About the middle of August we denied a paragraph, going the rounds of the papers, and which had originated in the Courier, that the population of Lebanon had decreased within the past year probably a thousand or upwards. Our neighbor, in pursuance of his poliof charging falsehoods and misrepresentations upon us for the purpose of covering up his own deceptions and inconsistencies, insisted upon the correctness of the assertions and gave sev on the correctness of the assertions and gave several fastanges where a less number of hands were applyed than before, and charging it to the want of a protective tariff, &c. Considerable excitement has exist ed during the past two weeks in Jonestown and vicinity, on account of a most extraordinary rapping produced on doors, windows, cupboards, partitions, &c. The noise is produced through the medium of a girl about 13 years of age, named Mary Moyer, who has acted in the espacity of house girl in the family of a gentleman of that place. On Saturday evening we were present where the rapping was produced, and were greatly astonished at the force of the blows and their frequency. They were produced near the girl, but apparently, and in spite of our closest sorutiny, not by her physically. Not believing in anything supernatural, such as ghosts, witchcraft or spiritualism, we could not account for the raps .- rather, tremendous knocks-on any other hypothesis save that of electricity. If not deceivthe sunday question. I accepted the invitation, and I can say, that the meeting was a perfect succeed to graph of the result of discharges from her over-filled body of electricity. Not being thoroughly convinced in relation to what we had heard and seen, we raid another visit to the girl, in company ed by the girl-and the deception in itself would with a number of gentlemen from Lebanon, at the residence of her father, about a mile from Jonestown, on Monday evening. A large number of persons from Jonestown and vicinity were already present when we arrived. We waited patiently—some impatiently—all evening for the expected raps, but none were given. Table turning, table moving, and spirit interrogation was then tried, and resulted successfully to the minds and eyes of some, while others contended that the whole matter was imposition. The absence of "knocks," if they are not produced physacquiry by the girl-and we do not yet believe that they are, was no doubt occasioned by the many persons present, who absorbed or neutralized the electricity... There are two violent parties in relation to the matter. One believes that the whole proceeding is imposition or deception, while the other, mostly made up of persons who have been present and heard the knocks, believe them to be genuine as represented, and not produced by the physical agency of the girl, but in some other strange and unaccountable manner. At first the knocks were only in the evening, but since Briday last they are also in the day time, and ascompany the girl wherever she goes. It is a mysterious matter as yet, and with its two parties of extremes, one believing in its genuine-

Tuesday Morning.—After considerable discussion, continued from the previous day, a compromise resolution was adopted by a vote of 39 against 25, in which Synod says, that she cannot see how she can dispense with the services of Dr. Schaff, yet will not lay insurmountable obstacles in his way, in case, he should, after a prayerful consideration, feel it his duty to leave; but with the express understanding, that his absence from the seminatry shall not be more than 18 months. JUDSON'S MOUNTAIN HERB PILLS. HORON S. MOUNTAIN, TERRE FILLS.—
How strange and wonderful it often seems to us that a
medicine composed of simple mountain berbs and roots,
should so certainly search out; and cure disease. How
surprising that the Indians should know and preserve so
long and well a secret that has escaped the search of the
greatest physicians the world has ever seen. Trut the aucient inhabitants of Mexico were a strange race found
by the Spaniards living in large cities; and allowing for
their strange customs and religion as well-civilized as
their conquerors. In the words of a writer a some celebritheir conquerors. In the words of a writer a some electric, "They have perished from the earth their cities are gigantic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicae alone are left," The united testimony of all intelligent persons is, that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicines in the world in curing disease. Judson's Mountain Herb Pills are old by all Medicine Dealers Dr. Geo. Ross

DR. BRONSON'S BLOOD FOOD. The demand for this unrivalled Preparation is beyond the possibility of a doubt, and its sale is becoming as large as that of any other article now before the public. Tons of thousands of persons who were sufferers are now seen daily walking the streets of all the principal cities of the Union, and by their influence spreading the fame of "Dr. Bronson's Bloop Frobo" throughout the civilised world. But the trial of one bottle is more convincing than all we could say in a whole newspaper column. It gives life, health, and beauty to the sick, and restores, as if by magic, these who were supposed to be irrecoverably lost. We need only say, try it.

We would also call the attention of Mothers to Dr. Earon's Inflant Connial. This is said to be superior to any article of the kind now known. If your anxious hearts are pained by witnessing the sufferings of your little ones, loss no time in procuring a bottle. It is an invaluable specific for infinite teething, softening their gams, and allaying all fever and irritation. By all means get the Cordial, relieve the sufferings of your religion, and elloying all fever and irritation. By all means get the Cordial; relieve the sufferings of your religion, and enjoy unbroken, your own repose, —Advertiser & Furmer, Budgeport, Ot. 100. Second. DR. BRONSON'S BLOOD FOOD.-The
