and tempting in that capital. At one of these establishments, in the rue st. Hon ore, a gentleman was engaged, a few days ago, in examining an ancient ring for sale there, when he accidentally gave himself a slight scratch in the hand with a sharp part of it.— He continued talking with the dealer for a short time, when he felt an indescribable numbness and torpor taking possession of him, and paralyzing all his faculties, and soon became so ill that the people of the shop hastened to call in a physician. The doctor immediately declared that the gentleman had been poisoned by some powerful mineral substance, applied strong antidotes and was fortunate enough to relieve the symptoms which had created so much alarm. The ring was then examined by the medical man, who had spent some time in Venice, and who found that this old jewel was what is there called a Death-ring," a class of ornaments in frequent use in Italy during the 17th century, when the habit of poisoning was all'but universal. Attached to the part of the ring intended to be worn inside the finger are two mi-nutellon's claws, of the sharpest steel, and having clefts in them filled with a violent poison. In a ball, or other crowded assembly, the wearer of this fatal ring, wishing to exercise revenge on any one present; would take the victim's hand, and when pressing it ever so gently, the sharp claw would be sure to inflict a slight scratch on the skin, and the victim would be equally sure to be dead before the next morning. Notwithstanding the length of time which must have clapsed since the poison was secreted in the ring in question, it was still powerful enough to cause great danger, as has been seen, to the gentleman who had so unwarily touched it.

A bachelor, writing us from the interior of California, says that although young women from this side of the Continent often arrive unmaron the California recent thay of the Continent often arrive unmarried on the California coast, they never get in that condition to the interior. He says that, like misfortunes they "never come single."

-Pronounced Snop.—The question, "what is a snob," is likely to be satisfactorily answered through the discussion now being carried on among the military and hotel keepers 1. Money i received every day, and in any amount, large or small. among the military and hotel keepers in New York. It appears that Gov. Morgan, having invited one of his staff, who also kept a hotel, to the Prince of Wales dinner, reculled the invitation, because he was assured it was not eliquette for a prince to dine at the same table with a hotel keeper. The military and the gentleman who keeps a hotel have voted the Governor a "snob," and remind him that he, as a grocer and vender of molasses and nutmegs, had not any great advantage over a hotel keeper. The insulted Boniface has resigned his military commission.

D MOTT'S CHALY BEATE RATIVE

both in Europe and the United States, and present their practice.

The experience of thousands dolly proves that no preparation of Iron cast be complied with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, vistin Debility, Nervous Affections, Emaciation, Distributes, Dysentery, Dyspepsia, Constination, Dimerica, Dysentery, Incipient Consumption, Screfulous, Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumstism, Intermittent Fevers, Pimples on the Face, &c.

tism, Intermittent Fevers, Pimples on the Face, &c., &c.
In cases of GENERAL DEBILITY, whether the result of neute disease ovor the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restinative has proved successful to an extent which no description nor written aftestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhood, have suddedly teaspeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female Sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion viritical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In NERYOUS AFFECTIONS of all kinds, and for reasons familiar to medical men, the operation of this prepparation of iron must necessarily be salutary, for unlike the old oxides, it is riginally tonic, without being axciting and over-heading; and gently regularly aperion, even in the most obstinate cases of costineness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Pries, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In DYSEPSIA, innumerable as are its cayes, a sin-

torms them.

In DYSPEPSIA, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Confront

ness.
In unchecked DIARRHEEA, even when advanced to
DYSENTERY, condensed, emaciating, and deparently
malignant, the effects have been equally decisive and tonishing. In the local pains, loss of flesh and strongth, debilita-In the local psins, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate INCIPIENT CONSUMPTION, this remedy has allayed the alarm of friends and physicians, in. several very gratifying and interesting justances.

In SCRORULOUS TUREICILOSIS, this medicated iron has had far more than the good effect of the most cautiously belanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them?

In RHEUMATISM, both chibnic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain, and reducing the swellings and stiffness of the joints and muscles.

ios.
In INTERMITTENT FEVERS it must necessarily be a great femedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion with exerting the month, with an unusual

tion, ripid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per hox; for sale by Drugglist, and dealers. Will be sent free to any address on receipt of the price. All letters orders, ect., should be addressed to R. B. LOCKE & Co., General Agents, 339 BROADWAY, N. Y. April 11, 1860.—1y.

JUDSON'S ... Mountain Herb Pills.

Mountain Herb Pills.

A Bove, we present you with a perfect likeness of A Tezuco, a chief of a tribe of the strange Axtee Nati n, that once ruled Mexico. You will find a full account of him and his people in our Pamphlets and Almanacs—to be had gratis, from the Agents for these Pills.

The inventor and manufacturer of "Judson's Mountain Herb Pills," has spont the greater part of his life in traveling, having visited nearly every country in the world. He spent over six years among the Indians of the Rocky Mountains, and of Mexico, and it was thus that the "Mourtain Ment Pills." were discovered. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that all diseases arise from IMPURE BLOOD!

The blood is the Rici and when any foreign or un healthy master gets nixed with it, it is all at once distributed to every organ of the body. Every nerver facils the poisen, and all the vital-organs quickly complain.—The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, shid so the circulation is feeble. The lungs become clogged with the poisonous matter; hence a cough—and all from a slight impurity at the fountain-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, from which ran a tiny rivillet, in a few minutes the whole course of the stream becomes disturbed and discolored. As quickly does impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all the secretions of the body; they are, therefore, unrivilled as a ... CURH_FOR BILIOUS DISEASES, ... Liver Complaint, Stightlesdache, &c. This Anta-Bilious Medicine expels from the blood the hidden seeds of dis-CURR. FOR BITTOUS DISEASES.

through the blood and fluids of the bedy, and cause the
sufferer to brighten with the flush of beauty and health.
