A HUNTER WHO DISLIKES FRESH TRACKS .--"Harper's "Drawer," for July, yields the

following anecdote of the war:-"Previous to the breaking out of hostili-ties at Charleston," a Wisconsin corres-pondent writes, "we had in our county three companies of United States militia There companies of United States militia, fully armed and equipped. Under receiv-ing the requisition of President Lincoln for volunteer troops, the Governor called upon these companies to join the regiment, whereupon they very promptly and unan-tmously surrendered their arms and equip-ments back to the state, as did also their

Among them

was one Captain Jahns, who had figured largely in time of peace as Chairman of the Saddle and Harness Manu-

Saddle and Harness Manu-Military Committee in the Legislature of the State, and in other ways had for eight or ten years been laboring to establish for himself a military reputation. Soon after resigning his commission he was met by Col. Teall, who very cooly inquired of him if the track was getting too fresh? The Captain not understanding what was meant, the Colonel told him his military career reminded him of a California hun-ter, who started out with his gun in the morning upon the track of a grizzly, and pursued it hard all day. When it became evident he had nearly overtaken his game, evident he had nearly overtaken his game, he turned aside into a miner's shanty very much excited. The miner inquired what was the matter, as he looked agitated and alarmed. The hunter replied that he had been pursuing a grizzly all day, but the track was getting too fresh, and he didn't think it safe to follow any further!

GIVING CHASE WITH BILLY LULY .--- The Aollowing anecdote is strictly true. It is "contained in a letter from a young gentleman who went out in a vessel for St. Thomas: "We were chased by a privateer off King's Channel, on Sunday morning. The villain was close in under land, in a small sloop, with about twenty-five men. When he discovered us we were nearly becalmed. He gave chase and came down very fast on us. I thought there was no chance to escape but by there was no chance to escape but by stratagem, and having on board a man whom 1 could metamorphose into any-thing, I said to the captain that he had bet-ter make a gun of Billy Luly, and give chase in turn We accordingly went to chase in turn. We accordingly went to work, put a black cap on Billy's head, stretched him fore and aft on the keel of the boat, with a rope made fast to his heels, so that we could slide him on the centre of gravity freely, and pointed his head to the enemy. Having rigged up a 'long Tom,' the next thing was to fire it; and this we did by discharging a pistol into a barrel, and raising smoke by throwing ashes into the air. The trick succeeded kinds -the sloop tacked and made off, we hauled on a wind and pursued her close in | 2" under the land, then tacked ship and stood into St. Thomas. Thus were twenty-five

THIS valuable preparation, freed of all the com-mon components, such as Opiates, or Expectorants, which not only run down the system, but destroy all chance of cure, will be found on trial to possess the fol-lowing properties, and to which, the most valuable tasti-monials may be found in the pamphlets. For whooping Cough, and as a Soothing Syrup, it meets every want, and by early use will save the largest proportion of ruptures in childron which can be traced to Whooping Cough. The ordinary Coughs and Bronelial Complaints, the forerunners of Consumption, its splendid tonic proper-tions make it not only the most perfect enemy to disease, but builds up and sustains the system against recur-rence of the Complaint. No nutsery should be without it, no should parents fail to get a pamphilet, to be found with all dealers, as the only way to do justice to its value.

NATURAL OPIATE. VIIIS great Neuralgie Remedy and Natural Opiate calls for special attention and interest, being free of Opium, or preparations of Opium, or of any but its strictly vegetable and medical properties. For Neural-gia, Rhenmatism, Gout, Tooth and Ear Ache, Spinal Complaints. Bleeding at Lungsor Stomach, Ross or Hay Fever, Catarrh, and all minor Nervous Complaints. For Loss of Sleep, Chronic or Nervous Head Ache, Sick Head Ache, it has no equal, and to which we offer estimonials from undoubled seurces. For Delirium Tremens it is a Sure Reuedy. For Bowel Complaints, including Cholers Morbus, it is splendidly adapted, in not only removing the pains but acting as physic, a great contrast with Opium, which not only constipates and drugs the system, but makes the remedy worse than the disease. From physicians we ask attention, and or demand Formulas or Trial Bottles will be seut, developing in the Anodyne an Opiate which has long been wanted, and in the Cough Remedy such as rest entirely on one central principle.
