EXAMPLE Control of the series of appearance and of the series th ing been found beastly drunk and sent to jail. A correspondent of the Peters-

burg Express says. A few years ago, Linton was an intelligent handsome, refined young man -now he is a confirmed sot-bloated to] Faistoffian proportions-and presents a loathsome appearance."

OIL GIVING OUT .- The Pittsburg Disputch says: The Oil fever is said to be subsiding very rapidly in the region up the Allegany where it first broke out. It is stated that some of the wells that yielded most abundantly have entirely "gin out"-pumped clear and clean of ole-ginous wealth. It is also whispered that many claims are in the market, or offered in partnership, on considerably lower terms than formerly -in short, that parties are at least terribly scared, if not hadly burt, who but a little while ago were perfectly sanguine of large fortunes. These stories are floating down-possibly on the rafts from that region-and are pretty generally eredited, whether true or exaggeraled.

Some of the Saginaw Indians are in-tense ways in their way. One of them having given a trader some annoyance, was told that in case he was seen again with a bottle, it would be taken from STEAM PLANING MILL. with a boille, it would be taken from him and thrown into the fire. A few days after, the Indian appears with a pink flask in his blanket, as usual, but the trader was as good as his word, and demanded the bottle, which the Indian gave up and storted for the door. The trader threw the flask into the stove, upon which bang went the stove, and out tame the windows, trader following class behind. The next time that men burns an Indian's whiskey bottle, he will examine it to see wother its contents are whiskey or gunpowder.

SEQUEL TO THE DIAMOND WEDDING. -The New York correspondent of the Bostoff Jourhad, writes thus: T won't vouch for the accuracy of if, but rumor is loud that the lady of the Dixmond Wedding has come back ugain-that she found her lord and master testy, had tempered and penurious-that the now due installment on the Fourteenth street homan has not been paid, and that all Boston Journal writes thus : I won't

DR MOTT'S CHALY BEATE RATIVE PILLS of IRON.

An aperiant and Stomachic preparation of IRON pu-rified of Oxygen and Carborn by combustion in Hydre-gen. Sanctioned by the highest Medical-Authorities, both in Europe and the United States, and prescribed in their pursuites.

both in Europe and the United States, and prescribed in their practice. The experience of thousands daily proves that no prep-ration of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in atmost ev-ery conceivable case. Innovious in all maladies in which it has been tried, it has proved absolutely, cura-tive in each of the following complaints, viz: In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrheea, Dysentary, Incipient Consumption, Scrofulous, Tuberculosis, Salt Rheum, Mismonstruation, Whites, Chlorosis, Liver Complainte, Chronic Headnebes, Rheuma-tism, Intermittent Fevers, Pimples on the Face,

tism, Intermittent Fevers, Pimples on the Face,

Liver Complaints, Unromite Headmines, Materialia-tism, Intermittent Fevors, Pimples on the Face, &c., &c. In cases of GENERAL DEBLITY, whether the result of acute disease or of the continued diminution of ner-vous and muscular energy from chronic complaints, one trint of this restorative has proved successful to an ex-tent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotien in their own itelyborhood, have sud dedly reappeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Suf-ferers, emaciated victims of apparent manasmus, sah-guincous exhaustion. critical changes, and that compli-cation of nervous and dyspeptic aversion to air and ex-orcise for which he physicina has no name. In NERVOUS AFFECTIONS of all kinds, and for rea-sons familiar to medical men, the operation of this prep-paration of iron must necessarily be salutary, for un-like the old oxides, it is vigorously tonic, without being exciting and over-heating; and gonthy, regularly aper-ent, even in the most obstinate cases of costiveness, without ever being a gustric purgativo, or inflicting a disagreeable sensation. It is this latter property, among others. which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exort a distinct and specific action, by dispersing the local tendency which forms them. In DISPEPSIA, innumerable as are its causes, a sin-gie box of these Chalybacte Ulis has often sufficed for the most hebitual cases, including the attondent *Costive-ness*.

ness. In unchecked DIARRICEA, even when advanced to DYSENTERY, confirmed, enaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of fleah and strength, debilita-ting cough, and remittent hereit, which generally indi-cate INOIPIENT CONSUMPTION, this remedy has al-layed the alarm of friends and physiclans, in several very gratifying and interesting instances. In SCROPULOUS TUBERCULOSIS, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities. The attention of females cannot be too confidently in-vited to this remedy and restorations, in the cases peculi-arly afforting them. In RIEGUATISM, both chronic and inflammatory— in the latter, however, more decidedly—it has been in-variably well reported, both as alleviating pain and re-ducing the swellings and stiffness of the joints and mus-cles. cles. In INTERMITTENT FEVERS it must necessarily be

In INTERNITTENT FEVERS is must necessarily be a great remedy and energetic restorative, and its pro-gress in the new settlements of the West, will probably be one of high renown and usefulness. A BOVE, we present you with a perfect likeness of Texuco, a chief of a tribe of the strange Azter Na-ti n, that once ruled Mexico. You will find a full ac-count of him and his people in our Pamphiets and At-manacs-to be had gratis, from the Agents for these Fills.

A state of the state in the state of the outer ramponets and Al-manacs—to be had gratis, from the Agents for these Pills. The inventor and manufacturer of "Judson's Moun-tain Herb Pills," has spont the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "MOUNTAIN HERE PLUS" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet. It is an established fact, that all diseases arks from IMP UKE B LOOD! The blood is the lifel and when any foreign or un healthy matter gats mixed with it, it is all at once dis-tributed to every organ of the body. Every here feels the polsen, and all the vital organs gulckly complain.— The stomach will not digest the food perfectly. The ilver censes to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is fac-ble. The lungs become cloged with the polsenum they are apple of the file of the Body is from which ran a tiny rivulet, in a faw minutes the whole course of the stream becomes disturbed and discolved. As gulckly does impure blood fly to every part, and leavoits sting behind. All the passage become di-lamp of life scon dies out. These pills not only purify the blood, but regenerate all the secretions of the body ; they are, therefore, un-rivalled as a CURE FOR BLLYOUS DISEASES.
