

Lebanon Advertiser.

W.M. BRESLIN, Editor and Proprietor. LEBANON, PA. WEDNESDAY, JANUARY 25, 1860.

THE NEGROES IN CANADA. The Canadians are beginning to feel the evil effects of their John Brown abolitionism. The viper they have nursed is beginning to feel its strength, and in consequence is turning and stinging its protector. At Chatham and Sandwich, Canada West, the fugitive slave and free negro population outnumber the whites, and being aware of their strength have recently committed the most horrid outrages, in defiance of the authorities as well as taken possession of the Public Schools, and insisting upon social equality with the whites. There is apparent concert of action among them in different localities, and the high handed measures resorted to recently, as well as the general character of the blacks, is creating a strong feeling in favor of their expulsion, or at least against any further immigration.

SENATOR CRITTENDEN.—John J. Crittenden, of Kentucky, the oldest member of the Senatorial body, is now in the seventy-fourth year of his age. He entered the Senate as early as 1817—forty-two years. It is a singular fact that Mr. Crittenden has never been a member of the House of Representatives. Besides his different terms in the Senate, Mr. Crittenden served the public as Governor of Kentucky, Attorney General under President Harrison, and also under Fillmore. With his retirement in 1861, will disappear the landmarks in the Senate of the old Southern Whigs. John Bell, a worthy competitor, has preceded him in the present year. Of those who remain that once acted with him—Messrs. Tombs, Pearce, and Benjamin—none are now outside the Democratic ranks.

LIABILITY OF HUSBANDS.—It is not an unusual thing to see an advertisement published by the husband of some truant wife, cautioning the public not to trust her on his account, as he will pay no debts of her contracting, and it is generally supposed that such an advertisement is sufficient to relieve the husband from all liability for the payment of such debts. This, it seems, is a mistake. An interesting decision in court has been made recently by Justice Sanford, at Newark, N. J., in a civil suit. One man sued another for the board of his wife for sixteen months, at six dollars a month. The defendant set up that he had advertised his wife, and given public notice that he would pay no debts of her contracting. The justice decided that while this might serve as a warning, it was no legal way of getting clear of the wife's liabilities—that the husband, in the eyes of the law, was liable for the wife's debt so long as she continued such. Judgment was accordingly given for the plaintiff in the full amount claimed. Thus, it would seem, that so far as only such a notice deters others from giving credit to a wife so advertised, does it amount to anything. But if she can get credit, and the husband is worth anything, he is bound in law to "fork over."

THE LAWRENCE CALAMITY.—The Coroner's inquest is yet in progress. The payroll of the Company contains the names of 930 operatives, of whom 675 were employed in the main building, which fell. By the most careful investigation the whole number now known to be dead and missing is eighty-eight, which in all probability is not far from the actual loss. The subscriptions for the relief of the sufferers now amount to 16,691.

FROM CALIFORNIA.—We have accounts from California, overlaid, to the 30th ult. The Legislature was to meet on the 2d inst., and unusual interest appears to attach to the election of United States Senator in place of Mr. Broderick. The inauguration of Gov. Latham was to take place on the 9th. Gov. Weller, and Gen. Denver were the principal candidates for Senator. Great suffering is reported in Carson Valley from a scarcity of provisions. Mining operations had been suspended in some districts on account of the snow, and much suffering prevailed among the Indians of Honey Lake Valley, who were dying from cold and hunger. Cattle were also starving on account of the scarcity of hay, which was worth \$150 a ton. The dates from Oregon are to December 14. The gold excitement still continued. Reports of Indian depredations were prevalent at Portland. The advices from Washington are to December 2d. A tremendous storm had occurred in Puget's Sound which occasioned much loss.

TERRIBLE SHIPWRECK. Nearly nine hundred lives lost. The Thursday Herald contains an account of the wreck of the American clipper ship Flora Temple, of Baltimore, in the China Sea, in October last, which disaster caused the loss of eight hundred and fifty Coolies, and eighteen Europeans. It was written by a passenger on board, and illustrates the horrors which almost inevitably attend the Coolie trade, while it describes one of the most disastrous shipwrecks that ever occurred. The Flora Temple sailed from Macao, for Havana on the 8th of October, 1859. When she had been out a few days it was discovered that the Coolies, who were doubtless greatly dissatisfied with the dreary prospect before them, had formed a scheme to kill the crew and take possession of the ship. The mutiny was promptly suppressed by the captain, but not until one of the crew had been hanged to pieces and several others wounded; and but for the panic produced among the Coolies by the prompt use of a revolver by the captain of the vessel and a portion of the crew, the latter would probably have all been murdered. Before the excitement growing out of this mutiny had subsided, and while the intense feeling created by it still remained, on the 4th of October, the vessel struck the reef in the China sea, and notwithstanding the efforts to save her, it was found impossible to extricate her from her position. The crew at once were horrified by the fear that while all on board were in this helpless and deplorable condition, the Coolies would use and murder them, and the captain ordered the boats to be lowered into one of which, containing thirty-one men, including the writer of the account, Captain Johnson and his brother, and after enduring many sufferings and privations, arrived in the thirteenth day after leaving the wreck at Tauran, where they were hospitably received by the French Admiral, M. PAGE, who sent in search of the missing boats, as well as to rescue the Coolies; but of these eight hundred and fifty unfortunate beings, not one remained; and of the ship itself nothing could be seen except the port-side, from the main-chains forward, attached to the remainder of the wreck by the rigging, together with the bow-sprit and jib-boom, and the top of what seemed to be a main stay mast. No hope is entertained of the rescue or escape of the Coolies, who had been abandoned from their perilous situation, nor of the safety of the eighteen Europeans in the missing boats. The disaster is one of the most destructive to human life that has ever occurred on the ocean, and furnishes another strong reason for the abolition of the Coolie trade, which is only second in infamy to the African slave-trade.

NEBRASKA TERRITORY.—The Nebraska House of Representatives have passed a bill for the organization of that Territory into a State. The Senate will probably concur. The bill provides for an election to be held on the first Monday in March, 1860, for the delegates to a Constitutional Convention—the electors to vote at the same time "for" or "against" State government.

THE COMMITTEE ON THE CONTESTED SEAT OF COL. DUFFIELD, Representative from Philadelphia, reported in favor of Dr. Wiley, who they allege was elected by 13 majority.—Duffield is a Democrat, and Wiley a Republican. On Friday Mr. W. was admitted to his seat.

A WEAK SISTER.—CAUTION TO CLERGYMEN.—Rev. A. S. Finch publishes in the Brockport Advertiser, a card of warning to the public, and his brethren, the clergy, in particular, against a woman whom he married early last fall, and who has since deserted and ruined him. He explains how his ruin was accomplished. While attending the Brockport Camp Meeting, a woman, small in stature, wearing specs, and prepossessing in appearance, pursued him in a carriage, told him of her esteem and how much she was worth, and induced him to marry her. He consented, the knot was tied, and she having accomplished his ruin, forsook him, unable to find another victim. Mr. Finch asserts in his card that this woman had served two men, at least, in the same way before—once residing at Bellville, C. W., the other in West Virginia. The Wisconsin man she left in a destitute condition, with three children to provide for. Last she

RAILROAD ACCIDENT.—FIFTY PERSONS INJURED.—Shortly after eight o'clock Thursday morning, a collision took place in the Yorkville Tunnel between a Harlem and New Haven train, by which about fifty persons were more or less injured, but happily no one killed. The trains were both approaching the city upon the same track, the Harlem train was on account of breaking of the parallel rods of the engine, suddenly stopped, and it being dark, and the tunnel being densely filled with smoke, the stoppage was not observed by the engineer of the N. H. train and consequently he ran into the rear end of the other, smashing the car and disabling his engine.

WOMAN'S HEROISM.—As the people were flocking round the fallen Pemberton Mill at Lawrence, at one point when a rope had been fixed to a projecting timber, a call was made to the crowd to take hold and pull with a will, but for a few minutes, such was the danger of the attempt—for the beam in falling might engulf all near it—for a few minutes we say, the call was unheeded. Men shuddered and drew back—they would risk much to aid those below, but life was sweet and the danger great. At this critical juncture, a woman rushed from among the crowd, and during the spectators to follow, seized the rope and attempted to mount the pile of smouldering ruins to clear away with her hands. The example was enough; not a word was said, but strong hands at once drew her back, and then there were no lack of hands to the rope, the beam was drawn out and at least two sufferers released from the opening thus made.
