NEW METHOD OF TRAINING LIMA Brans. Pen Sir: The following is but if small hint, but by it films beans may be gathered fall two wasks before the usual time, and so, perhaps, may be useful. Instead of having long and stout poles only, as is usual, I tie on lateral slender rods with a willow band, horizontally, and so train the vines much, in fact, as you would do a grape vine. It takes but a few minutes to give my small plot of plants a tendency to run on the interni poles, and am well rewarded by their extra earliness. I cannot explain why they should e earlier than when they run up on upright poles, but such is the fact, and you may have it

TERFEITER.
[From the Cleveland (Ohio) Herald, April 19.]
Deputy Marshal Cable, Jefferson county. Ohio came up this morning on the Cleaveland and Pittsburg train, having in charge Joseph L. Ball, indicted at the present term of the United States Court for making and passing counterfeit coin. The arrest was made yesterday at the residence of the prisoner in Newburg, Jefferson county.

The arrest is one of the most important that has been made for some time. Ball is an old man-sixty years of age, and is reputed to be wealthy. He has a fine house and large farm, and ranks among the substantial men of Jefferson county, For a long time he bas been suspected of being connected with an extensive gang of counterfeiters, but his were such that no one dared give information against him. Ball is a magistrate, and his position was used to shelter the counterfaiters and oppress any one that was sospected of interfering with their operations. Several instances have been where members of his gang have been brought before him, and either released at once, in defiance of law and evidence, or sentenced in such a manner that they escaped by a legal lawyer who was cognizant of the proment paper. The writ was accordingly sued out, a legal defect having purposely been made in the commitment the man was dismissed.

S. S. Conn, who has been tried and sentenced to the Penitentiary for seven years for passing counterfeit money, was a favorite pupil of Ball, and it was probably on Conn's trial that the facts were developed that led to Ball's indictment and arrest. He has been lodged in jail.

Ball has a wife and four children. [One of the counterfeiters sentenced last August by our Court to the penitentiary for three years, gave his name as

from Ohio. -Ed.] Or The new Auditor General and Surveyor General, Messrs. Cochran and Keim, took possession of their offices

last week.

CROUP.—Children are often seized very suddenly with this disease, which, if not quickly releved, proves fatel. It generally attacks children in the night, after having been much exposed to damp, cold winds through the day. Bamp houses, wet feet, thin shoes, wet clothes, or anything that obstructs perspiration, may occasion Croup. Mothers! your children are liable to be taken with this dread, complaint at a time when you least expect it; but it is not always a doctor can be called or a remedy found, and for this reason we would advise you now, and without a moment's delay, to buy a bottle of Dr. Baron's Invantic Cordial. It will cure every case of Croup, if taken in time; and also all couplaints attending Tecking, Convulsions, Coughs, Colds, etc. It is sold by all respectable druggists. Messrs. HEAL THE SICK .- Diseases of the Heal the Sick.—Diseases of the Bowels and stomach are always caused by large deposits of burtful matter, left by bad or impure blood in those important organs, and the poisonous material in this vitiated blood, acting en the system, makes it too weak to throw off this matter by the natural channels, or if any is carried off it is a very small portion. So arise diarrheat, and dysentery, colic, costiveness, bad breath, indigestion, nausea, loss of appetite, belching of wind off the stomach, etc. To cure all these "the blood is the life," and must be perfectly pure and clean, then you cannot be, sick. A short use of JUBSON'S MOUNTAIN HERB PILLS will delight you. Ross and D. S. Raber.

THE GREAT DRAWBACK to person THE GREAT DRAWBACK to person emigrating to the extreme south and western country, is the fear they have of the Fever and Ague—the most direful of all diseases. Every day we hear of persons attacked by this disease, and made helpless in a short time, without any means of affording relief. In view of the great demand for a remedy Dr. Hostetter has presented his CELBRATED STOMACH BITTERS, whose curative powers for all diseases of the stomach have been universally acknowledged. The Bitters, prepared after a long experience and deep study, have received the encombans of the most eminent physicians, as well as all classes from every part of our country. To those who doubt their many virtues, all we can say is to try them, and judge for themselves respectively. So & by druggists and dealers generally everywhere.

EXTRAVAGANT FASHIONS.—A recent letter from Paris reports that the modes in the gay metropolis duily become more showy and extravagant. The writer adds: Never has there been so great ademand for costly laces and embroideries, and magnificent materials of all descriptions. Gold glitters on all articles of dress velvets; motres and brocades are all embroidered with gold. This of course, relates to articles of ladies' wear. The gentlemen generally display much good taste, and appear in garments greatly resembling those made at the Brown Stone Glothing Store of ROCKHILL & WILSON, Nos. 603 and 605 Chestnut street, above Sixth, Philadelphia.

SCROFULA, OR KING'S EVIL

SCROFULA, OR KING'S EVIL.

Is a constitutional disease, a corruption of the blood, hy which this fluid becomes vitlated, weak, and poor. Being in the circulation, it pervades the whole body, and mid' burst out in disease on any part of it. No organ is free from its attacks, nor is, there one which it may not destroy. The perofutions tailst its variously caused by mercurial disease, low livings, disendared or unhealthy food, impure air, filth, and fittly fiftigs, the depressing vices, and above all. by the venoreal infection. Whatever be its oligin, it is hereditary, in the constitution, decending "from parents to children unto the third and fourth generation;" indeed, it seems to be thaned of Tilim, who says, "I will visit the infquities of the fathers upon their children."

Its effects commone by disposition from the blood; of corrupt on alcerous matter, which, in the lungs, fiver, an Internal organs is termed tibercles; in the grands swellings, and on the surface, oruptions, or some, This foul corruption, which genders in the blood; depresses the energies of life, so that secrolulous constitutions not only suffer from servolulous complaints, but they have fur loss power to withstant the attacks of other diseases; consequently vast mumbers periab by disorders which although not errofulous in their neutrie, are still rendered fatal by this taint in the system. Most of the consumption which declarates the human family has its origin directly in this scrotulous epithing ination; and many destructive diseases of the livet, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quartor of all our people are secondount their persons are invaded by this lurking infection, and their health is indermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and integrate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsapa-

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this found disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be comployed for the cure of not bely scrofulations which arise fromes, it such as leaurive and Skin Diseases, St. Anthony's Fire, Ross, or Environtlas, Pinness, Pustures, Blains and Boils, Tumors, Tetter and Skin Break, Scale Head, Skin Break, Ingularisa, Springer, and Michematal Diseases, Droper, Preparate, Deskint, and indeed, all Complaints are helief in "impurity of the Brood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Shrisparilla is to purity and regonerate this virtal fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills. For all the purposes of a Family

For all the purposes of a Family Physic, are so compared that disease within the range of their action can rarely withstand or evade them. Their pencirating properties search, and cleanse, and invigorate every portion of the human organism, correcting its bosonsed action, and restoring its healthy vitalities. As toconsequence of these properties, the invalid who is diwed down, with pain or physical dobility is as a nyshed to find his health or energy restored by a remiell at once so simple and inviting.

Not only do they cure the every-day complaints of every-body, but also many formitable and dangerous diseases. The agent below mixed is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for heir use in the following complaints: Custineness, Hearthurn. Headache, arriving complaints: Ostioners, Hearthurn Hadache arrising from disordered Stomach, Nunsen, Indigestion, Pain in and Morbid Inaction of the Basels, Figulator, Loss of Appelle, Janudice, and other kindred complaints arising from a low state of the holy or obstruction of its functions.

Ayer's Cherry Pectorial. FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup,

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Indipent Consumption, and for the relief, of Consumptive Patients in advanced stages of the disease.

So wide is the field of its distributes and so numerous are the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once, tried, its superiority over every other neglicine of its kind it too apparent to escape observation, and whore its virtues are known, the public no longer hesitate what antidote to employ for the distressing and cangerous affections of the pulmonary organs that are inclient to our climate. While many inferior framedies threst upon the community have failed and been discauded, this has gained friends by every trial, conferred benefits on, the afflicted they can never forget, and produced threst too naturerous and too remarkable to be forgotton.
