MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES .- There is a grow THE ANALOAMATION OF LANGUAGES.—There is a grow-ing tendency in this age to appropriate the most ex-pressive words of other hanguages, and fitter a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalling's great Headacho remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many oth-ers whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

ILEADACHE is the favorite sign by which nature makes known any deviation, whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic and Idiopathic. Symptomatic structure of disease, among which are Apoplexy, Gout, Rheumatism and all febrile disease. In its nervous form it is sympathetic of disease of structure of a great variativ of disease, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of structure diseases, and sometimes of the bowels, as well as renal and utorine affections. Diseases of the heart are very frequently attended with Headaches; i'A memory in the requently occasion headache. Idiopathic Headaches is are the anifections which frequently occasion headache, sometimes coming on suddenly in a state of apparently sound health and prosprating at once the memory of the bow of symptomes is comes on slowly, headache y discusses more meas proved by depression of spirit or acorbity of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralisia.

The voluting, under this class may also be numer Act-ration. For the treatment of oither class of Headache the Cephallo Pills have been found a sure and safo remedy, relieving the most acute pains in a few minutes, and by its suble power cradicating the discusses of which Head-ache is the unerring index.

Constipation or Costiveness.

Constipation or Costiveness. No one of the "many ills flesh is heir to" is so preva-lent. so little understood, and so much neglected as Costiveness. Often originating in careless, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradictied it will bring tied sufferor to an untimely grave. Among the lighter erils of which costiveness is the usual attend-ant, are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like naturo, while a long train of frightful diseases such as Malignant Fevors, Abcesses, Dysentary, Diartheca, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrinsis, Mchancholy and Insanity, first indicate the r presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an inde-pendent existence unless the cause is eradicated in au early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephnile Pills on the first appearance of the complaind, as their timely use will expect the insidious approaches of disease and destroy this dangerous foe to buman life.
