THE CORNER. OUR FAT CONTRIBUTOR IN THE HUME GUARD The moment the Flag was threatened, large bodies of men were called upon to rally in its defence. Being a large bodied man, I rallied, and enrolled myself with the Home Guards. The drill is very severe on me this hot weather, although I am on me this hot weather, although I am constantly allowed an attendant with a fan and pitcher of ice water.

I am constantly reminded that one of the first requirements of a soldier is to throw out his chest and draw in his stomach .---Having been burned out several times while occupying rooms in an attic, I have had considerable practice in throwing out my chest, but by what system of practice could I ever hope to draw in my stomach? I can't "dress up"-it is no use trying .--If my vest buttons are in line I am far in the rear, and if I toe the mark a fearful bulge indicates my position. (There is no room for argument in regard to my sentiments-everybody can see at a glance just where I stand.) One evening we had a new drill sergeant who was near-sighted. Running his eye down the line, he exclaimed sharply:

"What is that man doing in the ranks with a bass drum?"

with a bass drum?" He pointed at me, but I hadn't any drum — it was the surplus stomach that I couldn't draw in. I am the butt of numberless jokes, as you may well suppose They have got a story in the Guards that when I first heard the command "Order arms!" I dropped the context and taking out my note-book began to draw an order on the Governor for what arms I wanted. They say I or. dered a Winans steam gun, with a pair of Dahlgren howitzers for side arms! Base Boots, Shoes, Hats. Caps &c., fabricators! My ambition never extend-ed beyond a rifle cunnon, and they knew it. THE undersigned having opened his SPRING AND

"Perhaps not at presennt," quoth he, "but if you go to war you will want them." "For what?" said I, considerably an-noyed. "Waat'em to draw your rations!" The Guards paid me a delicate compli-ment at the last meeting. They elected of first Corpulant, and the pay of child "Blowyer." I was about to return thanks in a neat and appropriate speech, when a in a neat and appropriate speech, when a reporter who was present assured me it was no use-he had got the whole thing in type, speech and all, and I could read it in an evening paper. He said they kept a "neat and appropriate speech' standing in type continually. I got his views, and held my peace. Yours for the Union, including

COLIC IN HORSES.

I will give you a receipt which I have known to cure in a few minutes: I knew a horse taken with it on a tread wheel to a carding machine, so that the owner thought he could not live. He got the veterinary surgeons, and they did what they could, and all decided that the horse must die. The man's wife, who believed and practiced hygiene, from the time, the horse was taken, tried to pursuade her husband to use a wet bandage, but he insisted it would do no good. After all had given up that the horse could not live, by her entreaties-the doctors saying it would do no good or hurt-he took a thick bed comforter, bound it around the horse, went to the well and drew water, and poured it on till thoroughly soaked. It seemed like a pot boiling. In less than fifteen minutes pot boiling. In less than fifteen minutes from the time he commenced the watering process, the horse was up and eating, to the great surprise of the horse-doctors, who knew it could not live. The horse did good service afterwards. This recipe I gave several years ago, and it was copied into most, as I was told by an editor, of the agricultural, and many other papers in the United States. Many have tried and prov-ed it. Try it, brother farmers. Farmer's Advocate.

Consecrated on the 2d August next, by the Lord Bishop of Bath and Wells.— Dear friends, I have now lived among you sixt en years.
