, Straw and Hay CUTTER, Cast Iron field Rollers, Grain Fane and Drills, Hay Elevators, Clover-hullers, Cornshellers, by hand or power, Corn Plough and Planters, Caltivators, &c., with a variety of the best PLOUGH'S in use. All kinds of Forks, Rakes, Shovels, Spades, Hoes, grass and grain Scythes, grain Cradels, Bushel and Peek Measures, &c., &c., &c. Farmers will bear in mind that they will find it to their advantage to buy their Machines at home, as all are liable to brake or get out of order, and if they have been bought from a traveling agent they will have trouble to get them mended. How are they to be fixed or the broken pleces replaces, and particularly a Reaper which, by breaking in the midst of your Harvest may deprive you of the use of it for seven days, whilst had it been bought at home it would have been ready for use again in a few hours, as we have the patterns for all the Machines that we sell, and keep a good stock of extras on hand, so that you cannot come emiss.
