RULES OF HEALTH.

Imprimis: never go to bed with your feet sticking out of the window particularly when it is raining or

freezing.
More than three pig's feet and half a mince pie, eaten at midnight, will not generally cause the consumer to dream of houris, paradises, accommodating bankers, and other good things At least they are not apt to do so. Never stand in the rain barrel all

night. It checks perspiration, and spoils rain water for washing purposes. Never spank your children with a hand saw or box their ears with the sharp edge of a hatchet. It is apt to affect the brains.

Never stand in the hall with the door open with nothing but your he-mise or she mise on, talking to a friend, more than half an hour at a time. To enlarge the muscles of the arms

and legs, climbing up and down the chimney, (especially if the house is a four story one,) three or four times before breakfast, is a cheap exercise, and gives a voracious appetite. Corns may be easily cured. The

most torturing corn can at once be extirpated, as follows: take a sharp knife, find the joint of the toe whereon the corn resides, insert the knife in the articulation, pry off the toe and throw it away: it will never return again; unless your dog brings it back to you in his mouth. [Patent applied for.]

The habit of drinking can be cured, by giving the drinker all the liquors he wants to drink all the time! We know of two, in our own experience, who were cured in three weeks. One jumped out of a four-story window, and ran a curb stone into his head; the other didn't get up one morning; and has a universal curb stone growing out of his head in the grave yard.

The best way to take pills of Brandreth's description, if you have twenty or twenty five to take, is, not to make them into hash and eat them, but to load a shet-gun with them, put the muzzle against your stomach, and pull the trigger with your toe. It saves a great deal of disgust to the gullet, and a bad taste in your mouth. Never go to sleep standing on your head. The brain might take a notion to run down, and what would you do, on waking, to find all your

brains in your head? Never shave your whiskers with a hatchet. The best method of trimming is to pass a red-hot iron gently over them. The operation smoothes them regularly, giving the end of each hair a smooth, crispy appearance.

At Tower's Mill, in Lanesborough, Mass., on Tuesday, a young man, named Jerry Swan, was caught by the arm in some machinery, and the limb was so badly broken and mangled that immediate amputation was necessary. This was successfully performed, but, according to the Pittsfield Eagle, Mr. Swan's connec-Pittsfield Eagle, Mr. Swan's connection with the dissevered limb did not come with the operation. The Eagle says: On recovering from the stupor produced by the use of chloroform, Mr. Swan still complained sorely of an aching head. Late in the evening his distress became very great, ing his distress became very great, and he insisted that the hand was cramped by being doubled up. The

names he remembered to have taken. spoke about the weather, etc., but the honest old farmer seemed to grow more embarrassed. At length the visitor blarted out, "My old woman sent me down to tell you to come and take the census over again -she's got another one,"-Cleveland Dem.

Many years since, a prominent member of an old Presbyterian Church, at Salem, gave a clock to the society, to be put up on the gallery, fronting the minister. Upon the dial of the clock was this classic motto—"Sie Transit Vitæ." The good donor, after learning himself from a man of letters and languages the interpretation of this sentence, gave Church, at Salem, gave a clock to verbal orders to a painter for him to ietter the translation upon a panel, or seroll, and affix it beneath the clock. But what was the astonishment of the congregation, the next Sunday, to see, instead of the insignificant words, "So passes life," which the clock donor spoke hurriedly, when he gave the artist the order rendered and emblazoned in large capitals thus -"Soap. Asses. Life!"

AND BILLIOUS FEVERS. This wonderful remedy was brought to the knowledge of the present propriteers by a friend who has been a great traveler in Persia and the Holy Land.

While going down the river Euphrates, he experienced a sever attack of Fever and Ague. On discovering
his condition, one of the Boutmen took from his person
an Anulet: saying, "Wear this and no Peter will
touch you." Although incredulous as to its virtues, he
compiled, and experienced immediate relief, and has
since always found it an effectual protection from all
malarious complaints.

On further investigation he found that the boatman
attributed to it miraculous powers; and said that it
could only be obtained from the Priests of the Sun.

this article have induced a full belief in the minds of
the natives in the miraculous healing powers of their

Since his return to America, it has been tried, with
the happest effect by several Ladies and Clentlemen of
high character, who have given it the most unqualified
praise. This remedy having been a specific in Persia for
hundreds of years, for the prevention and cure of Fever and Ague and tiillious Fevers—is now offered to the

It is an established met, that are diseases arise from INPURE BLOOD!

The blood is the life and when any foreign or un healthy matter gets mixed with it, it is all at once distributed to every organ of the body. Every nerve feels the poiscu, and all the vital organs quickly complain.—The stomach will not diggest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feels. The lungs become clogged with the possenous matter; honce, a cough—and all from a slight impurity at the toutain-head of life—the Blood! As it you had thrown some earth, for instance, in a pure spring from which rear a tiny rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. rane ran a my rivulet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does inpure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life so in dies out.

These pills not only purify the blood, but regenerate all the scretions of the body; they are, therefore, unrivalled as a

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL,

and why? because it never fails to afford instantaneous relief when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true. It contains NO PAREGORIC OR OPIATE
of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening its sensibilities. For this reason, it commends itself as the only reliable preparation now known for CHILDREN TEWTITING, DIARRHEA, DYSERTERY, GRIPING IN THE ROWELS, ACIDITY OF THE STOMACH, WIND, COLD IN THE HEAD, and CROUP, also, for softening the gums, reducing inflamation, regulating the Bowels, and relieving pain, is has no equal—being an anti-spasmodic it is used with unfailing success in all cases of CONVULSION OR OTHER, FITS. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which all other remedies for Infantile Complaints are composed, take none but DR.
