For particulars see advertisement in another column. The indications are that nearly, if not quite, all the Teachers of the county will be in attendance this year, ss also the Directors and friends of education generally. The programme for the Institute is a very instructive and entertaining one.

The story published several weeks ago, that Samuel Heilber was re-arrested for the murder of Miss Bavor, in Berks county, in 1867, is unfounded. The confession of a dying man implicating him was all untrue.

An attempt was made several weeks age to get into the Stable of Mr. Joseph G. Heilman, about two miles west from Lebanon, for the purpose, it is presumed, of stealing horses. The stable being very strongly double-locked, the thieves were foiled. The attempt having been made about the time Lightner escaped from our jail, it is also supposed that he was the would be thief, and that he wanted a horse to make good his escape. Depredators on Mr. Heilman's prem-

The attention of collectors and taxpayers is directed to the notice from the Commissioners, in an advertising column.

, A correspondent of the Courier. writing from Jonestown, says:

"Capt. S. R. Faber of the National Rifles ha offered the services of said company in case of emergency to his Excellency Gov. Packer." These are really "troublous times." It was

only last week that we noticed the progress of the "Irrepressible conflict," in Fredericksburg, in relation to the Post Office there, and that the 'Guards' were in readiness to interfere for the maintenance of the peace; and now we find matters and things equally bad in Jonestown-so tind in fact that the services of the "Rifles" have already been offered to the Governor. We trust the good people will keep cool. One gentleman has alrendy withdrawn from the field, and several others may, so that in the end this plarming danger anay be "compromised." Do now keep or bog of you. All things will yet be right.

Having been benefited by the use of that valuable remedy, Dr. Wistark's Blusam of With Cherry, I consider it a duty to add my testimony to the number already given, hoping it may induce many of those now suffering with severe coughs and colds, to give it a trial, and thus be convinced of its efficacy. Little over a year since I was taken with a bad cold. and for some time was confined to my bed with a severe pains in my breast, back and side accompanied with a violent cough, so that I was fearful that the disease had made, a lasting impression on my constitution. Through the family of fler. W. R. DeWitt I was informed of the efficacy of the Balsam in cases like my own. I gave it a trial with the most salutary results. I had not taken it three days before my cough commenced to yield, and before the contents of a bottle were taken it had entirely left me. Since then I have induced several persons to use the Balsam for Coughs, Colds, Whooping Cough, &c., and always with the most satisfactory results.

Whereas: We heard with deep regret of the demise of our lamented fell. w member, Gronor II. That warm heart, ever open to friends and associated, has ceased to bear, is cold and inanimate. His body remoses in the charnols of a distant cemetery—and the shroud is his bed! The sun plays his departing beams on his tomb but they reanimate him not—the birds of the evening shout a melancholy air on the weeping willow, but their voice is stillness to his ears—and while we how in humble submission to Goo, we can scarcely realize the purpose in view when made cognizant of an event so saddening.

Each volume contains many hundreds of us fill hin s, and it is certain that many of these hints will each to worth to you more than a dollar—As an example, a subscriber wites: "I obtained 5 bushels more per acre on a 10 acre field of wheat, (or in all 50 bushels) simply from a hint shout preparing the seed given in my Agriculturist." Another says he obtained an extra yield of 11 bushels of corn per acre on a learn that are on a learn that are on the corn when are on a learn that and the corn per acre on a learn that are on the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre on a learn that are the corn per acre of from a hint shout preparing the sees given in my Agriculturist." Another says he obtained an extra yield of 11 bushets of cora per acre on a 15-acre field, and with no extra cost for culture, by applying one hint from the Agriculturist. Another, (a villinger.) says he got \$43% worth extra of good gard a vegetables, which he attributes wholly to the timely hists in the Agriculturist, which told him from time to time what to do. how to do it, and when to do it. Thousands of others have derived similar advantages. You are invited to try the paper a vest, at a cont of only \$1. If you desire, you can have, free of charter, hour or five parcels of CHOICE SEEDS, which the Publisher will distribute among his subscribers the present winter.

YOUR WIFE wants the Agriculturist because it has a large amount of valuable and really useful intermation about all kinds of HOUSEHOLD WORK, from Garret to Cellar. Give her the benefit of this paper for a year. You will find your home made better, and monor saved.

YOUR CHILDREN want the Agriculturest, for it contains a very interesting, useful, and outer tailing department for YOUTHS and CHILDREN which will be of great value to their minds and hearts. The above are truthful statements, that will be cheerfully attested by nearly a hundred thousand of the present readers of the Agriculturist. You are invited to try a single volume of the Agriculturist, which will cost only \$1, and abundantly pay. Try it for 1861 (Vol. 29)

ONLY DISCOVERY Wotrthy of any Confidence for RESTORING

THE BALD AND GRAY.

THE BALD AND GRAY.

MANY, since the great discovery of Prof. Wood, have attempted not only to imitate his restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried advay by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its resistless sway. Read the following:—

Bath, Maino, April 18th, 1859.

Prof. O. J. Wood & Co.; Gents:—The letter I wrote you in 1836 concerning your valuable Hait Restorative, and which you have published in this vicinity and elsewhere, has given 1700 to numerous enquiries touching the facts in the case. The enquiries are, first, is it a face of my habitation and name, as stated in the communication: second, is it trie of all therein contained; third, does my bair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My bair is even better than in any stage of my life for 40 years past, more soft, thrity, and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face when if care were used by wiping the face in cloze connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all paris. Twee England, asking ms if my hair still continues to be good: as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubts been basely imitated and been used, not only without any good effect but to absolute injury. I have not used any of your Rostorative of any account for some months, and yet my hair is regord and better and your a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am grateful: I gave it to my friends and therehy induced them to try it many were skeptical until after trial, and thee purchased and used it with universal success. I will be

mend this invaluable remedy to all who may feel the necessity of it.

Respectfully yours, Rev. S. Allien Brook.
F. S.—This bestimonial of my approbation for your valuable medicine (as you are aware of) is masolicited: but if you think it worthy a place among the rest, in sert if you wish; if not destroy and say nothing. Yours, &c., Rev. S. A. B.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds \(\frac{1}{2} \) pint, and retails for one dollar per bottle; the medium holds at least twenty per cent, more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent, more in proportion, and retails for \$\frac{2}{2}\$ pint, and retails for \$\frac{2}{2}\$ to ent, more in proportion, and retails for \$\frac{2}{2}\$ per bottle.
