IS THE MILLENIUM AT HAND. The Rev. Dr. Cumming, the noted London preacher, believes that we are upon the eve of the Millenium. In the discourse recently delivered in Leeds, he gave interpretations of passages in the Book of Daniel and the Apocalypse, which are novel if not convincing. We quote from a brief report in an English paper:

He said the year 1867 seemed to end 6,000 years of the world's history, and from the earliest periods onward it had been the almost universal belief that the six days of creation were typical of these 6,000 years, and that the seventh day of creation, or the Sabbath, was typical of the millennial rest of 1,000 years. But he would say that, supposing this were so, they were at this moment 140 years short of the 6,000 years. It was a remarkable fact, however, that the ablest chronologist, irrespective of all phrophetic theories, had shown that a mistake of upwards of 100 years had been made in calculating the chronology of middle-aged man; must have meant Orfa, is the ancient cloister Ishanli the Christian era began not from the the world, and that the year 1860 of dom; determined to be wise in ten the handkerchief is preserved with in the year 4138, and that the year year 4004 of the world's history, but Italian; tried Logier; it would not do; They guard it with the greatest care, that, or in 4132.
