The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hestetter's Stomach Bit-ters for the fast year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during. the coming year the consumption will reach near one million bottles. This immense amount could never have been sold But for the rare medicinal properties contained in the prepara-tion, and the space of the most prominent physicians in these sections of the country

where the article is best known, where only recommond the Bitters to their part of, but are ready at all times to give testimonialis to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomack Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a cortain cure for the Dyspepsia and like diseases, is to the proprint ors a source of un-alloyed pleasure. It reading all morbid matterfrom the stomach, purifies the blood, and, imparts renewed vitality to the nervous system; giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them. to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort doubtless to regret the work they have declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonie, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials, and responsibilities. Nursing mothers generally prefer the Bitters to all other invigerators that receive the endorsement of physi-cians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have partien-arly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoma, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of medeatary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION .- We caution the public agained using any of the many imitations or counterask for HOSTETTER'S CELEBRATHD STOMACH BITTERS, and see that each bottle has the words "Dr. J.
