HOME AFFAIRS.

On Friday morning at about 1, o'. clock, as the sattle train from the West was par- where he had been interred. From indications sing Robesoula, they run into some shiply bis perceptible of the fact, the Steward was induced cars, which the wind had blown from the side. ling on to the main track, smashing them to pieces, and breaking several cars of the train, and seriously damaging theengine (Octarara) and tank. Nobody hurt. Strange to say among all the seattering of cattle and hogs, there was but one hog killed and two hurt.

Clubs for the approaching campaign are being organized all over the country. When will the Democracy of Lebanon more in the same direction ? If we want a thorough and efficient organization the sconer we begin the better,

ROBBERY .- The residence of Mrs. Groh, widow of John Groh, near Fredericksburg, this county, was entered through a window, on, Tuesday night of last weak, and robbed of up. wards of \$100 in money. The robbers ony the shutter to the window, and took the chest in which the money was out of the house, distant several hundred yards and there rifled ,it, The family slept in another part of the house and was not disturbed. No clue to the scamps has yet, been found.

GRAFTING WAX .- This being the reason for grafting, we publish for the benefit of fruit growers the old receipt for making grafting Ward. wax, at the same time adding a new receipt recommended by a prominent agricultural journal. The old standard grafting wax is made as follows :----"Three parts tosin, three parts beeswax, and two parts beef tallow. These are melted together, and the mixture is usually applied with a painter's small brush or a wooden, blade. It is frequently worked up like shoe-maker's wax, stripping it through between two pieces of wood and applying around the graft." We prefer the first name process.

The NEW grafting wax referred to, is made and applied as follows :- "Melt two ounces of rosin slowly so as to make it throw off its spirits of turpontine. When it becomes perfectly clear, add a little loss than an onnoe of alcohol, mix well, and at once cork tight in a bottle. Add alcohol afterwards to make it a medium liquid, and apply with a small brush or wooden blade. Like the foregoing it is said to form an sir-tight covering, which is the object aimed at by all applications II. Bucher, of Cumberland, Treasurer. After a in grafting." The perfect covering for grafts is fall discussion, the Society selected Wyoming, in that which will always adhere to the stock, and Luzeros county, as the place for holding the next will not erack in cold, high winds of spring, or run in the hot suns of summer.

On Tuesday of last week, his Honor, Judge Pearson heard the complaint in the Secretary of the Commonwealth has received inen, belonging to Franklin J: Witner, of Corn al Company of Pennsylvania, and R. Rundle Smith, J. R. Paul and Oscar Thompson, mortgages of said Oanal Company. Mr. Funck was solicitor for complainant, and Mr. Kline for defendants. The bill as read by Mr. Funck, specially recited the injury done to complainant (who is a miller on the Quittapahilla), by the diversion of the wator of the creek, from the mill pond at the steamhouse during the navigable senson of the year by and through which he says he is injured, and praying an injunction against the Canal Company. It also contained a number of interrogatorics propounded to the defendants: Mr. Kline read a plea which was in the form of a plea and too much envy, jealousy and crimination in gur [ can be raised. answer, traversing the bill and answering the interrogatories, after which depositions were read on both sides. Afterable arguments by the counsel of both parties, the Court reserved its decision. until April Term. The property des troyed last week by fire near Jonestown, was insured in a Lancaster company for \$4,500. It seems that the fire sprend so rapidly that the family had scarcely time to escape from the dwelling, and in which they were materially assisted by Mr. John Stains, of this borough, why happened to be there at the time. Mr. Jonas Houser was the lessee of the Mill, and lost every thing. His case excited the sympathy of the neighbors, who held a meeting, and appointed committees to receive contributions, lessons !

CENSUS.-The eighth census will be taken this year. According to the act of Congress, no deputy will be allowed over twenty thousand inhabitants. The deputies appointed by the United States Marshall will be required to commence operations on the 1st day of June, inuncheon i.e, noonshun, the refreshments taken and conclude their work in six weeks thereafter. This will make small districts necessary, though the heat. much can be done in one month.

The Resurrectionists are about 1-It is generally known over town that the budy of the young man, who committed suicide last week, election in 1854, on account of ill health. was stolen from the grave at the Alms House to open the grave, when the coffin and clothes made a pretty good shot. No less than four difwere found, but the body was gone. Where it ferent parties have taken the allusion to them. was taken to, or by whom taken is not known.

The State Capitol Steam Flour Mill, at Harrieburg, was destroyed by fire on, Tuesday morning of last week. The fire is believed to have originated in the smut machine.-Loss \$15,000, upon which there is an insurance of \$6,000. The mill was owned by Mr. 5. 8. McCalloch.
