A conversation between two young beginners in Housekceping .- "Where did you

buy that splendid Furniture ?" "Why I bought it all at Owen Lsubach's in Lebanon.". "Undeed! Well, I must contest it looks much better than mine, which I bought in Reading. But then, I suppose it is sold at a much higher price." "O, no! I priced Furniture in Reading, and sove: al other places, and could find no Furniture so splendid, well-make, and at the same time so cheap as that offered by OWEN LAURACH, Market street: Lebanon, Pa."

IMPROVEMENTS .-- We noticed on

Monday morning workmen engaged in tearing down the two old buildings in Cumberland street, adjoining the residence of Levi Kline, Esq. They are owned by Messis. Daniel Graeff and Joseph Karoh, and. give way to fine brick structures .--Capt. Samuel Harbeson also commenced the removal of one of his old buildings for the purpose of obtaining a site for a new brick dwelling .---We would now have a grand era of improvement in this place if the National Administration would give such assurances of its peacoful policy as to restore confidence to the public. There is plenty of money and plenty of provision. in the country, and all that is wanting for prosperity is peace and confidence.

Jas. Lawrence Rightmeyer, Esq., formerly of this place, has been removed from the position of Auditor of the Transportation Department of the Philadelphia and Eris Railroad Company, at Williamsport, and 'Mr. E. V. Higgins appointed in his place.

Col. C. SHUNK, for a number of years one of the managers at the Cornwall Furnaces. has removed to Maryland. We are sorry to loso the Col. The name of Shunk is engraven in the affections of the people of this Commonwealth, and we would prefer to keep ourselves familiar with it by retaining all of the name in our midst. Yet, although he has gone to another State, we trust it may never prove to Lave been to another country. We wish him health, happiness and prosperity in his new home.

A young man named Adam Forney. confined in our prison and awaiting trial for steal ing a watch, made his escape. on Wedneeday evening last, by scaling the walls of the prison yard. He nailed two pieces of scantling together, which a stone away that is not wanted for wells, or for he placed against the wall so that he could reach some other special purpose, but dig holes and the top, and up he mounted cat-like-down on place them in so that they shall not come nearer the otherside and off. He has not since been heard from, although the Sheriff offers a reward for his re-arrest. A darkey, confined in jail on a similar charge, liking "liberty," and also the four advantages in this process." made pursued by Forney for obtaining it, tried also to get off. He had just got on top of the wall when the alarm was given by the other prisoners. He managed to get about half-a-square when he was caught and brought back.

LIVE STOCK .- Three hundred and fifty car loads of live stock passed over the Lebanon Valley and E. P. R. Roads, during the non Valley and E. P. R. Roads, during the of 25 to 60 dollars per month, and expenses, or a com-month of March. This business is increasing mission. This is an opportunity seldom offered, and on the above roads, and if times were as they

should be, the business would be trebled. ON DIT.-It is rumored that JACOB R. JAMES. General Agent. Milan, Ohio. SELTZER, of Fredericksburg, has been appointed

RHEUMATISM KILLED BY MADNESS .- A young mn named William Hunmel, residing uear Potts-ville, Penneylvania, and who for some years part has been so hame from rheamatism as to ren-der hocomotion without the aid of crutches impos-sible, rose from his bed one day last week, and, to the great surprise of all who saw him, walked away from his house without crutches. It was discovered that he had suddenly become a maniac thro' the severity of his sufferings; the same cause which had restored him to the use of his limbs, depriving him of his reason. He was removed to the Pennsylvanin State Lunntic Hospital, near this city, where he at present remains. Mr. Ham mel was a member of the Odd Follows, who sent him here to be cured, if possible, at their expense. -Harrisburg Patriot.

Wa. The late Mrs. Winans, wife of the owner 323. The late Mrs. Winans, wile of the owner of the famous eight steamship of Baltimore, had for years been in the habit of distributing from \$25,000 to \$30,000 annually among the poor.— At the period of her death the was supplying some seventy to eighty indigent families. It was touching in the extreme to behold these serrow stricken dependents cluster in and around the church at the functal, and follow in the cortege.

DURABILITY OF POSTS. -- A correspondent of the New England Farmer reports an experiment on the durability of posts, which we re-arrange and condense. The timber used was 'Yellow Oak ;" it was cut in winter, and each log was large enough to split into two bar-posts, which were set the following spring :

1st pair-Batt end down, one charred. Both cotted off the third year; the upper ends were then put in the ground, and they lasted seven

2d pair-Butt end down, one salted by boring and plugging. Salted post gave out second year the unsalted the fourth year. The ends were then reversed, and each lasted about eight years longer. 3d pair—Ono butt down, the other butt up.— The one butt rotted off the third year, the other the fourth. The ends were reversed, and the new butt rotted one year before the other, sithough the latter was set one year the soonest, 4th pair-Smill ends down, one whited. Both rotted off the fourth year; and being reversed, asted four years more.

It will be seen that charring did no good, and salting a green post is useless if not injurious.-All the experiments indicate decidedly that posts set reversed last longest; and it appears that seasoned posts last longer than green-the sensoned small ends in the first experiment, lasting about twice as long as the green small ends in the

fourth. CLEARING FIELDS BY BURYING STONE. -To clear fields of stone by burying them, is recommended by the New England Farmer in a brief article, which we copy below. Our readers

can judge of the practicability and advantages of the process for themselves. With regard to the disposal of stones we think there is one rule of universal application, which is this : On all land that is not so rocky underneath as to make digging expensive, never take than eight or ten inches of the surface. This can

be done as cheaply as they can be carted off and piled up in some other place. There are, at least 1. The surface is relieved of them, so that they are out of the way in cultivating.

2. If not too far below the surface, they attract moleture, and are especially valuable where deep rooted plants are cultivated in times of drouth. Fruit trees flourish finely over them.

3. They are storchouses of heat, warming the soil about them, and the young roots that pene-trate it, and acting like bottom heat in a forcing house.

4. So much of the land as is dug over to receive the stones, is thoroughly trenched, and will feel its influences for many years, whether it is cultivated or kept in grass.

Prof. Woop : Thee wilt please accept a line to inform thes that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, at-lended with an eroption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, acither have I been able to do them up, in consequence of which my head has suffered extreme-ly from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bot-tle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the hald spot is now covered with hair thick and black, though short, its also coming in all over my head.— Feeling confident that another large bothe would ro-store in fits use, and being destilute of means to purchase any more, I would ask thee if the woulds not be willing to send ne an order on thin agents for a bothe, and receive to thyself the scripture declaration—the reward to those that are kind to the widow and the fatherless." DR. EATON'S INFANTILE CORDIAL. Dr. EATON'S INFANTILE CORDIAL, is remarkable for its wonderfal beneficial effects in the treatment of children. For croup, dysentery, and teething, it has never been surpussed, and mothers should at all times be provided with a surply, as they value the lives and the comfort of their little ones. The preparations of Bieno Poop are among the most important discoveries of the age. THIS rainable preparation, freed of all the com-mon components, such as Optices, or Expectorants, which not only run down the system, but destroy all chance of cure, will be found on trial to posses the fol-lowing properties, and to whic. the most valuable testi-monials may be found in the pamphlets. For whooping Cough, and as a Soothing Syrup, it meets every want, and by early use will save the largest proportion of ruptures in children which can be traced to Whooping Cough. The ordinary Conghs and Bronei ial Complaints, the forerunners of Consumption, its splendid tonic proper-ties make it not only the most perfect enemy to disease, but builds up and sustains the system against recur-tinence of the Complaint. No nursery should be without it, nor should parents fail to get a pamphlet, to be found with all dealers, as the ouly way to do justice to its value.

THIS great Neuralgic licencely and Natural Opiate calls for special attention and interest, being free of Opiam, or preparations of Opiam, or of any but its strictly vegetable and medical properties. For Neural-gia, Rhenmatism, Gout, Tooth and Ear Ache, Spinal Complaints, Bleeding at Lungs or Stomach, Rose or Hay Fever, Catarrh, and all minor Nerrous Complaints. For Bowl Complaints, including Cholera Morbus, it is splendially adapted in not only removing the pains but acting as physic, agreate cutrust with Opiam, which not only constituents and drugs the system, but makes the remedy worse than the disease. From physicians we ask attention, and on demand Formulas or Trial Bottles will be sent, developing in the Anodyne an Opiate which has long been wanted, and in the Cough Remedy such as rest cutirely on one central principe.
