MOST EATRAGREENARY HOAX

The Manchester (England; Guardi an, has the following account of an extracrdinary honx at Warrington Lancashire : On Saturday, a hoax of the most extradinary and impudent kind was played off at Warrington. It appears that some waggish indivi-* dual, at present unknown, last week addressed letters to various gentlemen and traders in the town, dating from the Rectory, and purporting to be signed by the Rector, the Rev. W. Quekett, giving invitations and orders to an almost incredible amount. On Saturday morning about 11 o'clock, that end of Church street that fronts the Rectory presented a curious aspect. Crowds of people had gathered, and were watching the fun as butchers and sweeps and bakers made their appearance at the house of the Rector. Mr. Quekett, as may well be imagined, was nigh frantic at seeing the numerous articles that were be ing deposited at his door ; and it real. ly was no joke to be presented by seven carters, each of whom had brought a load of coal, and determined not to be gammoned into taking it back. Nor was it all a laughing matter to be troubled with sweeps, butchers and doctors, all seeking an PARTICULAR ATTENTION rentree. While a squabble was going on between the coal-carters and do-mestics, up drove two empty carts, the drivers having orders, as they said to take the Rector's luggage down to the railway station; and confusion PARTICULAR ATTENTION Is called to our style of Eugines, which for economy of real, smooth and effective working econot be excelled. The bewildered servants astonished "chips" by telling him "he'd better ask the master himself," and

tonished "chips" by telling him "he'd better ask the master himself," and feeling himself "done" he walked off amid the derisive cheers from the people outside. The joiner had bare-ly left the door when four sweeps imade their appearance, oyeing each other askance, as they "thought queer four of us should be chaw'd to sweep one chimney." They were undeceived at last, but not without some difficulty, and the disputation had scarcely closed be-tween them and the Rector's servants, when the Mayor's carriage was an nounced, and out stepped the Chief magistrate, expecting to take lunch-eon with his reverend friend. A few words sufficed to show His Worship how matters stood, and he was pre-paring to leave, when two celebrated "members of the medical fraternity made their appearance. Pethaps they were sent for to prepare the Rector's door, and sup-plemented by a lad with a hand carit full of ourrent brend, which had been plemented by a lad with a hand cart full of current bread, which had been prepared for some party that was to take place. Explanations onsued, but a barber who had come to shave the Rector would not believe the news, and he had to he told to depart. Af and he had to be told to depart. After the solids came the liquors. CURE FOR CANCER.

Mr. Thomas Anderton gives the fol lowing recipe for cancer, which, he says, has been of great service in several-dangerous cases : "Boil fine Turkey figs in new milk, which they will thicken; when the are tender, split and apply them as warm as they can be borne to the part affected, whether broken or not; the part must be washed every time the poultice is changed with some of the milk ; use a poultice night and morning, and at least once during the day, and drink a quarter of a pint of this milk the figs are boiled in twice in twenty. four hours. If the stomach will bear it this must be persevered in for three or four months at least. A man aged 105 was cured about six years before his death, with only six pounds of figs .---The cancer which began at the corner of his mouth, had 'eaten through his jaw, cheek, and half way down his throat; yet he was so perfectly cured as never to show any tendency to return. Should it ever do so, the figs should be again applied. The first application gives a great deal of pain, but afterwards each dressing gives relief. A woman cured by this remedy had be afflicted ten years; her breasts bled excessively; ten pounds cured her."

GABIBALDI'S EXTRACTION .- A Lim. erick paper says that Garibaldi is of Irish extraction, and that his grandfather was engaged in the troubles of 1798. and emigranted to Italy. His name was Garret Baldwin-changed to Garibaldi-and his residence was on the borders of the county of Limerick, hut in the county of Cork. Of what nation would he be, should he prove unsuccessful ?
