AN INGENIOUS MECHANIC .-- Mr. Carrol Over, a young man running the engine at Warser & Gettle's Planing Mill, is making during his leisure moments, a complete Locomotive of near one-horse power. He makes all the patterns and does all the work of every particular himwelf. It is now approaching completion, and already appears a specimen of handiwork of that obaracter. Mr. O. would be a prize in any of the large machine shops of the country, as it is not lings of the last six months. often that the mechanic can be found who is acqualified with all the details of so intricate a piece of machinery as a locomotive, and who at the same time is a practical workman.

The Sunday Schools of our borough took the lead, as usual, in celebrating the 4th. The proceedings were not varied from the waval programme. No accident of any consequence occurred during the day, with the exception of a very severe bruise received on the breast by Mr. D. M. Karmany from the shaft of a carrlage. The horse hitched to the vehicle became fractious, and in the excitement Mr. Karmany was struck. His injury was at one time considered quite dangerous, but he has again fully recovered. The accident occurred at the Zion's Lutheran celebration.

Scare of the Young America portion of the 'community commenced the celebration quite early in the morning, in fact took the night to it, so as to be able, we presame, to make a full day of is Owing to exhaustion, however, and a slight stilligion of bad whisky, they ran patriotism into wad long before the day was over, and vothe gro ted their programme a bore and prolific of head-Aches.

About 4 o'clock the bells commenced to ring, which, with some fine martial music wake up our ditisens, including all the babies, to usher in the With at its earliest dawn.

During the day the Washington Artillery also paraded, but the fantasticals, thinking probably that the proceedings of the night before had been fantastical enough, were non est inventus,-that is, in dutch, did not oum.s.rouse.

In the graning everybody complained of being 'tired, and bat faw were bold enough to essent that they had any real pleasure during the day. Parents had their hands full in providing for and taking care of the young, who in their turn were run out of breath in pursuit of fun, which, in addition to an over abundance of cakes and lemonade, made cases of nightmare quite plentiful .--Considerable money is expended in this place for the celebration of the 4th, but we are strongly Inclined to believe that the same money, if properly applied, would yield a far greater amount of pleasure to a much greater number than has been the ene of late years. At some of the Sunday Belloot celebrations the young enjoyed themselves very well, but all the others were rather bored than mything else, while, at other schools neithor the young nor the old could extract pleasure mailon: A good deal of our 4th of July

SOMETHING NEW.

Our people were thrown into an unusual state of excitement last evening by a large crowd in ront of Stine's New Building. Pushing our way through the large crowd to the inside, we found the cause to be the arrival of CHEAP JOHN, Philadelphia. We never witnessed such arcitement. Some were laughing, some wondering, and everybody exclaiming, "how, can he sell to cheap?" Amidst the uproar we could hear Chesp John crying out, "sold again," and anoth-or man made happy. We advise all who want good fun and cheap goods to give John a call.

Cure for Hydroph obia.—As the wirm weather comes on apace, bringing visions of dog days, driving some of our citizens to the abandantuse of strychnine, in the killing off the canine breed, on the principle, we suppose, that in onnee of prevention is worth a pound of ours, it was the calebrated receipt of Dr. Stoy, for yur readers the celebrated receipt of Dr. Stoy, for the bits of s mad dog, said to be very efficielate: "A Take one office of Red Chick weed, and put it in a clean, earthen pot; pour on it a quart of beer; place the pot over a genule coalfre, and boil it until it. is school to half; strain it hot from the pot through a clean linen cloth in to a pewter dish, and then, while still hot in the dish, add an ounce of Theriac and still hot in the dish, add an ounce of Theriac and still it well, until it is thor-oughly mixed. Give a patient a dose luke-warm in the morning; after this he must fast at least three hours, and during that time drink no cold water, and must take care not to eat any pork, nor any thing which has any connection with pork; for fourteen days the patient mest not partake of any animal food, not even of the fish Kennel. This is the does for a grown person. To children 12 years give the half and so in proportion to the age. To animala give double the proportion to the age. To animale give double the proportion, with the water as above mentioned to be observed. N. B.—You must cut the weeds in June, when it is in blossom, and ardity, it in the shade.
