THE CORNER.

To Whom it may Concern.—Here is a story that may be perused with profit by a few in all neighborhoods. We hope it may set some talking people to thinking of the harm a little harmspeciable people. The story says:
When I was eleven years old, my mother rewhen I was eleven years old, my mother removed to the country. Our nearest neighbor was a minister by the name of Wayland, who, in addition to his ministerial duties, owned and cultivated a large farm. One night, my attention was attracted to a bright light in one of the upper rooms of our neighbor's house. In a moment I saw the wife fly past the uncurtained window closely followed by her bushand, who was armed with a buge fire shorel; round the room ahe went still pursued, and, as I listened breathlessly, I thought, nay, I was sure. I heard her seream: I hastened to my mother, and told her what I had seen and we both looked out, but the light was gone and all was quiet. Notwithstanding my mether's judicious warning to say nothing about it to any one, before school was out the next day, I had coulided it to a bosom friend, and in a week it to any one, before school was out the next day,
I had confided it to a bosom friend, and in a week
half the villings knew it, and a great talk it made
indeed. Finally it reached the ears of the deacons, who proceeded to investigate its truth. My
mother looked grave and troubled when they called; but conscious of having told only the truth
I met them fearlessly, and related what I had
seen. They left, taking a bee line for the minister's to call him to account. With many apologies they made know their errand when, to
thele supplies, the minister burst into a hearty

laugh.

"n ait a moment," said he "till I call Polly.—
You see that night I found a big rat in my meal chest, and came down for the shovel, and bade her hold the light, while I killed him. Finding no other place to hide, the raceal took rofuge in the folds of her dress, and she ran screaming, till I managed to dislodge and kill him."

I have ever since been careful not to repeat an unfavorable report about my neighbors at least until I knew the whole truth.

The laud is plowed eight inches deep; treads the manure firmly in the furrows, puts in the tubers, and covers them with tan refuse, nine vinches deep, instend of carthing. In this way he reports that in 1859 he raised 675 bushels of potatoes—not a rotten one among them—to the acre, with nothing but waste tan as a covering.—This is of great importance, the tan refuse being of little or uo value, and if it be put to so important advantages as in this case, it should be widely known and practised. ly known and practised.

The ground of their protest is, that duties on the same kind, description, character and quality of leather are not levied and collected in other ports of the United States, such as those of Georgia, Florida, &c., though the Constitution declares "all duties, imports, and exercises shall be uniform througaut the United States;" and also by the fifth clause of the ninth section of the same article it is doclared that "no preference shall be given by any regulation of commerce or revenue to the ports of one State over these of another." It will give work to the constitutional lawyers te get over this objection.

RARRY AS A PHILOSOPHER. - Some of Rurey's RAREY AS A PHILOSOPHER.—Some of Rarey's sayings are maxims of wisdom. For instance: Nature never lies. The horse is honest. The mind of a horse governs a borse, as the mind of a mas governs a man. If you wish, therefore, to get the control of a horse's body, first learn to direct his mind. The gentle touch is more powerful than blows. Women are better drivers shan men. because they have a gentle touch than men, because they have a gentle touch.—
Firmness and kindness are all the magic there is in my method. Fear or anger in the mind of the driver is instantly known to the horse.

It appears they were baking some cakes at Mr. Gilleland's, and in heating the stove, the flue caught fire and bursted, whereupon the whole was consumed. They took the cakes over too Mr. Johns', and in heating the stove, the house also caught and was burned. Thus in baking one lot of cakes, two houses were consumed.—

How women do admire weddings—not their own, merely, but anybody's! How they throng the churches, "just to see the ceromony!"
Then what animated decriptions of the whole affair!—what glowing accounts of what the bride "had on!"—what criticisms of the bridemaids!
In short, what an immance amount of since In short, what an immense amount of simper, and giggle, and prattle—all because two inoffensive people are going, in legal and orderly way to set up housekeeping! Funny, isn't it?

TMHS valuable preparation, freed of all the common monomoments, such as Opiates, or Expectrants, which not only ran down the system, but destroy all chance of cure, will be found on trial to possess the following properties, and to which the the available testimonials may be found in the pamphlets.

For whooping Cough, and as a Soothing Syrup, it meets every want, and by early use will save the largest proportion of ruptures in children which can be traced to Whooping Cough, and Bronel ist Complaints, the foreurners of Consumption, its splendid tonic properties make it not only the most perfect enemy to disease, but builds up and sustains the system against recurrence of the Complaint.
