cago Journal of the 13th, tells the fol lowing extraordinary story. This morning a case was examined before Justice Akin, which has an air of romance around it, and exhibits a revelation of real life from which a most thrilling tale of fiction could be wrought. A woman named Ellen Welch, was found last night by one of the policemen, roving about the streets, slightly intoxicated. She was arrested upon the charge of vagrancy. Parties who are knowing to her history, informs us that some five or six years ago, Ellen ran away from Ireland in company with a dashing young Irishman whom her paintoxicated. She was arrested upon

rents had forbidden her to marry. Her father lived at Castle Kearney and was a man of opulence and influence, and Ellen had been well brought up. But with that perverseness which is always a characteristic of love, was bent on marrying the young officer. She accordingly eloped with him and came to Philadelphia, where she was married. She lived with her husband about a year, at the expiration of which time he died. She then went to Chicago and married again, but again was doomed to misfortune. Her husband, who kad the reputation of being an excellent man, was with wood in the river by falling from a schooner. Ellen maintained herself by sewing for a time, but finally fell in with disreputable characters, who fleeced her out of her clothing, and an allowance of thirty dollars which she received every three months of her father, through the priest. She took to drinking and by gradual descents soon fell to a low depth. We know from indubitable sources that this woman, this morning arraigned before no vagrant, is an own neice to Daniel O'Connell, the great Irish Orator and Reformer, her mother, Mary O'Connell, being his sister. Her parents, as we said before occurry Castle Kearney. In man of opulence and influence, and Ellen had been well brought up. But being his sister. Her parents, as we said before, occupy Castle Kearney, in Ireland and are known through the length and breadth of Ireland as a family of opulence and widely esteemed for

AN ANCIENT MINE .- A correspondent of the Marysville (Cal.) Democrat, writing from Gibon-ville, says: "On the very summit of the mountains of Mazatdan are the shafts of a deserted mine, which is one of the curiosities of the country. It was worked by los antiquos. a venerable myth which supplies in Mexico the place of Solomon and the genii in the East, Julius Cresar in Sonthern Europe, and the "Danes" in Merric. England. The mine is surrounded by precipices almost inaccessible to men. and absolutely so to liousts of burden. No road leads to it. The workingsare of unknown depth, and drainage has been effected by pumps of great calibre made of huge logs brought, at heaven knows what expenses, from the Sierra Madre. These pumps are larger than any now used in the country, and are a species of hydraulic engine almost unknown at the epoch at which the mines must have been worked. Above all, there are no existing traces of a Real or Hacienda de Beneficio. Altogether, it is a perfect enigma. Tradition—and not a very reliable one at that—second. not a very reliable one at that—asserts BACH'S NEW WARE ROOMS, Market street, Lob that it was abandoned and filled with water in the great irruption of the Opatas. This is equivalent to saying in Europe, that it happened before the foundation of Rome. Pity that the blind fury of revolutionary partisanship and the neglect of corrupt officials should have caused the entire destruction of the mining archeives of the country, so icalously guarded and carefully compiled during the Spanish domination, and buried so many subjects of interest in perpetual night!

THE LADY AND HER MAID .- The Salut Public of Lyons says: "A young widow residing in this city lately took into her service a girl who had excellent testimonials. Two days ago, as the lady was sitting in the drawing room, the girl entered, carrying under her arm, like a bundle of linen, her mistress's little daughter, about three years old, with the head foremost, and proceeded deliberately to open one of the windows. The lady, astonished at her manner, The lady, astonished at ner manner, asked her what she was going to do with the child; to which the servent, with the greatest coolness, said that she was going to throw it out of the windraws going to thought a cool of the windraws going to do which the servent, so the windraws going to do which the servent, so the windraws going to do which the servent, so the windraws going to do which the servent, so the windraws going to do which the servent, with the greatest coolness, said that she was going to the windraws going to do which the servent, with the greatest coolness, said that she was going to the windraws going to do which the servent, with the greatest coolness, said that she was going to throw it out of the windraws going to the w dow. STRANGE TASTE, -It is not generally known that at Copper, on the lake of Geneva, the residence of the late Madame de Sinel, and her father and mother the celebrated Monsieur and Madame Necker, the latter are not buried, but are preserved in a huge vat of spirits of wine. The curious—and they are not few-rush there to see this most painful as well as disagreeable of sights. It was much the desire of Monsieur Necker that he and his wife should be pickled in this strange manner, but fearing his own family might not carry out his wishes, he left a certain sum to be paid out yearly to the town for the supply of a certain quantity of spirits of Wine for that purpose. The vat is placed in the ground, close to the house, and partially hid by trees, which his grandson, Monsieur le Baron de Stael had planted around it.

SCROFULA, OR KING'S EVIL,

SCROFULA, OR KING'S EVIL,

Is a constitutional disease, a corruption of the blood. It is which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any purt of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, fifth and fifthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, decending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the laiquidles of the fathers upon their children."

Its effects commence by disposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs is termed tubercles; in the glands swellings, and on the surface, eruptions or sores.—This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous! their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract Of Sarsaparilla.

the most effectual remdy which the medical skill of our times can devise for this everywhere prevailing and fatal analaly. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not celly scrofula, but also those other affections which arise from it, such as ERUTHYE AND SIERSES, ST. ANTHONY'S FIRE. ROSE, OF ERTSPELAS, PIMPLES, PUSTILES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SAIT RHEUM, SCALD HEAD, RINGMONM, RHEUMATIEM, SYPHILITO and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and indeed, ALL COMPLAINTS AUSING FROM VITATED OR IMPERE BLOOD. The popular bolief in "Impurity of the Blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions,

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the laugs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer lesstate what antidote to employ for the distressing and, dangerous affections of the pulmonary organs that are incident, to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

manas—to be had gratis, from the Agents for these Pills.

The inventor and manufacturer of "Judson's Mountain flerb l'ills," has spont the greater part of his life in traveling, having visited nearly every, country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it, was the inta the "Mournain Illean Pills" were discovered. A very intoresting account of his adventures there, you will find in our Almanae and Pamphlet.

It is an established fact, that all diseases arise from IMPURE BLOOD!

The blood is the life! and when any foreign or un healthy matter gets mixed with it, it is all at once distributed to every organ of the body. Every nerve faels the poison, and all the vital organs quickly complain.—The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feelile. The lungs become clogged with the poisonous mater; hence, a cough—and all from a slight impurity at the fountain-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood by to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all the secretions of the blood; they are, therefore, unrivalled as a
