METAL Tipped Shoes are an important item in the expense of clothing children, as every parent will understand. They invariably wear out their shoes at the toe first and not unfrequently before the other parts are and no datrequently before the other parts are a quarter worn. Children's shees with Metal tips never wear out at the toe, and it is safe to say that on an average one pair with them will more than out wear three pairs without them.—

We believe all the shoe dealers keep them: We are exceedingly glad to see that many of our citizens have commenced the improve dent of their grounds, by planting shrubbery and shade frees. There is scarcely anything that give a town a more envisible prominence that a disposition, among its citizens to describe their yards and gardens with handsome howers and shrubery, and to adorn the streets with shade trees. It every fine house erected here, enhances the value of real estate, every rose bush and shade tree does the some.

In regard to our looks, with which he finds fault, we have mothing to say, more than this, that we make no pretentions to the superlative beauty of said editor, and will lingly yield him the palm on that score. His personalities may also go for what they are worth, for the present, but if it is to come to a dissection and analysis" we can assure some fails that in and analysis" we can assure some to a dissection and analysis" we can assure some folks that we will strike deep and spare not. We do not seek a warfare of personalties, but neither do we desline it. We merely give notice to the aggressors that they are treading on dangerous ground. THE MILITIA -Among the most

important bills of the late Legislature is one providing for the payment of the bold militia. The House very justly granted a month's pay to the men of September; but the Senate hunkishly cut this down one half, wift rations. As the soldlers received no clothing or equipments, and rations are not to be charged, we suppose this half month's pay will be at the rate of full pay, and not at the rate of \$13 a month, which will bring the about the same thing for the privates.

Dr., J. C. Aven. Sir: I have been repeatedly cured of

they cleanse at once. If they will cure others as they do
me, the fact is worth knowing.

DEPARTMENT OF THE INTERIOR,

YASHINGTON, D. C., 7 Feb., 1856.

Sin: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the fiver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilous discuss colstinate that it did not readily yield to them.

Dr. Ayre: Your Pills are the perfection of medicine.
They have done my wife more good than I can tell you.
She had been sick and pining away for months: Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it had, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

Dr. Ayrr.: I have used your Pills with actraordinary success in my family and among those I am called to visit! In distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

DR. Avin: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother had been long grievous yafflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

HONOKED Sir.: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and luguelt on exeruciating neuralgic pains, which kinded in chronic rheumatism. Notwithstanding I had the best of physicians, the disease-grew worse and worse, studied, by the advice of your excellent agent in Baltimere, Im: Hackensie, I tried your Pills. Their effects were slow, but sure. By persevering in theuse of them, I am now entirely well.

SKRATZ CHARMER, BATOR RIGHEY, LA., 5 Dec., 1855.

DR. ATER: I have been entirely cured by your Fills of Rheumatic Gont — a painful disease that had afficied mofor years.

For Dropsy, Plethoras or kindred Complaints, requiring an active pure, they are an excellent remody. For Costiveness or Constinuion, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Infamilla-tion, and even Deafness, and Partial Blind-ness, lave been cured by the alterative action of these pile. Most of the Pills in market contain Mercury, which, al-though a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that fre-quently follow its incautious use. These contain no mar-cury or mineral substance whatever.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cugs of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this contigent without some personal experience of its effects; and fawer yet the communities any, where which have not among thom some hiving trophy of its victory over the subtle spit dangerous diseases of the threat and lungs. While it is the most powerful antidote yet known to man for the forming the property of the victory over the subtle spit dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the institious enemy tink steals upon them unprispared. We have abundant grounds to believe the Charry Pectoral saves more lives by the consumptions it prevents than those it cures. Keep, it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the ingerorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the vittenes of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cock, no care, no toll to produce, it the mest perfect possible, and thus afford those who rely on it the stagent which our skill can furnish for their cure.
