TO THE PEOPLE OF LEBANON BOROUGH.

The common schools of the Lebanon Borough School District have now been

tions to improve our schools and excite training and education of our children, It is a matter of such vital importance not only to parents, but to the community, that none can be excused from "lending a helping hand;" and it is withal so well understood that no explanation or argu-ment is necessary. The directors, there-fore, appeal to all for aid and encourage-ment in their efforts to improve and pro-mote the education of our children. anew the interest of the people in the mote the education of our children. You can, in a great measure, prevent N. Lobanon township. the evil of irregular attendance at school, Recorder and Clerk Quarter Sessions WILLIAM B. KREIDER, for it is a great evil and unfortunately too common. The scholar who is absent a few days every month, or perhaps every week can make no progrešs, learns nothing perfect, and disarranges the whole class to which he belongs. You can see that your children spend at least one hour every evening in looking over their lessons. This may appear a small matter, (and it is a small matter for parents to devote one hour out of twenty four to hear their children's lessons, or sit by while they look over them,) but it is not a small matter in its results to the children. Some of our most learned and distinguished men have received theirs education by candlelight, yet it is not so much what the children actually learn in that hour, as the influence of the example of the parents showing that they take an interest in their lessons. There are certain restraints necessary to a well regulated school which sometimes appear harsh and are unpleasant to parents. If such cases should happen, we ask of parents not to be too hasty ; and if after full consideration they have any complaints to make, let them be made to the directors.

The training and educating of our youth requires eternal vigilence; let us' therefore, all unite in continued watchfulness and unremitting effort to improve our schools and advance the proper ed. ucation of our youths, so that they may become good and useful citizens, ornaments in society and a comfort and blessing to their parents.
