The Corner.

A GAY LOTHARIO.—John Iverson the South for aggravated polygamy; he had thirteen wives. The daughter of the jailor whose hospitality ter of the jailor whose hospitality this insatiable polygamist was enjoying while awaiting trial, believed him innocent, pitied him, loved him, opened the prison doors, fled with him, became his fourteenth wife. After eight days of domestic bliss the husband came his fourteenth wife. After eight days of domestic bliss the husband disappeared, and left neither trace nor money behind. A reward was offered, and a neighboring constable immediately set about preparing his toils for the victim. In order to instil confidence, into his breast; he made his acquaintance, invited him to his management and then went off to procure legard to the state of the content of the procure legard and then went off to procure legard to the state of the state of the content of the procure legard to the state of the content of the procure legard to the state of the content of the procure legard to the state of the content of the procure legard to the state of the content of the procure legard to the state of the procure of the pr gal assistance. When he returned, his home was deserted alike by his intendson had led astray. Tue wretched man suggests that a proper, though a terribly severe punishment would ed prey and his own wife, whom Ivera terribly severe punishment would be to compel this polygamist to live with fifteen wives at once.

Inving's Early Attachment.—Mr. Bryant, in his eulogy upon Washington Irving, relates the following incident in his life, and which had so marked an influence upon his character:

It was during this interval (1809 to 1819) that an event took place which had a marked influence on Irving's future life, affected the character of his writings, and now that the death of both parties allows it to be spoken of without reserve, gives a peculiar interest to his Possessal history. He became attached personal history. He became attached to a young lady whom he was to have married. She died unwedded, in the flower of her age; there was a sorrowful leave taken between her and her lover, as the grave-was to separate them on the eye of what should have been her bridal; and Irving, ever after to the close of his life, tenderly cherished her memory. In one of the biographical notices published immediately after Irving's death, an old, well-worn copy of the Bible is spoken of, which was kept lying on the table in his chamber, within reach of his bedside, bearing her name on the title page in a delicate female hand—a relic which we may, presume to have been his constant companion. Those who are fond of searching in the biographies of eminent men for the circumstances which determined the beat of their genius, find, in this sad event, and the cloud it threw over the hopeful and cheerful period of early manhood, an explanation of the transition from the unbounded playfulness of the History of New York, to the serious, , tender, and meditative vein of the Sketch Book.

COAL ASHES AS A MANURE. - Without any pretensions to a practical knowledge of the subject, we are tempted to give our experience in a small way.-Upon a half acre of land, partly in grass and partly cultivated, we have tried the experiment as follows, with great suc-

DR MOTT'S CHALYBEATERATIVE PILLS IRON.

An aperient and Stomachic preparation of IRON purified of Oxygen and Carborn by combustion in Hydregen. Sanctioned by the highest Medical Anthorities, both in Europe and the United States, and prescribed in their practice. both in Europe and the United States; and preserving in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, vis:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrheza, Dysentery, Incipient Consumption, Scrofulous, Tuberculosis, Salv Rheury Mismenstruction. Whites, Chlorosis.

Salt Rheum, Mismenstruction, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheuma tism, Intermittent Fevers, Pimples on the Face,

tism, Intermittent Fevers, Pimples on the Face, &c., &c.
In cases of GENERAL DEBILITY, whether the result of scute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved succussful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridsen as to have become forgotten in their own neighborhood, have sud dedly re-appeared in the busy world as if just returned from protracted tratel' in a distant land. Some very signal instances of this kind are attested of female Sufferens, emaciated victims of apparent mayasmus, sanguincous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and excreise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old exides, it is vigorously tonic, without being exiting and over-heating; and gently, regularly aperient, even in the most obstinate cases of costireness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Pilies, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

specific action, by dispersing the local tendency which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costreness.
In unchecked DIARRHEA, even when advanced to
DYSENTERY, confirmed, emaciating, and apparently
malignant, the effects have been equally decisive and
astonishing.

malignant, the officets have been equally decisive and astonishing.

"In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROFULOUS TUBERCULOSIS, this medicated from has had far more than the good effect of the most cautionally balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorating, in the cases peculiarly affecting them.

In RHRUMATISM, both chrofile and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In INTERMITERNT PRESES is must necessarily be

In INTERMITTENT PRVERS it must necessarily be In INTERMITENT PEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good spicitie, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Dringgists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, ect., should be addressed to R. B. LOCKE & Co., General Agents, 339 BROADWAY, N. Y. April 11, 1860-1y.

Sworn statement of David M'Creary, of Napier Town ship, Bedford county:

In April, 1856, as near as I can remember, a small pinple male its appearance on my lip, which soon became enlarged and sore. I used poultices of sorrel, and wash of blue vitrol, without effect. Finding these remedies of near extending, I called on Dr. Ely, of Schellaburg, who proneunced it Cancer, and prescribed a wash of sugar of lead and brend poultices. Finding these remedies of no avail, I called upon Dr. Shaffer, of Bavkiville, Someraet county, who also pronounced the disease Cancer, and gave me internal and external remedies—the latter consisting principally of caustics; but all to no purpose, the disease continued spreading toward the nose. I next used a preparation of arsenic, in the form of salve. This for a time checked the disease, but the inflammation soon increased. I next called upon Dr. Statler, of St. Clairs ville, Bedford county, who also pronounced the disease Cancer, and applied a salve said to be a never falling remedy, but it had no offset whatever in checking the spread of his earn. In Beember, of the same year, the disease had eaten away a greater part of my upper lip, and had attacked the nose, when I went to Cincinnati, where I consulted Prof. R. S. Newton, of the Election Medical College. He pronounced the disease "acutaneous Cancer, superinduced by an inordinate use of morecury." He applied mild zine ointment, and gave me internal remedies. My face headed up, but the inflammation was not thoroughly removed. In February, 1857, he pronounced me cured, and I left for h me. In April the disease again returned, and so riolent was the pain that I could not rest at night! Late in May I returned to Cincinnati, and again placed myself under the charge of Dr. Newton, with whom I remained until September during which time he used every known remedy, and partly succeeded in checking the disease, Sworn statement of David M'Creary, of Napier Town. ship, Bedford county:

th, that other taled size the count of him and his people in our Pamphlets and Almanacs—to be had gratis, from the Agonts for these Pills.

The inventor and manufacturer of "Judson's Mountain Rierb Pills," has spont the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "Mountain Rier Pills" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from IMPURE BLOOD!

The blood is the life! and when any foreign er un healthy matter gets mixed with it, it is all at eace distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain.—The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feebble. The lungs become clogged with the poisoneas matter; hence, a cough—and all from a slight impurity at the fountain-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whele course of the stream becomes disturbed and discolored. As quickly does impure blood by to every part, and As quickly does impure blood by to every part, and As quickly does impure blood by to every part, and As quickly does impure blood by to every part, and all the secretions of the body, the blood, but regenerate all the secretions of the body the bilden seed; of discoses, and renders all the fluids and secretions pure and finent, clearing and resuscitating the vital organs.
