Should it not be in his power, there will be no difficulty in having a company needed, composed of such material as I know to exist in this county, and which I have to seen you. which I hope to secure.

It is my opinion that an effort will be made by the saders of the rebellion to transfer the war to Conneyivania. Every true Pennsylvanian is

called upon to resist this by meeting the enemy beyond the frontier of his native State. My professional engagements will not permit me to take any active part in collecting men before the 26th of August ensuing, by which time I hope the public spirited young men of the county will have prevented the necessity of recruiting by having enrolled themselves previously. My medical education guarantees, I think, to those serving under my command, intelligent attention to their health. My knowledge of military affairs, I believe, to be competent for the command I propose to hold.

N. B.—Three months men, who have been regularly discharged after serving their full term, upon enrolling themselves in this company will be entitled to a bounty of thirty dollars upon being mustered into service.

AND THE PROPERTY OF THE PROPER

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repustates, because the arrive has arranged a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one neillion bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparamedicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself: Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have

counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like lisenses, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system; giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mild y but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of unture.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate; invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the went of body and mind is generally aggravated. Here, is a necessity for a stimulant to recuperately aggravated of the statement of the statement of the statement. rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the faste as well as certain to give a permanent increase

of bodily strength.
All those persons, to whom we have particularly referred above, to whom we have particularly referred above, to wit: sufferers from fever and ague, conted by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, and distances or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and finising mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters'a trial.
