It is easier to gain credit for goodness by a glistening eye, while listening to some story of self-sacrifice, than by patient usefulness. It is easier to get credit for spirituality by thrilling at some impassioned speech on the platform or sermon from the pulpit, than by living a life of justice, mercy and truth.

High breeding gracefully insists on its own rights; good breeding grace-Mily remembers the rights of others. We have all seen that dignified courtesy, which belongs to high birth, which never offends as long as it is not personally harmed. But we know that that will not last: provocation makes it as bitter and vulgar as the breeding of the most uncultured clodhopper. Far far above this, is the polish which the highest Christianity gives to the heart. It is not "gentil. ity," but gentleness.

There is a mistake made by those who demand the love of God from a child. The time does come when the love of the earthly parent is felt to be second to the love of the Heaven-lay Father; but this is not the first, "for that is not first, which is spiritful but that is not first, which is spiritful but a selector."

The Persian Fever Charm. The Persian Fever Charm.

The Persian Fever Charm.

The Persian Fever Charm.

This wonderful remedy was brought to the knowledge of the present proprietors by a friend who has been a great traveler in Persta and the floly Land.

While going down the fiver Euphrates, he experienced before attack of Fever kind Ague. On discovering his condition, one of the Boathen took from his person an Annulet, saying, "Wear this and no Fever will track-you." Although incredulous as to its virtues, he complied, and experienced immediate relief, and has since always found it an effectual protection from all malarious complaints.

On further livestigation he found that the boatman attributed to it miraculous powers, and said that it could only be obtained from the Priests of the Sun.—Sometime afterwards, the gontleman in conversing with a Priest ob tained from him the secretof its preparation, and ascertained where the medicinal herbs were found of which it was compounded. The winderful virtues of this article have induced a full belief in the minds of the Matives in the miraculous hearing powers of their Priests,

JUDSON'S Mountain Herb Pills.

A BOVE, we present you with a perfect likeness of A Tezuco, a chief of a tribe of the strange Aztec Natin, that once ruled Mexico. You will find a full account of him and his people in our Pamphlets and Almanacs—to be had gratis, from the Agents for these Pills.

The inventor and manufacturer of "Judson's Mountain Herb Pills," has spont the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains and of Mexico, and it was thus that the "Mountains and of Mexico, and it was thus that the "Mountains and of Mexico, and it was thus that the "Mountain Hann Pills" were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all discases arise from IMPURE BLOOD!

IMPURE BLOOD!

The blood is the lifel and when any foreign or un healthy matter gets mixed with it, it is all at once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain.—
The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weatened, and so, the circulation is feele. The lungs become clopged with the poisonous matter; hence, a cough—and all from a slight inpurity at the tountain-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivulet, in a few minutes the whole course of the eitern becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon lies out.

These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivailed as a

GREAT FEMALE MEDICINE! Females who value health, should never be without these Pills. They purify the blood, remove obstructions of all kinds, cleause the skin of all pimples and blotches, and Time the rich color of health to the pale cheek.

33 The Plants and Herbs of which these Pills are made, were discovered in a very surprising way among the Texucane, a tribe of Aberigines in Mexico. Get the Almanac of our Agent, and you will read with delight, the very interesting account it contains of the "Circar Medicar" of the Aztecs.

OBSERVE—The Mountain Herb Pills are put up in a Beautiful Wrapper. Each box contains 40 pills, and Retail at 25 cents, per box. All genuine, have the signature of B. L. JUDSON, & CO., on each box.

DR MOTT'S CHALY BEATE RATIVE

An aperient and Stomachic preparation of IRON purified of Oxygen and Carborn by combustion in Hydregen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice. both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxions in all maladies in which it has been tried, it has proved absolutely curative in each of the following compliants, viz:

In Debility, Nervous Affectlens, Emaciation, Dyspepsia, Constipation, Diarrhoza, Dysentery, Incipient Consumption, Scrothlous, Tubergulosis, Salt Rheum. Mismenstruation, Whites, Chlorosis,

Lo., &c.
In cases of GENERAL DEBILITY, whether the result dec., &c.

In cases of GENERAL DEBLITY, whether the result of scute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own right phorhood, have suddedly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferors, emacated victims of apparent marasmas, sanguiagous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERVOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unflict the old oxides, it is vigorously tonic, without being exciting and over-heating; and gently regularly aperiant, even in the most obstinate cases of eastiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and apecific action, by dispersing the local tendency which forms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeste Pills has often sufficed for the most habitual cases, including the attendent Costineness.

In unchecked DIARRHEMA, even when advanced to

les.
In INTERMITTENT FEVERS it must necessarily be In INTERMITTENT FEVERS it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

In the local poins, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has alwayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In SCROKULOUS TUBERCOLOSIS, this medicated iron has had far more than the good effect of the most cauliously balanced proparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarily affecting them.
