JUMPING MATCH WITH HORSES. Recently in England, a Mr. Horloch made a match that he had a horse that would jump a greater height of wall or timber than any other which could be brought. The wager was taken, and the trial is thus described: "Mr. Horloch brought out his horse Black Dwarf, a magnificent animal, standing nearly 17 hands -well known for his performances with the Surry Fox and Stag-hounds, and many of the packs in Oxfordshire—and put him at a stiff post and rail, measuring five feet in height. It appears that the carth crumbled down, giving way as fast as the workmen were building it up. The engineers themselves were at fault, so they determined to consult a wise woman, who declared the mounds would always continue sinking, unless a living child was buried underunless a living child was buried underneath. So they prepared a recess of heldward the prepared to the prepare brickwork under the ramparts, and decorated it gaily with evergreens and flowers, and placed therein a little table and chairs, with toys, dolls, and sweetmeats, and a tree lighted with many tapers; and having enticed a little girl of five years old, they clothed her in new garments, and brought her to the bower, accompanied by a band of music; and whilst the child, delighted, played with the dolls and toys, the masons quickly closed up the aperture with solid prickwork, and shovelled the earth over it. From that time the ramparts sank no more.

disease. A cold settlos somewhere in the body, and obstructs its natural functions. Tesse, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derasgements, take Ayer's Fills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them arely, cured by the same means. None who know they witness of those Fills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

Billous Disorders—Liver Complaints.

From Dr. Theodow Bell, of New York City.

Not only are your Fills admirably adapted to their purpus as an appriont but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincorely rejoice that we have at I right a purgative which is worthy the confidence of the profession and the people.

Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. The Above is a portrait of David McCreary, of Napier township, who, on the 31st day of August, 1858, made affidavit be fore Justice Gorley that he was treated for the cure of Cancer by three physicians of Bedford co, and by Dr. Newton of the Eclectic College in Cincinnati, for a period of nearly, eight months, notwithstanding which, his lip, nose, and a portion of his let check were entirely seden away! He had given up all hops, when he heard of the "Blood Searcher," and was induced to try it. Four bottles cured him, and although sadly disfigured, there is no question but what this invaluable medicine saved his life. The full particulars of this remarkable case may be seen in a circular, which can be had of any of the agents.

We also refer to the case of Nancy Bleakner, of Eiderton, Armstrong county, Pa, cured of Scrofula after being unable to get out of bed for three years.
