but it does more than almost anything else to lower the American people in the estimation of all civilized pations. We care not what the destroyed journals published. If treasonable matter, then the writers ought to be punished in due course of law, and not by a mob But if the matter was not treasonable, but only false or vexatious, then its undisturb d publication ought to have been permitted. Its sunought to have been permitted. Its suppression by violence is a proof that in Conbord and Bangor at least, freedom of opinion does not exist; and the complacency with which that act appears to be generally regarded would perhaps justify us in believing that other and more widely exbelieving that other and more wildely extended localities are equally unfortunate. Those who have anything to lose in the United States cannot remember too soon that when the mob's idea respecting the rights of meum and teum get confused, mistakes are likely to be made with property more valuable than that usually contained in newspaper offices. At the present time, especially, the assumption of power by illegally constituted tribunals ought to be sternly checked, or the great Republic will be resolved into chaos from which there is no return, except by "the purchase of order at the expense of liberty."

COMMENDATIONS:

From Hon. Lewis D. Oamperl, M. C., Ohio.

My family and friends all concur in the opinion that the (Newell) Picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had sne which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Jor Morris, late Ministerio Ltdy. The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fail to comisend them to the attention and pairsnage of all who appreciato true art.

From Col. James Page.

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, under the new process discovered by him, and taket great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art.

In ordinary Coughs and Bronchial Complaints, the forerungers of Consumption, its splendid tonic properties make it not only the most perfect enemy to disease, but builds up and sustains the system against recurrence of the Complaint. No nursery should be without it, nor shaulif parents fail to get a pamphlet, to be found with all dealers, as the only way to do justice to its value.

THIS great Neuralgic Remedy, and Natural Oplato calls for special attention and interest, being free of Gpium, or preparations of Oplum, or of any but its strictly vegetable and medical properties.
