Dr. William Bower, of Myerstown, died vor Mauddenly of apoplexy, on Wednesday of last week aged 48 years. Dr. Bower was born in Myerstown. Lebanon county, on the 6th day of November, 1817. He was a son of Dr. Henry Rower. He commenced the practice of medicine soon after the death of his father, and practiced un to the time of his death. In the Fall of 1857 he had a paralytic attack, which disabled him to some extent. The Dr. was highly respected by all who knew him, and as a physican had a very extensive practice, in which he was always kind to the moor. He leaves a wife and seven children to mount the sudden demise of an affectionate halband and kind father.

Mr. Idoob Miller, a respectance farmer of Rest Hanover township, was found dead in his bed, on Tuesday morning last. He was quite all when he retired on the previous evening. He ago was 68 years.

County Superintendents of Common Schools are required to embrace hereafter on their reports to the Department, the number of District Examinations of Teachers and whole number examined, in the preceding month; number of schools visited and average duration of each visit, in the month; number of Institutes, Drille or meetings attended, and whole time thus spent in the month; whole number of days de-Voted to official duty in the month; whole numher of miles traveled in the discharged of official duly; greatest difficulty encountered in the dis-Sharge of official duty; new measures adopted, if any, to improve the schools and working of the office; institutes or county educational meetings to be held in next month, with particular statement of time and place, and if possible sprinted copy of the notice.

For the benefit of Republican "patriots" in this section, who will condescend to accept office from the hand of "old Abe," we would state that there are 184 offices connected with the Philadelphia Custom House, the salaries of which range from \$6,264 99 down to \$540. Said offices can be had merely for the asking; in fact, somebody must have them; it being unlawful to leave them unfilled; and, moreover, the salary would, in such a case, revert to government and become the Five members by Charles the First; Iron-useless—perhaps! As the country is entitled to a sides and Wooden Walls; Competitive Examinashare of city spells, it is hoped that there will be no backwardness on the part of Republican "patricitation the country in freely presenting their petitions. The idea that all the city offices are the Law monopolized by the city folks, in a wrong that the distance of the stomach. It was discovered by a regular physician, after years of research. The Drawing of the "Enterprize" by the North Lebanon Band, took place on Thursday last, at Mrs. Rise's Hotel. The first prize, a Gold Hunting Case Watch, was won by Henry De Pox; of N. Lebanon tp:, and the 2d prize, an open face Gold Watch, was drawn by Jacob Keller, also of K. Lejanga jp.

A Mes Shrader's second Concert on Thursday evening, was not quite as successful as the first. An unusual amount of amusement was again afforded.

Many of our providings and busi-

ness men closed up centirely on Thanksgiving Day, while others only kept the shutters shut.-Why not keep open entirely, or shut up fair and square. The day was a fine and quiet one. There was preaching in most of our churches, and the day had much the appearance of Sunday. .

We hear frequently complaints from Teachers that parents do not visit the schools .-There is no doubt an almost criminal neglect in this matter. It would be a source of encouragement and delight to teachers, as well as to scholars, to have every now and then some one come in, sit down, and list the exercises, as well as to say occasionally a few words tending to incite to perse france, application, and good conduct. The calbers of many districts seem to think, too, the Directors visits are not what the law designs them to be. They arrange so as to fulfil the requirements of the law regarding visits, and to do so economically in point of time, they task themselves to the visit of a certain number of schools in half-a-day. They come in a line, i have no time to sit down; see if any window places are broke, or other wear and tearbout the school room, and off they go to the next school to fulfil the allotted task of half a day's work. That's not visiting schools; its calling in to see the school room ! There is a certain class of citizens, independent of parents, whose countenances teachers should like to see frequently in the school room, but their absence is more noted than their presence. We mean clergymen, attorneys, physicians, and intelligent gentlemen of leisure. Such who have spare time on their hands, could not well apply some of it to a better advantage. And most of all, the Ladies! Their countenances are never seen inside of our school rooms at all, unless it be as teacher or scholar.— Se far as our town is concerned we are confident that dozens and dozens might very easily find time to visit our schools frequently, without any inconveniences or loss of time. It is true, the approaches to our schools are difficult in some respects to Ladies, but a brave heart and smiling face would overcome all trifling obstacles in the alleys on which some of our schools are located. We carpestly hope there may be a change in this matter of school visitations, and that it may soon become a pleasure, as it is a duty, to parents and all others—male and female. Recently, a teacher, in complainining of this neglect, very truly remarked: "How can Directors or others know what kind of a school I have; and whether I am qualified for the position. It is true, I have my certificate, but whether I am improving or retrograding in the practical art of teaching they know nothing. My salary is \$- per month, and they know not whether I am worth twice that sum or nothing at all. Why need I strive for advancement,-my marks, if any, are hid under a bushel. My only care need be to secure the higher fade of certificate which places the man worth \$300 as a Teacher, on the same aquality with the one worth \$1,000, and nobody finds out the difference in their merits, because no one steme to

THE EDINBURGH REVIEW L. Scott & Co's American reprint—for October, commences with an excellent condensed summary of the rewith an excellent condensed summary of the recent geographical researches by Atkinson, Burton, Krapf, Vogel, Beke, and other enterprising travelers. This is followed by Memoirs of the Master of Sinclair, Max Muller's Ancient Sanserit Literature, International Law, The Churches of tha Holy Land, The Grand Remonstrance, Scattled County Historica, Paris Different. Scottish County Histories, Brain Difficulties, and the United States under Mr. Buchanan. The hat named paper is an exceedingly severe stricture on the policy of our present National Administration, in which the author displays an amount of ill nature, prejudice and ignorance, that we hardly imagined could exist together in one human mind. But the time when British have of America and its institutions could be a superior of the present that the superior of the supe abuse of America and its institutions could provoke the indignation of Americans, has gone by. Bhackwood's Magazing.—The November number of the American edition of "Old Ebony," published by L. THE OXYGENATED BITTERS. Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to."-But it requires the investigation and research of the philosopher to discover and apply this remedy. Such

a remedy for that most afflictive dispensation, the DYSPEPSIA! With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the Oxy-GENATED BITTERS a case of Dyspepsia cured was a rare experience in medical practice. Now under the influence of these Bitters the rule is to cure, the rare excep-

esearch and investigation has succeeded in discovering

tion, failure to cure. RELIABLE TESTIMONY. We call the attention of the reader to the following

letter from President Smith, formerly of Wesleyan University, now of Annapolis, Md.

University, now of Annapolis, Md.

Serie W. Fowler & Co. .- Gentlemen, — I first made use of the OXYGENATED BITTERS some seven or eight years since. Having suffered for twenty years from a form of Dyspersia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced by the unpretending recombinendation of Dr. Green "to try one bottle and if no benefit was received to discontinue the use."

The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful coussequences. I believe those bitters produced an entire change in the habits of my system and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia as most persons. These bitters have also been of service to other members of my family.

Very respectfully yours.

### HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to, physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stemach Bit ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but archandy at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid

estimation of an invaluable medicine, which is destined to be as enduring as time itself.
Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" English preaching next Sabbath morning and evening, in the Methodist Episcopal Church.

There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora-tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoza, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostier own physical welfare by giving the hostier own physical welfare by giving to Hostier own physical welfare by giving the hostier own physical welfar tetter's Celebrated Stomach Bitters a trial.
