Gen. McClellan was called to Washington, in July, 1861, until he was removed from the post of General-in-Chief, our forces were almost uniformly successful. The explosion was followed by others, until the entire building was destroyed. Those who could not escape in time, were burned up. The scene was most appalling. Dead bodies were lying in heaps as they had fallen, and in some places where the heat was intense, the whitened bones could be seen through the smoke and flame. In other places, large masses of blackened flesh were visible.

The cause of the explosion is not known, but it is admitted by all to have been accidental. Some assert it was caused by the accidental falling.
