HOME AFFAIRS.

The official returns of the election in this county do not vary materially from our re. port of last week. The Democratic and Union Republican candidates are elected by majorities ranging from over 500 to near 1200. It is prudent as well as graceful to be modest in the hour of victory, hence we refrain from enlarging on

Colonel Christian Gloim, formerly a resident of this city, and Sheriff of Dauphin county, died in St. Louis, on the 23d of September, in the 82d year of his age. He was a soldier in the war of 1912, and for his gallant service at the battle of Baltimore, was made a Paymaster in the U.S. army, but gave up that position for the more congenial business of civil pursuits. The St. Louis press speak very highly of Col. Gleim, as a useful and enterprising citizen, and a most exemplary man in all his relations. His last illness was severe and protracted, but at the close, his suspary man in an ins relations. His last liness was severe and protracted, but at the close, his life passed serenely and softly away, a fitting conclusion to an early career of singular purity and goodness.—Harrisburg Telegraph.

Mr. Gleim was an uncle to Messrs. Joseph, and George Gleim, of this borough.

Lieut. John P. Ely, 19th Infantry, U. S. A., passed through this place, last week, having in charge 14 secession prisoners, destined for Fort Hamilton, New York Bay.

STOCKINGS FOR THE SOLDIERS .- We have been requested to say to the Ladies, who are engaged in the generous work of knitting stockings for our soldiers, that it is desired they should hasten their work, and send it on to Mrs Hoffman as soon as finished. The cool weather, and the liability of the Regiment being ordered away at any time, renders this especially important.

How to PRESERVE BEAUTY .- Nothing is more How to Preserve Beauty.—Nothing is more becoming to a man or woman than a beautiful, luxuriant head of hair, and a woman's beauty is certainly incomplete without a fair complexion, and he or she who neglects these great and important adornments of nature must expect to suffer the mortification of premature baldness, and a wrinkled face and a sallow skin. Nothing is necessary to preserve these essential attractions but the use of Prof. Wood's Restorative.—Louisville Times.

PROF. WOOD'S HAIR RESTORATIVE.—We have had occasion to use this famous preparation of Prof. Wood's, and after thoroughly testing its qualities, we find that where the hair is thin it dantities, we find that where the bair is thin it will thicken it, if gray it will restore it to its original color; likewise, it gives a glossy appearance, as well as keeps the hair from falling off.—

The Wonders of the Microscore.-We unrstand it is through the agency of this marvel viewing instrument that Dr. Ayer has at length succeeded in finding the PALUDAL MIASM and determining its character. Of its effects we in this section have abundant evidence in the Feven AND AGUE which it alone produces when aborbed through the lungs into the blood. It has long been held to be a vaper or something in the vapor of water from decayed and decaying vegatetation. Under a great magnifying power, the Doetor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blond of Ague subjects. They are 13,000 times less than visible to the noted are the naked eye, but have distinct character and form. He thinks they are reproductive in decaying matter or in the blood, and hence there long continued life or the remote offertocontinued life or the remote effects of them in the system. He maintains that they resemble in-character the other fermentative poisons, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce them selves with great rapidity like yeast in moistened flour, so that the slightest quantity impregnates the whole mass. Yeast through a powerful magnifier is seen to be a forest of vegetation which grows, blossoms, and goes to seed in a short time. Missum is not so distinctly vegetable, but has more the appearance of animal life, although its modifier and the second of the second tions cannot be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further found and embodied in his "Ague Cure" what will destroy it.—[Leader, St. Louis, Mo.

MILITARY UNIFORMS.—There is, perhaps . no department of military business in which haps no department of military business in which there has been a more marked improvement than in the clothing of the soldiers. Not many years since officers and privates were clad in garments which were almost skin-tight. They wore leather stocks, which were worthy of the name, for they kept the wearer in tribulation; while their padded breasts and tig't sleeves made volition a matter of great difficulty. During the present war, such of our volunteers as procure their uniforms at the Brown Stone Clothing Hall of Rockhill, & Wilson. Nos. 603 and 605 Cliestnut street, above sixth. Philadelphia, obtain clothing that is perfectly easy, substantial and heroming. The firm named herograpy gone largely into the business of making Military Clothing, and their facilities enable them to fill the largest orders in the shortest possible time.

IT IS COMMON OBSERVATION that there IT IS COMMON OBSERVATION that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and for get the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED "BITTERS." The week and nervous denizen of the counting house, the exhausted toller upon the shop-board, and the prostrated student of the midnight lamp, have found a wonderful regeneral in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful an assisting mature to expet the most terrible forms of disasse. DELIRIUM TREMENS.—For this, the most awful of all coriplaints by its cause, and by its effect, finds a sure remedy in Hunnewell's Tolu Anodyne. So marked was its effect on a violent case, that a physician remarked that "it night cause drunken, ness, by the ease with which it was cured." The giving of opium actually aggravates the case, reproduces a counter delirium, and it requires no argument to prove that this is a stop to cure. This contrast of the Anodyne with preparations of opium, we ask to be proved by all, and are willing to rest on results alone. Read the pamphlet, and follow directions carefully. See advertisement.

MESPECIAL PILL

A SPECIFIC REMEDY FOR Spermatorrhea, or Seminal Weakness, and Spermatorrhea, or Seminal Weakness, and Genital Irritability in either Sez.

This Malady, the terrible consequences of which are too well known to require more than a bare allusion to them, is one of the most insidious, and therefore dangerous, of all the long catalogue of human ills. It saps the very springs of Life, rapidly undermines the constitution, and sinks the unhappy victim into imbecility and a premature grave I From one to six boxes of the SPECIFIC PILL are generally sufficient to effect a permanent cure in the most aggravated cases, whether Constitutional, or arising from Abuse or Excesses.

"We believe it to be, in the treatment of Spermatorrhea, as near a Specific as any medicine can be "—B.
Kern, M. D. [Am. Jour. of Medical Science.
"I have found them all that could be desired. Their
effect has been truly wonderful. I used them in case of
Spermatorrhea of long standing which has been under
treatment for years. I think three boxes will complete
the cure."—E. P. Dicker, M. D.

PROF. WOOD'S RESTORATIVE CORDIAL BLOOD RENOVATOR

Is precisely what its name indicates, for, while pleasant to the taste, it is revivilying, exhilarnting, and strengthening to the vital powers. It also reviviles, reinstates and renews the blood of nall ifs original purity, and thus restores and renders the system invulnerable to associate the statests of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence soathe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhibitating in its effects, and yet it is never followed by lassitude or depression of spirits.—
It is composed entirely of vegetables and those theroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the encelleal world, both by the thoroughly skilled in medical science, and also by all who have suffered from dshilly; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most damerous to

to see that debility follows all attacks of disase, and lays the unguarded system open it the attacks of many and any of the most dangerous which poor humanity is constantly liable. Such, for example, as the following: Consum tion, Bronchitis. Indigestion. Dyspepsia. Lo of Appetite, Faintness, Nervous Irritabilit. Neuvaliga, Palpitation of the Heart, melaicholy, Hypochondria, Night Sweats, Languo Giddiness, and all that class of cases, so fea fully fattal if unattended to in time, called Fmale. Weaknesses and Irregularities. Also, Li or Derangements or Torphilty, and Liver Cerolainis, Diseases of the Kidney; Scalding a Incontinence of the Urine, or any general drangement of the Uriner or any general drangement of the Urinary Organs. Pain in the Back Side, and between the Shoulders, prediposition to Slight Colds, Hacking and Continued Cough, Emaciation. Difficulty of greathin and indeed we might enumerate many more position to Slight Colds, Hacking and Continued Cough, Emaciation Difficulty of Braching and indeed we might enumerate many more still, but we have space only to say, it will not only care the debility following Chills and Fever, but prevent all attacks arising from Missmatic Influences, and cure the diseases at once, if already attacked. And as it acts directly and persiste thy upon the biliary system, it will intallibly prevent any deliberious consequences following upon change of climate and water; hence all travelers should have a bottle with them and all should take a table spoonful at least before enting. As it prevents enstireness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits students, ministers, literary expense. And all ladles not accustomed to mujefi out door exercise should always the iterative of the control of the strength of the control of the strength of the control of the strength of the control of the baids, for while the former, from false delicacy, go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of basiness that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you wo confidently appeal; for we are sure your nover failing affection will unervinely point you to Professor Wood's Rest-rative Cordial and Blood ttenovator as the remedy which should be always on hand in gime of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and I14 Market strict, St. Louis. Mo., and sold by all good Druggists. Also by Dr. Ross, opposite the Court liquise, Lebanon, Fa. Price One Dollar per Bottle.

Lebanon, July 17, 1861. HOSTETTER'S

STOMACH BITTERS. The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rara medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, bu are ready at all times to give testimonials to its

efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is

destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon he stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find n it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged mon and women who have experienced the benefit of using this who have experienced and before the stomach de-preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandone all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of then sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here then, is a necessity for a stimulant to recupe rate the energies of the system, and enable th mother to bear up under her exhausting trial; and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste a well as certain to give a permanent increas of bodily strength.

All those persons, to whom we have partic larly referred above, to wit; sufferers from dysentery, indigestion, loss of appetite, ar all diseases or derangements of the stomac superannuated invalids, persons of sedentar occupation, and nursing mothers, will const their own physical welfare by giving to Ho tetter's Celebrated Stomach Bitters a trial. CAUTION .- We caution the public again using any of the many imitations or counte feits, but ask for Hostetter's Celebrati STOMACH BITTERS, and see that each bottle h

the words "Dr. J. Hostetter's Stomach Bitter blown on the side of the bottle, and stamp on the metallic cap covering the cork, a observe that our autograph signature is on t label.
Prepared and sold by HOSTETTER

SMITH, Pittsburgh, Pa., and sold by druggists, grocers, and dealers general throughout the United States, South Am rica, and Germany.
