ny, include seven of the stave States. Incir concernee, if obtained, will give assurance of their severally adopting connecipation at no very distant day, upon the new constitutional terms. This assurance would end the struggle how, and save the Union forever.

I do not forget the gravity which should characteristic appear addressed to the Congress of the

acterize a paper addressed to the Congress of the nation, by the Chief Magistrate of the nation. Nor do I forget that some of you are my seniors: nor that more of you have more experience than I, in the conduct of public affairs. Yet I trust that in view of the great responsibility resting upon me, you will perceive an want of respont to vourcelves, in any undue carnostness I may

seem to display.
Is it doubted, then, that the plan I propose, if adopted, would shorten the war, and thus lessen its expenditure of money and of blood? Is it doubted that it would restore the national audoubted that it would restore the national authority and national prosperity? Is it doubted that we here—Congress and Executive—can secure its adoption? Will not the good people respond to a united and carnest appeal from us?—Can we, can they, by any other means, so certainly, or so speedily, assure these vital objects? We can succeed only by concert. It is not, "can any of us imagine botter?" but, "can we all do better?" The downs of the cut to meet the constant of the cut to meet the constant of the cut to meet the constant of the cut to meet the cut to the constant of the cut to meet the cut to better?" The dogmas of the quiet past arc in-adequate to the stormy present. The occasion is plightigh with difficulty, and we must rise with the occasion. As our case is new, so, we must think anew and act anew. We must disenthrall ourselves and then we shall save our country. If then we are, at some time, to be as populous as Europe, how soon? As to when this may be we can judge by the past and the present; as to when it will be, or ever, depends much on whether we maintain the Union. Several of our States are already, above, the average of Europe—seventy three and a third to the square mile. Mass. enty three and a third to the square mile. Mas-sachusetts has 157; Rhode Island 133; Connecticut 99; New York and New Jersey, each 80.—Also two other great States, Penns 2-2nia and Ohio, are not far below, the former having 63 and the latter 59. The States already above the European average, except New York, have in-creased in as rapid a ratio since passing that tural capacity for sustaining a dense population. Taking the parion in the aggregate and we find its population and ratio of increase for the several decennial periods to be as follows:

This shows an average decennial increase of 34 60 per cent, in population through the seven ty years from our first to our last census yet to ty years from our arset to our max, census yet to ken. It is seen that the ratio of increase, at an one of these seven periods, is either 2 per cent, below or 2 per cent, above the average, thus a tring how inflexible and, consequently, how the trible the law of increase in our case is. As-

suching that will continue, gives the following 42,323,341 76,677,872 103,208,415 138,918,526 186 984,335 251,680,914

These figures show that our country may be as populous as Europe now is, at some point between 1920 and 1930—say about 1925—sur territory, at seventy three and a third persons to the square mile, being a capacity to contain 217,168,000. And we will reach this, too, if we do not our elves relinquish the chance, by the folly and wils of disunion, or by long and exhausting waspringing from the only great element of nations al discord emong—use, While it cannot be foreseen exactly how much one huge example of secssion, breeding lesser weak indealntely, would retard sopulation, civilization, and prosperity, no one can doubt that the extent of it would be very great and injurious.

The proposed commonipation would chorten the

The proposed unancipation went escreez inc war, perpetuate peace, insure this increase of population, and proportically the wonlith of the country. With these, we should pay all the emancipation would cost, together with our other debt, easier than we should pay our what found without it. If we had elle per annum, simple gie until to day, without paying anything on either principle or interest, each man of us word sake his splendid farm and residence, situate in owe less upon that debt now than each man owed south Annville township. Lehanon country.

increases faster dain unpaid interest accumulates on its debt.

Afficient instanding this plan, the recommendation that Congress provide by law for compensating any State which may adopt emancipation, before this plan shall have been acted upon, is hotely earnestly renewed. Such would be only an advance part of the plan, and the same arguments apply to both.

This plan is recommended as a means, not in exclusion of but in addition to, all others for re-

exclusion of, but in addition to, all others for re-storing the Union. The subject is presented exclusively in its economical aspect. This plan would, I'm confident, secure peace more speedlly, and maintain it more permanently, than can be done by force alone; while all it would cost considering amounts, and manuer of payment, and times of payment, would be easier paid than will be the additional cost of the war, if we rely solely on force: It is much—very much—that it would cost no blood at all.

This fact would be no excuse for delaying pay-

ment of what is justly due; but it shows the great importance of time in this connexion—the

impracticable to return to bondage the class of persons therein contemplated. Some of them doubtless, in the property sense, belong to loyal washington. owners; and hence, provision is made in this article for compensating such.

The third article relates to the future of the

partiation, would probably Calculate the angle abor, and very surely, would not reduce the angle and very surely, would not reduce them. Thus, the customary amount of labor would still, have to be performed, the free people would still, have to be time; would do less, leaving an increased part to white laborers, bringing their labor into greater demand, and, consequently, enhancing the wages of it.

With deportation, even to a limited extent, guhan red wages to white labor is mathematically certain. Labor is like any other commodity in the market—increase the demand for it and you increase the price of it. Reduce the supply of blick labor, by colonizing the black labor court of the courtry, and typ precisely so much, you increase the demand for, and wages, of, white labor. But/its dreaded that the free profess will swarm forth and cover the whole land! Archey but aircasty in the land? Will liberation make themany more namerous? Equally distributed mong the whites of the whole country, and tharp would be but one colored to seven whites. Could the one, if any way, greatly discontinuous whites, and this, without any apparent conscioueness whites and this, without any apparent conscioueness whites; and but, with the presence of gress, I believe it has never precented the presence of gress, I believe it has never precented the presence of gress, I believe it has never precented the presence of gress, I believe it has never precented the presence of gress,

as now, we should be compelled to send part of the native born-away. But such is not our condition. We have two difficus nine hundred and sixty three thousand square miles. Europe has three, millions and eight hundred thousand, with a population averaging seventy-three to the square mile. Why may not our country, at some time, averaging as manny? Is it less fertile?—Has it more waste surface by mountains; rivers, lakes, deserts or other causes? Is it inferior to Europe in any natural advantage.

The plan is proposed as permanent constitutional law. It cannot become such without the concurrence of, first, two thirds of Congress, and afterwards, three fourths of the States. The requisite three fourths of the States. Their open concurrence, if obtained, will give assurance of their severally adopting emancipation at no very distant, day, upon the new constitutional.

Fellow-citizens, we cannot escape history. We, of this

doubt not, would bring restoration, and thereby stay both.

Fellow-citizens, we cannot escape history. We, of this Congress and this administration, will be remembered in spite of ourselves. No personal significance, or insignificance, can spare one or another. The flery trial through which we-pass, will light us down, in honor or dishonor, to the latest generation. We say we are for the Union. The world will not forget that we say this: We know how to save the Union. The world will not forget that we say this: We know how to save the Union. The world will not forget that we say this: We know how to save the Union. The world which the power, and bear the responsibility. In giving freedem to the slave, we assure freedom to the free-honorable alike in what we give and what we preserve. We shall nobly save, or meanly lose the last best home on earth. Other means may succeed; this could not fail. The way is plain, peaceful, generous, just—a way, which, if followed, the world will forever appland and God must forever bless.

## HOME AFFAIRS.

Capt. Eli Daugherty, of the 93d Regiment, returned to Lebanon, last week, haring resigned his commission in the service. He is suffering severely from the wound in the breast received at Fair Oaks. Although healed outwardly, it is supposed that a piece of the crys tal of the watch remains lodged in the lung, producing blood spitting and a distressing cough. He was in the three months' service and after point as ever before; while no one of them is that about 13 months as Captain in the 93d .equal to some other parts of our country in na. We have no doubt he will receive proper medical attendance here at home and speedily recover, as he would probably have before this, but for the miscrable care he received at the hospitale in Baltimore.

This valuable medicine is now offered to the American Ladies as the only sure, positive, and never failing cure and regulator of suppression of nature, from whatever cause. Particular cure should be used to know that Pregnancy is not the cause, as the Drops would surely produce an office entirely contrary to the course of nature, for which I will not hold myself responsible. These Drops are so mild and pleasant, that the feedlest can take them with perfect security, yet so powerful in their effects, that they may be safely called a never failing Regulator. They can be procured by addressing me as directed below. I have used this medicine for the last twelve year-sin my practice, and therefore well know its merits. Sold by all Druggists.

Is the DEST and CHEATEST and MOST DEAUTIFUL of all Sewing. Machines. This Machine will sew anything, from the running of a tuck in Tarletan to the making of an Overcoat—anything from Pilot or Beaver Cloth down to the softest dauze and Gossamer Tissue, and is ever ready to do its work to perfection. It can fell, hom. Dind, gather, tuck, quilt, and has capacity for a great variety of ornamental work. This is not the only Machine that can fell, hen, bind, and so forth, but it will do so better than any other Machine. The Lotter "A" Family Sewing Machine may be had in a great variety of cabinet cases. The Folding Case, which is now becoming so popular, is, as its name implies, one that can be folded into a box or case, which, when opened, makes a beautiful, substantial, and spacious table for the work to rest upon. The cases are of every imaginable design—plain as the wood grew in its mative forest, or as elaborately finished as art can make them.

## INFALLIBLE LIMIMENT

## GREAT REMEDY

FOR RHEUMATISM, GOUT, NEURALGIA LUMBAGO. STIFF NECK AND JOINTS, SPRAINS, BRUISES, CUTS AND WOUNDS, PIRES, HEADACHE, AND ALB RHEUMATIC AND NERVOUS DISORDERS.

For all of which it is a speedy and certain remody, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practee for more than twenty years with the most astocishing success.

AS AN ALLEVIATOR OF PAIN, it is unri valed by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used it has never been known to fail;

FOR NEURALGIA, it will afford immediate It will relieve the worst cases of HEADACHE in three minutes and is wairanted to it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY AND GENERAL LASSITUDE arising from imprudence or exce.s, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivities the system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the best known, and we challenge the world to produce the equal. Every wictin of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a radical cure. QUINSY AND SORE THROAT are sometimes

extremely malignant and dangerous, but a timely ap-plication of this Liniment will never fail to cure. SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, UL CERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of DR. SWEET'S INFALLIELE LINIMENT, when used according to directions. Also, CHILBLAINS, FROSTED FEET, AND INSECTS BITES AND STINGS.

## A Friend in need. Try it.

DR. SWEET'S INFALLIBLE LINIMENT, DR. SWEET'S INFALLIBLE LINIMENT, as an external remedy is without a rival, and will alleviate pain more specific than any other preparation. For all Rheamatic and Nervous Disorders it is truly infallible, and as a curative for Soyes, Wounds, Sprains. Bruisses. &c. 11s's soothing heating and powerful strengthening properties, excite the just wonder and asconish rent of all who have evere given it a trul. Sover one thousand certificates of remarkable cures, performed by it within the last two years, attest the fact.

Two Horse Owners. DR. SWEET'S INFALLIBLE LINIMENT FOR HORISES is unrivated by any, and all in cases of Lameness, arising from Sprains, Bruises or Wrenching, its effect is magnetal and certain. Harness or Saddle Galls, Scratches, Mange, &c., it will also cure speedily. Spavin and Ringbone may be easily prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a radical cure. No case of the kind, however, is so desperate or hopeless but it may be allevinted by this Liminent, and its faithful application will always remove the Lameness, and enable the horses to travel with comparative case.

Every Horse Owner should have this remedy at hand, for its finely use at the first appearance of Lameness will effectually pre-vent those formidable disenses, to which all horses are lable, and which render so many otherwise valuable horse nearly worthless.
