Every contested seat vet tried by the U.S. House of Representatives this session has been awarded to the Republican contestant. There is such a disgraceful party spirit manifested by the members of that party, in utter disregard of the merits of the cases before them, that the Demoto obtain their rights, in a measure quietly submit to the outrages, and permit their opponents to have the length of "the ropes," confident that they will yet hang themselves. Last week, when Barret's case, (1st Congressional district of Missouri,) was decided in favor of Blair, the contessign, so that the matter can again be this to be the fact. Courier. submitted to the people. Although he was the contestant, and obtained the seat, he felt that he was not legally entitled to it, and pursues a course have votes to cast for the candidates which is of some credit to him.

How IT WAS DONE .- It is true that only forty members of the House of Representatives voted against the report of the Judiciary Committee, to whom was referred the protest of Mr. underground railroad operations, as Buchanan, but in the first place it is of no avail for the Democracy to re! sist the high handed outrages of the opposition, and secondly, some of the in aiding the escape of a slave from opposition pared off with Democrats and then sneaked in and voted never joy by the orators and speakers of theless. One such was Mr. Junkin, of Pennsylvania. When the vote was there is no spread in them. The President knew nothing at all of the matter and instead of an attempt being made to bribe Mr. Forney, his friends attempted to extort a bribe from Messes. HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give too efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of frumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague; and various stother billious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspeysia and like diseases. If to the improvements a course of the basing or the diseases.

It operates upon the stomach, lives, and soon restores them mildy but powerfully, and soon restores them to a condition essential to the healthy dispharge of the functions of nature.

to a condition essential to the healthy dispharge of the functions of nature.

Elderly persons may use the Bitters daily as per-directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach depreparation while suffering from stomach de preparation while suffering from stomach userangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is seen about the second control of the second child is seen and child is s and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mindis generally aggravated. Here, then, is a necessity for a stimulant to recuperate them, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorations that receive the endorsement of invisions. tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase
