THE SINS OF SLAVERY. We hear a great deal from the members of the Whitefield, the great revivalist preach- of Slavery. Does it never occur to them that the er, was at one time a slaveholder in pure should throw the first stone? When the opposition convention at Harrisburg, last week, passed with such a storm, the resolution condemning the "element of slavery as a their own eyes, or they might have passed recobers, as any of those of a far distant people .-

The Delegates at large are David Wilmot, Hen-Reeder, Thaddeus Stevens, Titian J. Coffey, John

Gutelius.

The committee on Resolutions presented an exceedingly lengthy report, with a long preamble devoted to the advocacy of the claims of General Cameron. The resolutions proper begin, of course, with denunciation of the National Administration-opposed slavery as an element of veakness—aver that it does not enter into the scheme of the Opposition party to seek the abolition of slavery in the States where it now exists -that in the enactment of revenue laws by the Coneral Government, fair and adequate protection should be systematically afforded to the industry of all classes of citizens—that the influx ipon us of foreign criminals is an evil of serious nugnitude, which demands the interposition of a roper and efficient legislative remedy, &c, &c, to the extent of a column. The resolutions were adopted, after which the Convention adjourned.

PRISON LABOR .- The prisons of Rhode Island bave an order for 200,000 pairs of brogans from Louis Napoleon, for the prison labor is cheaper than the pauper labor of Europe. Prison labor scame to interfere more with honost white labor than slave labor-at least in the New England rent. They shed crocodile tears for the poor white laborer in the territories and the slaves in the South, while the vagabond criminals of their ject, reported in favor of restoring the old chairs prisons take the bread from the mouths of their and desks in the Hall, and proposing an adjournpoor white mechanics, and corrupt officials fatten upon the spoils.

No loss than eight of the resolutions adopted by the Harrisburg Convention last week relate to the negro question. And yet you can scarcely pick up a single member of that party who will acknowledge the remotest idea of interfering with the institution of slavery where it is. If they do not light slavery where it is, what are they fighting? > More Heatness at Home. The shocmakers More Heathers at Home.—The shoomakers of Natick, the residence of Senator Wilson, the ultra Republican Senator from Massachusetts, recently held a meeting and declared through a Committee, that "their present compensation for labor falls far below the decent requirements of civilization." Judging from this it would be well if Senator Wilson would direct his attention. well if Senator Wilson would direct his attention to his own home, and leave the South take care of its own domestic institutions. The Heathens are at the deers of Senator Wilson; let him at tend to them!

THE WHIGS .- The old-line Whigs are entirely ignored by the opposition party at this day. We present, at which-not ashamed of the irreligion hear a great deal of Republicans, Peeples' Party, and infidelity which stalks abroad unmolested in Opposition, &c., but not at all of the Whigs. ### HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stemachic derangements

and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as onduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial. CAUTION .- We caution the public against using any of the many imitations or counterfeits, but ask for Hostetten's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped

on the metallic cap covering the cork, and observe that our autograph signature is on the AP Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, South Ame-

rica, and Germany. JACOB G. MILLER, former öwner, having been appointed the Agent of the undersigned, will attend to business for them.
