APPLE DUMPLINGS.

In every paper you will see some time or other the query, how can I make light pot-pie ! How can I make a light apple dumbling !

Having pared and thinly sliced the apple. I rub butter in the flour nearly enough for an ordinary pie crust; mix a little soda in some water and pour enough in some buttermilk to make it foam; any more than this is injurious; now moisten the crust about as soft as ordinary biscuit, roll out and butter it over lightly, then double it over and repeat. Put in no move apples than the crust will easily lap over on, and two small dumplings are better than one large one, as they are more easily got into a bag and take less time in cooking. When the fruit is cooked the pastry is done and the time of cooking is to be regulated accordingly If we cook the fruit before putting it in, half an hour is sufficient to boil an ordinary sized dumpling made in this way - though in roll form two hours are necessary. Pudding bags must be kept clean and sweet, dipped in boiling water and well floured on the inside before using. As far as my experience has gone, heavy apple dumplings are owing to too much cooking, or want of enough shortning, or perha s a poor fire, and water not boiling to start

05 A singular case of restoration after apparent death occurred on Wednesd y at Albany. A little daughter of Mrs. Wilson, residing on First street, after a sudden relanse succeeding a severe illness, apparently died. The body did not stillen, but every other symptom of death was p. esent. The remains were prepared for the grave, when on Wednesday night the supposed dead child screamed and immedistely the functions of life were resumed. Heavy perspiration poured off the body In great quantities and the pale, marble like form assumed a healthy red appearance. When the "dead" child screamed, those present, except the mother, became greatly alarmed and ran out of the room The mother rushed to the body, enclosed it in her arms and removed it to a bed in the side room. The family physician was immediately sent for, who applied proper restoratives, and the child is now in a fair way of recovering.

A SHREWD DODGE .- The Omaha Nebraskian tells a good story of how \$80, 000 in gold was saved from the clutches of the rebels, in St. Joseph, Mo The money was deposited at the Express office; and hearing that the rebels were coming, an old mouldy trunk was brought from the cellar, and in it the cash was snugly secured, the lid being carelessly tied with a rope. One of the messengers was then dressed in the disguise of a ragged clodhopper, and sent for a drayman, informing him that as it was getting rather hot in St. Joseph he had concluded to pick up his traps and vamose across the river to Elwood The trunk was duly loaded, the express agent meanwhile making fun of the ragged countryman, who followed at the cart's tail. The same old trunk and contents didn't stop short of Omaha City.

THE TRANSPLANTING SEASON .- This is the best season of the year for transplanting truit or shade trees of all kinds. Any time in the fall before the ground freezes deeply will do. Persons having unoccupied land, yards, &c., should plant them with trees. The result will amply pay the cost of labor, and yield a thousand
