THIS valuable preparation, freed of all the common components, such as Opiates, or Expectorants, which not only run down the system, but destroy all chance of one, will be found on trial to possess the following properties, and to which the most valuable testimonials may be found in the pamphlets.

For whooping Cough, and as a Scoothing Syrup, it meets every want, and by early use will save the largest proportion of ruptures in children which can be traced to Whooping Cough.

In ordinary Coughs and Bronchial Complaints, the forerunners of Consumption, its splendid tonic properties make it not only the most perfect enemy to disease, but builds up and sustains the system against recurrence of the Complaint. No nursery should be without it, nor should parents fail to get a pamphlet, to be found with all dealers, as the only way to do justice to its value.

NATURAL DPIATE

THIS great Neuralgic Remedy' and Natural Upiate calls for special attention and interest, being free of Opium, or preparations of Opium, or of any but its strictly vegetable and medical properties. For Loss of Sleep, Chronic or Nervous Head Ache, Sick Head Ache, It has no equal, and to which we offer estimonials from model and other sources.

For Delirium Tremens it is a Sure Remedy.

For Bowel Complaints, including Cholera Morbus, it is plendidly adapted, in not only removing the pains but acting as physic, a great contrast with Opium, which not only constipates and drugs the system, but makes the remedy worse than the disease.

From physicians we ask attention, and on demand Fermulas or Trial Bottled will be sent, developing in the Anodyne an Opiato which has long been wanted, and in the Cough Remedy stich as rest entirely on one central principle.

Two years ago it broke out on my head and covered my scalp and cars with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the thosel Messenger that you had prepared an alterative (Susaparilla), for I knew from your reputsition that any thing you made must be good. I sont to Cincinnatiand got-fr, and need it fill it egred me. I took it as you advise, in small doubs of a frespoonful over a mouth, and used almost three bottles. Dr. J. C. Afer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it is my practice, most of the complaints for which it is recommended and have found its effects truly wonderful in the cure of Tenered and Mercurial Discuss. One of my patients had Syphilitic aleas in his threat, which were consuming his palate and the top of his month. Your Sarsaparilla, steadily takes, cured him in five weeks. Another was attacked hysecondary symptoms in his nose, and the alcention had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla: the alcers healed, and he is well again, not of course without some disignation to his face. A woman who had been treated for the same disorder by incremy was suffering from this poison in her bones. They had become so sensitive to the weather that on a dump day she suffered excremating pain in her joints and bones. She, too, was cured entirely by your Sursaparilla in a few, weeks, I know from its formula, which your agent gayline, that this Preparation Tener your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

This is a remedy so universally known to surpass any other for the cure of threat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the carth. Few are the communities, or even families, among them who, have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has fow all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.
