LARORING-MEN REFLECT. The people should bear in mind, that, no matter how much the opposition may shriek about Kansas, slavery, free territory, and homes for freedem and free labor, that in the end the question of slavery must be left to the people of each State to determine for themselves. No matter whether it is the slavery of the slave states at present, or the slavery of the states to be-we cannot give shape to the institution by national legislation or national political campaigns, but in the end the people of will decide the matter for themselves. The Democrats elected their candidate for Mayor, HARMANUS M. WELOH, Esq., by about one thousand majority; and the other city officers by about the same figures. The Aldermen and Councilmen are elected by wards, and these were so gerrymandered by a Republican Legislature, as to render it impossible for the Democrats to

The information that the Cou rier "is in favor of overland route mail service to California," is from the Courier itself of the 31st May .-In its Washington Correspondence is the following:

"The Senate has deferred the subject of the overland mail to the Pacific till these resolutions of Senator Davis can all be disposed of. The House bill, post office committee, and the amendment proposed by Mr. Hale, all look to the same volject—the substitution of overland semi-weekly mail service between the Pacific and the Mississippi for ocean and isthmian service. It is reported as a practical measure of much imporsprint decan and statistics of much impor-tance. It is an established fact that the mail service can be performed with more expedition and economy by an overland than by the ocea-

"CLOSING SCENES AT CHICAGO .- A Lincoln thus recalled to temporal things he glared scornfully at the servant and roared out, "Go to the devil—what do I want to eat for? Abe Lincoln is nominated, and I am going to live on air—the air of Liberty." But in a moment he inquired for the bill of fare, and then ordered "a great deal of everything"—saying if he must eat he might as well eat "the whole bill." He swore he felt as if he could "devour and digest an Illinois prairie." And this was one of thousands."

That fellow was evidently drunk, and if there were "thousands" such, they were all drunk.

EXTRAORDINARY IRISH EXODUS FROM \$80,000, with only the carriage of Mersey.—The Liverpool Post says the extraordinary emigration at present going forward to the United States, direct from all the ports of the sister isle, has excited the attention and alarm of Irish politicians and journalists. A visit to the Liverpool docks during the past few weeks, and to the different emigration offices along Waterloo and Regent roads, would not lead in any degree to diminish the feeling of alarm, as at no period for many years past, has the emigration in the United States; indeed, some of the leading emigration houses state that the trade has not been so brisk since 1837. The Pequea Silver Mines of Lancaster County.

Lancaster Express says the mines, or rather the quarries, include two large, and splendid farms. Although there are many subterranean workings, over the hills like a locomotive under an attack Although there are many, su bierranean workings, over the hills like a locomotive under an attack (some of them begun by English miners in the year 1736,) the ore is now obtained entirely in disappointed. I have met with many who were paid by the lime, leaving the ore, whatever it may be, as a clear profit. Theore is worth from \$500 to \$700 per ton, and it appears that every man engaged in quarrying limestone will average about 20 pounds of the ore per day. When the kilns are erected, from two to four hundred are not be completed in grant with the state of the ore per day. men can be employed in quarrying lime, all of "I will put Lincoln's majority at 70,000," said which would find a ready market if sold at the actual cost of production, thereby indusing several hundred lime-kilns now in operation, within a radius of seven or eight miles, to relinquish the business. The mine or quarries wil thus become a vast depot for the production of the unrivalled Pequen lime, now readily commanding from 10 to 15 cents per bushels. Supposing the lime, therefore, to pay the cost of the quarrying, the amount of ore obtained by 200 men, in open quarry, (each average 20 pounds per day,) would be 600 tons per year. The value of the ore, computed at \$500 per ton, would present the amazing aggregate of three hundred thousand dollars

It was proposed to work this mine some six year ago, when John Tucker and R. D. Cullen, of Philadelphia, were the principal proprietors; but owing to personal embarrassment and the pressure of the times, it was delayed until the since 1837. During the present month the exodus from the Mersey to the United States in passenger ship has been about 9,000 steerage passengers, being an average of 3,000 weekly, and the number exhibits no apparent signs of decrease. HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS. TETTER S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its officacy in all cases of stomachic derangements

officacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters, have proved

a Godsend to regions where fever and ague and various other bilions complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system. giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find

in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste a well as certain to give a permanent increase

of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoes, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary convention and nursing mothers will convention and nursing mothers will convention. superannuated invalue, Persons of secentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitation

feits, but ask for HOSTETTER'S CELEBRATED STORAGE BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the
