We are pleased to learn that the Reading Railroad Company has it in serious contomplation to double the track of the Lebanon Valley Branch, from Reading to Harrisburg, during the coming summer. The whole road is al-

The "irrepressible conflict" continues to rage in allits fury in this county. Instead of seeking to abolish, however, the Republicans of this locality are striving to secure—the Post Offices. An express messenger just from Fredericksburg assures us that he would not be the least surprised if there would be bloodshed before least surprised if there would be bloodshed before long, as several threats of giving "bloody-noses" have already been made. The "Guards" are under orders to be in readiness at a moments warning, and the Captain declares that if there is a collision calling for the interference of the military there shall be no child's play. Among the many candidates already in the field we only notice the prominent ones, viz :- Jacob Seltzer, Levt Shiffler, Uriah Meily, Wm. Boltz,-but what's the use to name. Stand under the Captain's door and every individual you see just enquire his polities, and if it is a Republican, you may set him down as a candidate for Post Master. We recommend the Republicans of Fredericksburg to "keep gool."

# HOSTETTER'S

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation; and the sanction of the most prominent physicians in those sections of the country where the article is hest known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its elliency in all cases of stomachic derangements

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumbeting the qualities of the Bitters, but a solid

a Gedsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter

sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigora-tors that receive the endorsement of physi-cians, because it is agreeable to the taste as

estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved

from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally.
